NOTIFICATION.

CUSTOMS.—In further modification of the rules in force for warehousing imported Salt under bond, it is hereby notified, that in settling for the import duty on clearance of the Salt, a deduction will be allowed on account of wastage at a rate not exceeding four per cent upon the quantity delivered over the Ship's side. Provided, however, that if the Collector of Customs have reason to believe, that any portion of the Salt has been clandestinely or fraudulently removed, he will be at liberty to levy duty on the entire quantity so delivered

The duty upon bonded Salt will be levied at the rate in force at the time of clearance

The Collector of Customs, may, at his discretion, allow parties to whom Salt stored in bond may be transferred to enter into a new engagement for the payment of duty upon the entire quantity weighed over the Ship's side, and upon execution thereof, to cancel the bond of the first owner, importer or consignee, and release him from further responsibility.

GOVERNMENT NOTIFICATION

Fort William, Home Department, *Separate*—Revenue, the 4th November, 1818—Notification

It having been represented to the Government of India that sugar from Singapore and Malacca has hitherto, in contravention of the law, been imported into the Tenasserim provinces, and further that the prohibition of such importation would be likely to check the increasing rice cultivation and trade of the Tenasserim provinces without any present benefit to sugar-growers in those provinces, the honorable president of the Council of India in Council has resolved to remove the existing prohibition against the importation into the Tenasserim provinces of foreign sugar, rum, and rum shrub, or sugar, rum, and rum shrub, the produce of any British territory into which foreign sugar, rum and rum shrub can be legally imported, and it is hereby declared, that the resolutions of the 18th July 1818, making such importation illegal are rescinded accordingly

By order of the President of the Council of India in Council,

J W H CAMPBELL, *Offy Collr of Govt Customs*

Calcutta, Custom House, 25th March, 1852

NOTICE.—Much official inconvenience having arisen from the practice of granting inward clearance on mere written guarantees to account for the unadjusted portion of a Vessel's Cargo, it is hereby notified, that, as a general rule a deposit of Cash, or Company's Paper, to the extent of not exceeding two Rupees for every ton of registered tonnage, will be required when a Vessel demands inward clearance before her inward manifest is adjusted in full

Published by order of the Board of Revenue, L P

J W H CAMPBELL, *Offy Collr of Govt Customs*

Calcutta, Custom House, 2nd September, 1852.

Great delay occurring, very frequently, in the clearance of Goods from the Custom House Wharf, the attention of Importers and Consignees is directed to the liability which they incur, under the Provisions of Section 12, Act XVI of 1837 Parties who may not find a ready market for their Goods should avail themselves of the privileges of the Bonding Act (No XXV of 1836,) for which purpose the Ware houses of the Bonded Ware house Association and the Godowns of the Custom House are available. The latter, however, are but little used as Bonded Ware houses, the Merchants who rent Godowns on the Wharf being probably, unwilling to appropriate them exclusively to Bonding purposes

With the view therefore of affording greater facilities for the clearance of Goods within the time prescribed by law, Godown No 2, on the Import Wharf, has been set apart for the reception of Goods bonded for duty. Ware-house rent will be charged on each package according to the Table of Wharfage Rates now in force, but at the lower or single rate for the whole time the Goods may remain in the ware house. As the space is limited, and it is not intended that parties should make use of the Ware house merely for the purpose of avoiding the double Wharfage rates to which, under existing Rules, they are liable in the event of delay in clearing their Goods, only such Goods will be received into this Ware house as may have remained for two months uncleared on the Wharf

By order of the Board of Revenue,

Calcutta, Custom House, 1st March, 1853

WM BRACKEN, *Collector of Customs*

Customs Import Tariff.

Instances very frequently occurring of Refund of duty being claimed on the plea that the Goods upon which duty has been paid, though landed from sailing ships, are the *personal baggage* of parties travelling by the Overland route, Agents and Consignees are hereby warned that exemption from duty must be pleaded *at the time of passing goods*, and that after they have once been removed from the Ship or the Wharf, [unless passed on Deposit,] no claim to Refund or its adjustment of Duty will be admitted.

The only Goods shipped as Cargo which will be admitted to Free Entry, as belonging to Overland Passengers, are Wearing Apparel and articles which have been *previously in use in India*.

By order of the Board of Revenue, L. P.,

Calcutta, Custom House, 18th March, 1853

W BRACKETT, Collector of Govt. Customs.

Bonded Warehouse

BONDED WAREHOUSE.

Act No. XXV of 1836

Passed on the 31st October, 1836

I It is hereby enacted, that it shall be lawful for the Governor, or Governor in Council of any Presidency to declare any Port within the Territories of such Presidency a Warehousing Port.

II And it is hereby enacted, that it shall be lawful for any person who imports Goods into any such Warehousing Port, to lodge such Goods in any Public Ware-house, or in any private Ware house, licensed in the manner hereinafter described.

III And it is hereby enacted, that applications shall be made for the admission of such Goods into such Ware houses as aforesaid in the Form A, attached to this Act, and the said Form shall be signed by the Importer, Owner, or Consignor, and no Goods shall be lodged in any such Ware house until they shall have been assessed for Customs Duty according to the Rules in force at the place of importation, and the Keeper of every such Ware-house shall be answerable for the weight or gauge reported by the Customs House Officers, who shall have assessed the said Goods, deducting the wastage hereinafter allowed.

IV And it is hereby enacted, that when Goods shall be passed by Tonnage or by Package, every omission or misdescription tending to injure the Revenue, shall be an offence punishable with fine, not exceeding ten times the greatest amount of duty which could have been lost to the Government in consequence of such omission or misdescription, and if Goods shall have been overstated in quantity or value, the error may be rectified prior to the lodging of the said Goods in such Ware houses as aforesaid, but not after the said Goods have been so lodged.

V And it is hereby enacted, that no packages of Goods shall be admitted into any public or licensed Ware-house unless numbered and marked in plain and legible characters, with the initials of the Owner, Importer, or Consignor, and with a description of Goods contained therein.

VI And it is hereby enacted, that if upon Goods warehoused under the provisions of this Act, when the Import Duty chargeable shall exceed the sum of one hundred Rupees, the Importer or Consignor shall be allowed to execute a Bond for the amount of duty chargeable in the Form hereto annexed marked B, and when such Bond shall have been executed, the Goods shall be allowed to remain in Ware house for a period not exceeding two years, and a half without being liable to the demand of Import Duty thereon. And the Bond to be taken under this Section shall be for twice the amount of Import Duty assessed on the Goods, and shall stipulate for interest to be payable from the date of the demand of any sum due on account of the Goods at such rate not exceeding six per cent, as shall be fixed by the Board or other controlling authority of Customs, and the Party executing the same shall be bound thereby for the payment of all Duties and Charges that shall be claimable on account of the Goods and of any penalty that may be incurred for violation of the Customs Laws in respect to the same.

VII Provided always, that if any Owner, Importer, or Consignor shall omit to pay any duty or penalty that may fall due on account of Goods as aforesaid under this Act, it shall be lawful for the Collector of Customs at his option, either to proceed upon the Bond or to cause such portion of the Goods warehoused on account of which the duty or penalty may be demanded, as to him may seem fit to be detained, in satisfaction thereof, and if the demand be not discharged within ten days from the date of such detention (due notice thereof being given to the Importer, Owner or Consignor) the Goods so detained shall be liable to be sold in satisfaction of the demand. And the price of any such so made of Goods detained shall be written off upon the Bond in discharge thereof to the amount received less the charges of the sale, and if there be any surplus obtained from such sale beyond the amount demanded, such surplus shall be paid over to the Owner or Consignor of the Goods, and no transfer or assignment of the Goods shall prevent the Collector from proceeding against the Goods in the manner above provided for, any demand of Customs Duties or Penalty claimed thereon.

VIII And it is hereby provided, that if at the end of two years and a half the Owner or Consignor of Goods shall desire to keep them in Ware-house for a further period, the Bond or other controlling authority of Customs, shall be competent to permit him so to keep them for a like further period not exceeding two years and a half, on the Bonds being renewed by the parties applying for the same.

IX And it is hereby enacted, that when a Vessel after having cleared from the Port shall return, and the Owners, Agents or Shippers of the Cargo of such Vessel, or any part thereof shall desire to land the same or re-export such Goods shall be admitted to Ware houses, and being so landed and registered re-export may be made thereon under the previous Settlement of Duty, unless the bottom in which the receipt is made, be one on account of which the Goods are chargeable with increased Duty, in which case the Goods shall be chargeable only with the difference, and no Bond shall be taken on account of Duties for such re-landed Goods, unless the Goods should be liable to duty on being passed through the Customs House for Importation.

X And it is hereby enacted, that upon the re-exportation by sea of Goods imported and warehoused under Bond for the Duty, as provided in this Act, within the period during which such Goods may by this Act be permitted to continue in Ware house, and upon payment of all received duty which may be due on account of such Goods, and any charges or penalties that may have been incurred on account of the Goods the Bond executed at the time of lodging the Goods in Ware house, shall be deemed to have been discharged and be cancelled accordingly.

XI And it is hereby enacted, that if any Goods lodged in Ware houses, in the manner aforesaid, shall be removed or taken from the Ware house, otherwise than for exportation by sea, or if the Goods be not cleared from the Ware house, and exported at the expiration of the time during which such Goods are permitted by this Act to remain in Ware houses, the Collector of Customs shall demand the full amount of Import Duty chargeable thereon, and any charges or penalties that may have been incurred. NOTIFICATION

In modification of the rules for bonding Salt promulgated on the 26th September, 1841, under the authority of the Board of Customs, Salt and Opium, it is hereby notified, that parties desirous of bonding imported Salt in private ware houses may apply to the Collector of Customs for a license in the form C appended to Act No. XXX of 1840.

If the Board are satisfied on the Collector's report that the ware houses mentioned in the application are well adapted for the secure custody of the Salt, a license will be granted under Section 19 of the above mentioned Act, and Salt may then be bonded thereon under restrictions provided by the Act in respect of any other article of merchandise bonded in a private ware house.

A portion of the Government Golah, at Sulkon, will be set apart from the 1st proximo as a public ware-house for the reception of Salt on the same terms at a fixed rent, and will continue to be available for that purpose until required by Government.

Bonded Warehouse

The rate of warehouse allowed upon Salt so ware housed will be at the rate of four per cent per annum upon the quantity weighed over the ship's side, but the Import duty will be settled on the quantity so delivered according to the provisions of Section 18 Act No XXV of 1810.

Ware houses licensed for the reception of Salt under bond will not be available for goods of any other description.

All expenses attending the receipt, storage, custody and delivery of Salt at ware houses licensed as above, or in the Sulkea Gollahs will be borne by the parties availing themselves of the privilege.

Parties who are unable to provide ware houses so constructed and situated, as in the opinion of the Board effectually to provide for the secure custody of Salt while under bond will be allowed as before to ware house their Salt under the Rules of the 28th September 1811 which otherwise remain in full force, except in so far as they are modified by this Notification.

By order of the Board of Customs, Salt and Opium,
CICU BRADON, *Offg Secretary*

The 50th June 1847

NOTICE

Is hereby given, that the practice of granting Temporary Passes for Salt is discontinued, and that, in future, no Salt (except for the purpose of being bonded) will be delivered from Ships lying in the River, except on production of a Rowannah. If the quantity of Salt on Board be less than that for which the Rowannah has been issued, the Preventive Officer will certify the same on the back of the document, together with the actual quantity of Salt delivered to the holder of it. The Rowannah, so endorsed, will protect the Salt in transit on board until an Exchange Rowannah can be taken out.

By order of the Board of Customs, Salt and Opium,
WILLIAM BRACKEN, *Collector of Govt. Customs*

Calcutta Custom House, 31st Jan. 1850

NOTICE

Is hereby given, that the system of granting Temporary Passes for the protection of Sea imported Salt, upon the deposit of duty, will be reintroduced from the 2nd (Twenty second) instant.

2. The Pass, will be obtainable as they were before, at this office, but to be of any validity, they must be countersigned by the Superintendent of the Calcutta Salt Chowks. The Passes will be current for (18) Forty eight hours from the time at which delivery may be completed, as shown by the Certificate of the Preventive Officer on the back of the document.

3. Preventive Officers will be instructed not to give delivery on any Pass, unless it be countersigned by the Superintendent of Calcutta Salt Chowks, and to be careful in endorsing the Pass, to enter the full quantity delivered, and the precise time (hour and minute) at which the delivery is completed.

4. It is further notified for general information, that Commanders of Salt-laden Vessels must invariably enter in the Import Manifest, the quantity of Salt actually shipped, as shown in the Cockets, Export Manifest, Port Clearance, or other document of the Port of Export. If no such document exist, then the quantity shown by the Bill of Lading, that is, the quantity which at the time of shipment the Commander believed to be put on Board, must be entered in the Import Manifest. In the event of no Bill of Lading, the Commander must specify at least how the Salt was put on board, if in baskets, the number shipped, and the mode in which he has estimated the entered weight.

The Bond here by duty of wastage, sufficient to cover deficiencies arising from ordinary causes, should greater wastage be apprehended from any extraordinary cause, it must be noted at the foot of the Manifest, at the time of entry. Commanders will not be held responsible for a larger quantity of Salt than they have reason to believe they have brought into Port, but they must state the grounds of their belief, fully and accurately, and support the same by such documentary evidence, as may be available.

REVISED RULES FOR BONDING SALT

Passed by the Board of Revenue L.P., in their letter to the Collector of Customs, No 434 of 29th March 1851, and published for general information.

I Parties desirous of bonding imported Salt in private Ware houses, may apply to Collector of Customs for a License in the form C appended to Act No. XXX of 1836.

If the Board be satisfied on the Collector's Report that the Ware houses mentioned in the application are well adapted for the secure custody of the Salt a License will be granted under Section 19 of the above mentioned Act, and Salt may then be bonded therein under the restrictions provided by the Act in respect of any other article of Merchandise bonded in a private Ware house.

II Ware-houses licensed for the reception of Salt under Bond will not be available for goods of any other description.

III A portion of the Government Golahs at Sulkea has been set apart as a public Ware house for the reception of Salt on the same terms at a fixed rate, and will continue to be available for that purpose until required by Government.

IV All weighing transport and storage charges will be borne by the Bondor, as also all delivery charges on the Salt being cleared out from Bond.

V The Salt will be weighed over the Ship's side for which purpose weighmen will be furnished from the Custom House on requisition from the Bondor and on his complying with the formalities prescribed by the Board for their remuneration at the rate of 1 Rupee per 1000 maunds.

VI The Bondors will be required to make use of covered boats and to provide wax and tpe for sealing the hatches. Each boat will be sealed by the Preventive Officer on board and be furnished at the same time with the usual Boat Note specifying the quantity placed under Seal.—[For Notification in "Freeman Gazette" of the 11th May 1853.]

VII Bonded Salt will be stored under the supervision of an Officer deputed for this purpose by the Collector of Customs or the Superintendent of the Government Golahs, and it will be the duty of such Officer to receive and examine the Boat Notes and to see that the Seals of the hatches are entire. The Salt will not be weighed into Ware houses but in other respects the precautions in use for storing Government Salt will be observed.

VIII The Superintendent of the Government Golahs will report for the Board's sanction such disbursements as may be necessary for preparing Golah accommodation or for Extra Establishment on account of Salt ware-housed in the Golahs all of which will, after audit be charged to the fund derivable from Golah rents.

IX Any Extra Establishment that may be necessary for the surveillance of Salt lodged in private Ware-houses both while it remains in Bond and on delivery, must be paid by the Bondor.

X In settling for duty on the clearance of Salt ware-housed in the Government Golahs, a deduction will be allowed on account of wastage at a rate not exceeding two and a half per cent. upon the quantity delivered over the Ship's side. Provided however that if the Collector of Customs have reason to believe that any portion of the Salt has been clandestinely or fraudulently removed, he will be at liberty to levy duty on the entire quantity so delivered.

XI For Salt deposited in private Ware houses the duty will be settled on the quantity weighed over the Ship's side according to the provisions of Section 18 Act XXV of 1836.

XII Parties desirous to Bond Salt who may be unable to provide Ware houses so constructed and situated as in the opinion of the Board effectually to provide for the secure custody of salt while under Bond, will be allowed, as before, to warehouse their Salt under the Rules of the 28th September 1841.

J. W. H. CAMBELL, Deputy Collector of Customs, in charge

Culcutta Custom House, 17th Mo. 1853

PASSAGE OF SERVANTS *

Mistakes having occurred on the part of individuals applying to Government for permission for servants to proceed on board ship, with respect to the description of such servants, the Governor-General in Council is pleased to direct, that all persons applying to Government to authorise the reception of any servant on board ship, shall distinctly specify in their application, after careful inquiry, the country to which such servant may belong.

His Excellency in Council is also pleased to direct the extracts from the former orders of the Honorable the Court of Directors, relative to servants proceeding on board ship, be now re-published for general information.

Extract from a public general letter from the Honorable the Court of Directors, dated the 19th August 1807

4th — "We have resolved that in future, previous to any black servant, or the wife of any non-commissioned officer or private, either in His Majesty's or the Company's service, being allowed to come to England, in attend ance upon passengers on board any ship whatever, deposit of £100 instead of £50, as heretofore, be made in the Company's treasury, at your presidency"

Extract from paragraph 17 of a public general letter from the Honorable the Court of Directors, dated the 14th of January 1809

"We think it necessary here to state, that in giving these directions, it was our intention, that the deposit should be made, not only for the return of natives of India, but for that of black servants in general, and we, therefore, now direct, that the prescribed deposit shall be made for the return of all servants who may be natives of any parts of Asia, or Africa, or other countries whatever, continents, or island, which are situated within the limits of the Company's exclusive trade"

Extract from a public general letter from the Honorable the Court of Directors, dated the 22nd July 1814

66th — "We however direct, that in future, upon permission being given for any female European servant to proceed to Europe, the deposit ordered by our general letter of the 19th August 1817 be made previous to the order for the person to be received on board being delivered, and that it be particularly expressed in the order, whether the female servant is the wife of a non-commissioned officer or private in His Majesty's or the Company's service, if so, to what regiment or corps the husband belongs, and whether it is the woman's intention to apply for leave to return to India"

Extract from a public general letter from the Honorable the Court of Directors, dated the 7th January 1820

4 — "We have of late received various applications from the wives of soldiers in the Company's service, who have come to England in attendance on passengers during the voyage, to be granted a passage back to India, at the Company's expense

These persons have no claim whatever upon the Company and we have resolved not to accede to such applications under any circumstances. We therefore desire, that you will make our determinations, in this respect, public, in order that females coming home in the service of individuals may be aware that they cannot entertain any expectation of being returned to India at the Company's expense"

By Command of His Excellency the Most Noble the Governor-General in Council,

C LUSHINGTON, Acting Chief Secy to Govt

PASSENGERS' BAGGAGE

Considerable misapprehension is prevailing as to what articles are comprized in the term "baggage in use," and so entitled to free duty. It is hereby declared, that the term applies solely to wearing apparel, second-hand, or in use, cabin furniture and trifling personal property, all in use and accompanying, the baggage of overland passengers not accompanying them is also imported free, if it would have been free, had the proprietor come in the ship with it

The tide-waiter on board each vessel, after satisfying himself by inspection, that baggage as above defined has been in use, will pass it direct from the ship

Fresh millinery, saddlery, musical instruments, guns, pistols, carriages, wines, spirits, plate, glass, crockery, &c not used, [although for personal use and not brought for sale] are liable to duty, all packages containing such articles, as well as all close packages, whatever contents may be stated to be, must be sent to the Customs House, at the expense of the proprietor, for examination and levy of duty, unless the proprietor can produce to the tide-waiter a Customs House permit or pass, particularly specifying such packages

Passengers, whose baggage may have been forwarded to the Customs House, are requested to apply in writing to the Collector of Customs at the Customs House for a permit, and such applications should contain the number of packages, and the contents and value of each

The inward baggage rules having in practice been modified to the extent of allowing free entry to the following articles, viz

Each lady passenger,

One closed package of new millinery

Each gentleman ditto,

One closed case new saddlery, one ditto wearing apparel, and accoutrements, one gun and pair of pistols.

The inspectors will save the collector much trouble by going on board British passenger ships, at the time of their arrival off town and passing all such packages

The inspectors may likewise take the word of any gentleman in the Queen's or Company's service for the contents of any closed packages, and pass direct all such as may not appear to contain dutiable articles

By order of the Board of Customs,

Custom House, the 2nd Feb 1837.

R WALKER, Acting Collr of Customs, Calcutta

N B — The above applies solely to the baggage of passengers arriving from beyond S a. In passing the baggage of passengers to a ship leaving the port, the tide-waiter on board will exercise greater discretion in passing all wearing apparel new or old, furniture and personal property in use, and stores, such as wines, spirits, tea sugar and blouses, in short, all edible and drinkable articles, for the consumption of a passenger on board ship

* Modified "Under the circumstances brought to our notice in your letters in this Department dated, 12th March last, (No 7.) authorizing you to reduce the deposit made on account of native servants proceeding to England or to the Cape of Good Hope, from Rs. 1,000 to \$50" — See *Calcutta Gazette*, 26th January, 1839

RULES FOR THE MANAGEMENT OF THE POST OFFICE DEPARTMENT.

Passed by the Governor General of India in Council on the 12th of August 1854.

I All existing Rules, General Orders and Proclamations issued by the Government, for the guidance of the Post Office Departments of the different Presidencies and Settlements of India, saving such as relate to Dawk Travelling and matters of account, shall cease to have effect from 1st of October next, and the following Rules and Orders shall be substituted for the same, to be in force at all Post Office Stations in any of the Presidencies, Settlements, or Possessions of the East India Company, and to take effect from the above-mentioned date.

II Letters, papers and parcels shall be received at every Post Office, for despatch by land or sea, to every part of India, to Ceylon, and to every other part of the world with which there is a Post Office communication. Unless specially superscribed for the first despatch by land or by sea, or by some particular ship, they shall be sent by such route as shall appear to the Post Master to afford the means of most speedy and secure transmission. Letters and papers not exceeding 12 tolahs in weight shall also be received at every Receiving House or other place which the Post Master General may appoint. Letters, papers and parcels shall likewise be received for despatch by post as above at every Thannah or District Dawk Office.

III Letters, papers or parcels required to be transmitted *via* Great Britain or Ireland to foreign countries must, unless the pre-payment of postage from the United Kingdom to such countries be optional, be addressed to the care of an agent or other person in the United Kingdom, by whom the foreign postage demandable at the London General or other Post Office may be paid. Such postage cannot be received in this country, and unless it be paid through an agent as above described, the letters are liable to be returned to India.

IV The name of the sender of any letter, paper or parcel shall not be demanded in any Post Office, whether the postage be pre-paid or not.

V Letters, papers or parcels shall be received at any Presidency or Provincial Post Office, or Receiving House, for delivery at the same station, within the ordinary range of delivery.

VI Parcels exceeding 600 tolahs in weight may be received at the discretion of any Officer in charge of a Post Office for despatch along any line of road on which the banghy parcels are not carried by foot-runners, but no parcel exceeding 2,000 tolahs in weight shall be received at any Post Office for despatch by banghy or letter mail under any circumstances.

VII Parcels received by post from seaward, exceeding the maximum weight, which may be sent by banghy post, shall be made over to the Collector of Customs for publication in his lists of Unclaimed Packages.

Postal Rules

VIII Newspapers or other printed or engraved papers, packed in open covers or letters entrusted to be on the Public Service, respecting any of which there is reason to believe that the provisions of the Post Office Act have been infringed, shall not be detained for examination at the Despatching Office, but shall be forwarded marked "Doubtful." The Post Master receiving such letters, &c by the mail, shall then be guided by the instructions laid down in Section XLVIII of the Post Office Act, but unless for the causes specified above, and in Sections XXXVIII and XLVIII of the Post Office Act, all Post Office authorities are prohibited from detaining any letter, paper or packet received for delivery by post.

IX All letters, newspapers or other papers and packets received for despatch by post or banghy post, shall be weighed at the Post Office of despatch, and shall be stamped with the office stamp, and marked single, double, &c, as the case may be, and all letters &c, the full postage on which has not been pre-paid by stamps, shall have the postage to which they are severally liable marked on them. Service letters shall never be re-weighed prior to delivery, nor newspapers, except in case of suspicion. Banghy parcels shall in all cases be re-weighed on delivery. The re-weighing of private letters shall be at the discretion of the Officer in charge.

X Persons not belonging to the Department shall not be admitted into the interior, nor permitted to examine the records of any Post Office, without the special permission of the Post Master General, to whom, or to the Post Master, applications for information or redress must be made, either in person, or in writing, by the party requiring the same.

XI At each Presidency Post Office, banghy parcels will be received every day, Sundays excepted, for despatch, from 10 A M till 5 P M and newspapers and letters every day till 6 P M, after which hours, respectively, they will be received till 7 P M, on payment of an extra half-rupee each, which shall be credited to Government.

XII At Receiving Houses and places where there are letter-boxes, letters, papers and packets not exceeding 12 tola in weight will be received daily from 11 A M to 4 P M or at such other hours as may be determined by the Post Master General, provided that no Receiving House shall remain open for less than five hours daily, and that letter-boxes for letters unpaid and pre-paid by stamps be kept open, day and night, except for a quarter of an hour subsequent to the time fixed for the closing of each mail.

XIII At Provincial Post Offices, banghy parcels will be received for despatch from 10 A M till 4 P M, and letters and newspapers till 5 P M, after which hours respectively they will be received till 5½ P M on the sender paying an extra half-rupee each, to be appropriated as provided in Section XI.

XIV Although all Post Offices will be open for receipt of letters, papers and parcels as above, official references shall be made to Post Office authorities only between the hours of 11 and 5, Sundays excepted.

XV At each Presidency Post Office, there shall be three deliveries daily, the first delivery not to be later than 7, the second at 11 A M, and the third at 3 P M, at which hours, respectively, the peons shall quit the Office with the letters, &c entrusted to them. All letters, papers and parcels received from 3 P M till 5 A M shall be sent out at the first delivery, all from 5 to 10 A M at the second delivery and all from 10 A M to 3 P M at the third delivery, and mails received after 3 P M shall not ordinarily be opened till the following morning, except when received by Express or from seaward.

XVI At Provincial Post Offices the delivery of letters, papers and parcels must depend upon the hour of the arrival of the mails at each station, after which they shall be delivered with all possible despatch.

XVII The delivering peons are prohibited from going out of their usual course to deliver letters, papers or parcels, and from delivering them without immediate payment of the exact amount of postage, and they are not bound to give change. Should they be subject to detention, they are not to deliver the letters, papers or parcels, but to return them in the evening to the Post Office for delivery the following day.

XVIII Whatever postage is marked on a letter, paper or parcel must be paid at once on delivery, after which any complaint of over-charge will be duly attended to. In all complaints of over-charge or unnecessary delay in delivering letters, papers or parcels, the covers or envelopes bearing the Post Office stamp must be presented for inspection, and when any complaints are preferred against any peon, the number on his badge should be specified.

XIX From each Presidency Post Office the mails shall be despatched daily at 8 P M and the banghies as soon after as possible.

XX At Provincial Post Offices the packets for all mails to be despatched in the course of the night shall be fully closed at 6 P M, but for mails which usually pass in the course of the day, the packets shall be made up half an hour before the time appointed for the arrival of such mails, which are in no case to be subjected to any detention beyond the regulated time. Notice of the hour at which such packet is closed shall be hung up outside the Office, both in English and in

Postal Rules.

the language of the district, after which hour, letters, papers or parcels received shall not be forwarded till the following day, unless such mails should not arrive until after 6 p. m., in which case a second packet shall be made up.

XXI. The Post Master at any station, or person in charge of the Office, shall have power to refuse letters, papers or parcels bearing the appearance of having been opened and re-closed, or otherwise improperly dealt with, unless the writer or sender thereof shall attest with his full signature, that they were sent in that state.

XXII. In order to protect, as far as possible, the public mails from the chance of robbery. Officers in charge of Post Offices shall not knowingly receive coin, bullion, precious stones or jewels for despatch, either by letter or banghy post.

XXIII. The servants at the several Post Offices *are prohibited from giving change to parties sending or receiving letters in any case.*

XXIV. Letters will be registered on payment of a fee of 4 annas, and parties posting such letters will be furnished with a receipt bearing the address of the letter and the office stamp. The fee must in all cases be paid in money. On the delivery of a registered letter a receipt for the same must be given to the delivery peon.

XXV. Receipts will not be granted for any letters or papers received at any Post Office for despatch, except in the case of registered letters, and will be granted for parcels only when presented ready written, either in books or on separate slips of paper along with the parcels. Receipts so presented will be duly stamped.

XXVI. On the arrival of any ship or vessel off any British Indian port, a printed notice under the signature of the Post Master of the port or station, shall be delivered to the Commander by the first boat despatched to board the vessel, according to the requisition of which, the Commander shall proceed to dispose of such packets as he may have on board, as directed by Section XL of the Post Office Act, a copy of which Clause shall be communicated to the said Commander.

XXVII. The Master Attendant of each Presidency port, or such other Officer as may be directed by Government, shall furnish the Post Master with early intimation of the intended departure of all vessels to any part of the world, and the Post Master shall cause a list of the vessels for which packets are open to be published weekly in the *Official Gazette* of his own Presidency.

XXVIII. The Post Master shall also cause to be published weekly, in the *Official Gazette* of the Presidency, a notice of the several dates up to which packets have been despatched by each vessel carrying a mail, that may have left the port.

XXIX. All public despatches are to be made up in the most compact form possible, and whenever two or more letters are despatched from any one Office to the same individual, by the same day's post, they are to be put up under one cover, provided they do not, in the aggregate, exceed 12 to the weight.

XXX. When the number of covers received at any Post Office shall cause the weight of the mail to exceed the regulated weight, the Post Master is authorized to keep back a portion of the heavier public despatches and imported newspapers till the following day, but private letters and public letters marked "Despatch" shall not be kept back.

XXXI. Despatches to be transmitted by Express must bear on the face of them the words "By Express," and the signature in full of the Officer sending them.

XXXII. As the employment of Expresses interferes with the celerity and regularity of the ordinary mails, and is attended with expense, public Officers are enjoined to employ them as sparingly as possible, and any public Officer despatching an Express, when the exigency of the Public Service does not, in the opinion of the authority to whom he is subordinate, require it, will be held answerable for the expenses attending that method of transmission. Public Expresses from a Presidency Post Office can only be ordered by a Secretary to Government.

XXXIII. Expresses may be employed by private individuals at the discretion of the Post Master applied to, on payment being made at the rate of 4 annas per mile in advance.

XXXIV. Letters directed to Native Officers, or men of their Regiments or Detachments, shall be delivered to an Orderly, or any other fit person, who shall be deputed by the Officer Commanding the Regiment or Detachment to receive the same, but letters on which postage may be due shall not be delivered to such person, unless the postage be first paid.

XXXV. Letters which individuals address on their private affairs to any Government Officer must be sent pre-paid by stamps, and this rule is to be understood to include letters transmitting Bills of Exchange, Promissory Notes, Receipts, Government Securities, &c., to the Accountant General, Government Agent, or any other public Officer. When public Officers write letters on such subjects to individuals, they shall subscribe on the envelopes, with their official signatures, the words "Bearing Postage."

Postal Rules

XXXVI The postage on letters and parcels sent on the Public Service, by the public Officers mentioned in the subjoined list, shall be charged to the Departments to which they severally belong, such letters must be addressed according to the subjoined form —

This green cover, however, must not be sealed, so that each Post Master may satisfy himself that it contains the Registered Letter, and must be enclosed in the Mail Bag or packet addressed to the next Transit Office

No Letter can be received in order to be registered, unless it is brought to the Post Office half an hour before the closing of the box for the particular Mail or Bag by which it is to be despatched

The Post Masters at Forward Offices must enter the address of Registered Letters on the Letter Chulan, and when re-directed, they must of course be carefully entered on the Letter Bill, with which they are forwarded to their new address

On the delivery of a Registered Letter to the party to whom it is addressed, a receipt in duplicate must be taken by the Delivery Peon or Letter Carrier, one of which receipts must be returned to the Posting Office by the first post, the duplicate carefully preserved by the Post Master as the voucher for its safe delivery, since he will be held responsible for the letter, if he cannot produce the receipt, as proof of the delivery when applied to

The portion of the cover returned to the chief Office must bear a clear impression of the dated Office Stamp, showing the day on which the Registered Letter reached the Post Master's hands, and it may be sent open in the Bag

No Letters can be refused to be registered, provided they are posted in sufficient time and the Registration Fee is paid in advance, and that the other Regulations in force with each class of Letters are duly complied with

Any neglect of these Regulations, which shall involve the loss of a Registered Letter, will not only render the party liable to be called on to make good the amount of the loss sustained in consequence, but will be punished by dismissal from the service

That there may be no misconception as regards the course to be pursued with Registered Letters, it must be distinctly understood, *that the person to whose possession such Letter is last traced will be held responsible for it as a matter of course, until he shall have discharged himself of the responsibility by a satisfactory explanation*

It will therefore be necessary for every Officer on opening a Bag or Packet immediately to seek the Letter Bill, and in the event of a Registered Letter being entered on it, to certify its arrival by attaching his initials to such entry, he will then place the letter in its proper channel for disposal, taking an acknowledgment, by initials or otherwise, from the person into whose hands it may be given for delivery or despatch, each Officer who may receive the Registered Letter pursuing the same course, until it reaches the party for whom it is intended, when the usual Official Receipt is obtained on its delivery.

Should any entry be made on the Letter Bill of a Registered Letter, and such Letter (although it ought from its being separate from the others to be distinctly seen) cannot be found in the Bag, the opener of the Bag must immediately report the circumstance, calling in, if possible, another person to verify the fact before he has touched the other Letters.

Postal Rules.

With regard to the despatch of Registered Letters, the same precautions must be observed, the Clerk who receives the Letter for despatch must obtain a discharge from the Officer to whom he delivers it, and this Officer, and all others through whose hands it may pass, must pursue the same course. The Despatching Clerk will enter the Letter on the Bill, carefully checking it into the Bag, and will be only exonerated from his liability by the signature of the Receiving Clerk, at the Office to which the Bag is addressed.

Every irregularity connected with Registered Letters must be instantly reported to the Post Master of the Station, and by that day's post to the Post Master General, in order that innocent parties may not be involved in heavy responsibilities, which in reality do not attach to them.

Each Post Master will be responsible, that every party employed in his Office is made acquainted with these Regulations, and will take their signature that they have perused them.

NOTICE REGARDING THE DESPATCH AND POSTAGE RATES OF LETTERS, &c.

As Act No. XVII of 1854 "for the management of the Post Office, the regulation of duties of postage, and for the punishment of offences against the Post Office," will come into operation on the 1st of October next, the attention of the public is drawn to some of the most material of the changes which have been made in the rates of postage to be paid, and to the conditions under which letters, bangles, parcels, newspapers, pamphlets, &c., will be conveyed by post.

On and after the 1st October, 1854, no money payments will be received at any Post Office on account of letters to be despatched pre-paid, letters which the sender wishes to despatch pre-paid, must have postage stamp labels pasted or gummed on them, of value sufficient to cover the postage.

If the value of the stamps affixed to any letter be less than the full amount of postage chargeable, twice the difference between the value of the stamps affixed and the proper postage will be charged on delivery.

Letters sent unpaid will, on delivery, be charged double postage.

Parcels, newspapers, pamphlets and printed and engraved papers may be sent paid or unpaid, at the discretion of the sender.

No receipt will be given for any but registered letters, on which the authorised registration fee has been paid.

Letters re-directed or forwarded will be charged in addition to the postage paid or due on them, with the rate of postage which they would be liable to, had they been posted and pre-paid at the place at which they may be re-directed.

Provided that the full amount of postage is pre-paid, the following rates of postage will be charged for the conveyance of a letter from one Post Office to another within the territories under the Government of the East India Company, without reference to the distance to which it may be carried —

H B RIDDELL, *Director General of the Post Office in India*

REGULATIONS FOR POSTING AND APPLICATIONS FOR DAWK BEARERS.

I TRAVELLERS may be furnished with Dawk Bearers on application at the different Post Offices, where they will obtain all the requisite information as to the estimated distances between known Stations, to which only Dawk Bearers can be had by any Post Master

II A set of Dawk Bearers comprises twelve men, viz, eight palanquin bearers, two munsalchees, and two banghy bundais, for which is charged, payable in advance, at the rate of eight annas per mile, but, as in many instances, owing to the delay caused by travellers remaining longer on the road than the stipulated time, this sum is found unequal to the expense, a further sum of four annas per mile is required to be paid as a deposit, to cover any eventual expense or demurrage caused by delay on the part of the traveller Should none occur, the full amount of the sum deposited is refunded, upon the traveller furnishing a certificate from the Post Master at the place where his journey terminates, that he arrived there without incurring demurrage It is the duty of Post Masters to furnish travellers with certificates, specifying, according to circumstances, whether, or otherwise, he has come on demurrage Such certificate, it must however be understood, is only applicable to the Post Master's divisions who grants it, for it sometimes happens that a traveller having incurred demurrage on part of the road, by travelling subsequently during those hours originally appointed for halting, reaches the last division within the given time.

N B—It is to be particularly observed, that in some districts, bearers are with difficulty procured, and where they have to be sent a considerable distance to take up the traveller, and in like manner to return home—for time so occupied, they are paid additionally. and in all such cases, Post Masters are authorized to charge the actual cost for the traveller's bearers

III When it is reported that a traveller comes on demurrage on any part of the road, the adjustment of the amount deposited to cover such expenses will be postponed until the receipt of the Bills for the dawk from all the Post Masters through whose divisions the traveller may have passed

IV Travellers, whether proceeding from the Presidency or from out stations, are provided with a form, in which they are requested particularly to note any cause of dissatisfaction they may meet with on their journey, and the places where they meet with obstructions or irregularities on the part of the bearers or subordinate Post Office servants this form being affixed to the certificate which the traveller has to present for signatures, secure its being noticed.

V. When a dawk has been ordered, and circumstances may render expedient for the traveller to postpone his journey, or to withdraw the bearers entirely, he will of course be held liable for any expense which may have been incurred on his account. The amount paid for the dawk, and the amount deposited to cover demurrage, will therefore remain unadjusted, until reports are received from the several Post Masters on the line of route upon which the dawk was ordered.

Post Office

VI Traveller's baggage must not exceed for each banghy-bandar twenty-four seers, and this must be divided into two parcels or petualahs of such dimensions, as to render them conveniently portable, when slung as banghies.

VII It is to be generally understood, that although Government permits their servants to lay dawk bearers for the convenience of the public, the State derives no benefit from this source, and that neither Government nor any of their Officers are in any degree responsible to the traveller for the misfortunes and disappointments which are inseparable from dawk travelling: thus every traveller travels at his own risk, and is liable to the losses and increased expenses incidental to delays and accidents, and that Government can in no instance be considered liable to make good any losses whatever.

VIII When irregularities and consequent inconvenience occur to travellers, the Post Master General, on being applied to, will immediately investigate the complaint brought to his notice, but this can only be done in the same manner, and to the same end, as a superior in any other department would interfere to inquire into complaints preferred against his subordinates.

IX In cases of overharge alone, or charges which, to the parties complaining, might appear unjust, because arising out of some positive neglect or error on the part of the Post Master who lays the dawk, it would be the duty of the Post Master General to investigate the matter, with a view to afford pecuniary redress.

X In every case of refusal to make good demands on account of laying dawk bearers, Post Masters are authorized to detain all letters, parcels, &c., for the person from whom the demands are due, in the same manner as he is authorized to act under Clause IX. of the General Rules.

XI Any decision pronounced by the Post Master General in all matters relative to dawk bearers to be considered final.

ABSTRACT OF RULES FOR THE BULLOCK TRAIN DEPARTMENT.

1st No package is to be received for despatch by Bullock Train, which is likely to cause injury to other packages, or which is in any way damaged or not securely packed, or which is improperly directed: the address must be legible, and be written or printed on something not likely to be rubbed off or obliterated: a direction written on a card is not to be received.

2nd When a package is made over for despatch by Bullock Train, it is to be weighed on measured, and a receipt given to the person by whom it is posted (the counterpart of the receipt will be retained in the Office as a record,) and a ticket pasted on it, showing the date on which it was posted, its weight, and place of destination.

3rd. All packages must, if possible, be despatched on the day they are posted: the date of despatch is to be marked on the ticket, all packages must be entered in the Office Despatch and Transit Registers, and the Advice and Transit Chellauns must be prepared before the packages are despatched.

4th The Chellauns will be forwarded by the first Mail after the despatch.

5th Packages should be forwarded in the order in which they are received, and be invoiced in the order in which they were entered in the Transit Chellaun of the Office in rear.

6th Even when there may be a stoppage, and an accumulation of packages, this Rule ought not to be broken through: the packages received with each despatch from the rear should be kept distinct and separate. If a portion of a despatch only can be forwarded, the order of the Transit Chellaun should be observed, and packages first in the Chellaun should be first despatched.

7th Whenever a package entered in an Invoice may not be received, the non-arrival of the package must be notified to the Office in rear: if the package not received be for an Office in advance, a note of its non-receipt must also be made in the Forward Transit Chellaun. When a package not in the Chellaun arrives, a note is to be made in the Chellaun of the despatch with which it was received, the package is to be carefully weighed, the correct line from the Office of despatch (if known) is to be calculated, and the package entered in the body of the Forward Transit Chellaun with a remark stating the date of its receipt.

8th Transit Chellauns should be numbered consecutively in one series for each year, from the 1st May to 30th April. Advice Chellauns will also be numbered consecutively, a separate series being opened for each corresponding Office: any irregularity in numbering Advice Chellauns is to be brought to the notice of the Post Master General.

9th. An abstract of each Advice Chellaun, showing the total number of packages, their weight and measurement, and the paid and bearing line thereon, is to be daily entered in the Abstract Register, a separate page being devoted to each Office on the Bullock Train Line.

10th. Post Masters will examine carefully the packages which may pass in transit through their Offices, and note in the Transit Chellaun any apparent injury which may have occurred: any failure in this duty will render them responsible for all subsequent damage. The Post Master's receipt on the Transit Chellaun must exonerate the establishment in rear, and any injury subsequently reported, will be considered as having occurred at the Office at which the

Post Office.

last receipt was given or through the neglect of the Road Establishment in advance, should no remark have been made by the Mutsuddoes or Guards.

11th Each Transit Office will keep up a Transit Register of packages despatched, and be careful to copy in the appropriate column any remark made on the Transit Chellaun.

12th When it necessary to forward to another station any package for which an Advice Chellaun has been received, it must be considered as a new despatch as far as responsibility for the transit charge is concerned, and accordingly the Forwarding Office will debit itself with, and the Receiving Office remit the whole amount of the charges, original and forward, but to prevent confusion and double credits, will enter the original charge in a separate column of their Registers, in which, as in the Chellaun, the original will be distinguished from the forward charge.

13th When a package may be claimed by the addressee while in transit, before it has reached its original destination the Post Master will recover the full amount of the charge made thereon by the Despatching Office, and remit that sum to the Office to which the package may have been originally consigned, by a draft in favor of the Post Master of the Office of despatch, with a memorandum stating the fact of the delivery of the package.

14th The Post Master of the Receiving Office will weigh all packages received, compare them carefully with the Advice and Transit Chellauns, and enter them in detail in the Receipt Register, with remarks on the state in which they may be received.

15th The Advice Chellaun will be returned receipted, with a copy of any remark made on the Train Invoice, which may be applicable, and with a docket stating the number, date and amount of draft by which the amount of bearing Bullock Train hire is remitted.

16th Bullock Train remittances are to be made four or five times in a month, and are not to be mixed with remittances on any other account. The Abstract Register of packages received is similar in form to that of despatch, and is also to be daily kept up a note of any instructions from addressees, regarding the disposal of packages, is to be noted by the Delivering Officer on the Advice Chellaun in which the packages are involved.

17th The bearing hire on Bullock Train packages must be realized before the packages are delivered, a notice of arrival should be sent round to the parties concerned, with memorandum of the amount to be paid by each, but on no account should private individuals be allowed to receive a bearing package without payment the addressee's receipt should also be taken in the Station Delivery Book.

18th Packages for out-stations, i.e., stations not on the Bullock Train Line, will be consigned to the Post Master of the nearest Bullock Train Office, who will forward them to their destination according to the instructions received from the addressees, or in the absence of any instructions, by the cheapest and most convenient mode. All such out-station packages must be consigned to the care of the Post Master of the station to which they may be addressed.

19th An Advice Chellaun will be sent by Letter Mail and a receipt given to the cooly or cartman by whom they may be conveyed the Post Master of the addressee's station will receive, deliver the packages, sign the receipt presented by the bearer, and remit the amount by draft to the Despatching Office of the Bullock Train Line.

20th The Register of all such despatches will be kept separate from Banghy or other Registers, and the despatching Post Master will be careful that the cooly or cartman bring back the receipt of the Post Master to whom the package or packages may have been consigned.

21st The Rules regarding the docketing of the Chellauns and returning them with a draft, as detailed in paragraph 15, hold good in regard to out-station packages.

22nd When one cart or cooly may take several parcels for different stations, as for instance from Agra to Gwalior, Seprce and Ghoorah, a Transit Chellaun will be sent to Gwalior, and Advice Chellauns to the three stations.

23d All advances drawn for the coolies, &c, for the despatch of parcels to out stations, will remain until adjusted in the Insufficient Balance of the Office by which the advance may be drawn as due from the Post Master of the Office to which they may be sent.

ADDITIONAL RULES

1st. Circular Order, Post Master General, N W P, dated Agra, 30th May 1853, No 4, directs that the charge for Bullock Train hire is to be calculated on the aggregate weight, and a booking fee of two annas charged on each package.

2nd Post Master General, N W P, letter No 843, of 1st March 1853, directs that no fractions of half a maund are taken into consideration.

3rd Post Master General, N W P, letter No 284, of 28th June 1853, directs that children under six years of age, travelling by Bullock Train, with a parent or guardian, should be charged half the fare of an adult passenger.

4th Post Master General, N W P., letter No 936, of 17th January 1854, directs that no charge should be made for an infant travelling with its mother in arms.

Post Office

5th. Post Master General, N W P, letter No 1248, of 29th March 1854, directs that dogs and monkeys accompanying Bullock Train passengers should be charged half the hire of an adult traveller, and birds confined in cages should be charged by measurement, but if loose no charge should be made.

6th Post Master General, N W P, letter No 353, of 1st August 1853, directs that packages for places not on the Bullock Train line are to be charged with Bullock Train hire to the nearest station on the line, and from thence they will be forwarded.

7th Post Master General, N W P, letter No 432, of 13th August 1854, directs that no packages will be despatched by the Bullock Train, which contain acids or other substances which are likely to cause injury to other packages in the waggon.

8th Director General's orders of 5th October 1854, directs that all heavy Service Banghy Parcels are to be sent for the future by the Bullock Train, unless the real urgency be specified on the parcel, in which case it is to be sent by Banghy.

RULES FOR THE TRANSMISSION OF MESSAGES BY THE ELECTRIC TELEGRAPH.

Passed by the Governor General of India in Council, on the 5th January, 1855.

I. MESSAGES on the Public Service shall take precedence of all others.

II. Service Messages shall be charged for at the same rate as private Messages, but the former shall be paid for by a transfer in account, covered by a *pro forma* receipt, without cash payment.

III. A Return shall be made every quarter to the Government of India and to the local Governments, showing the number and cost of Messages transmitted by each Department during the preceding quarter.

IV. No Government Officer shall employ the Telegraph except on urgent and important occasions, and no Message shall be sent on Service by the Electric Telegraph unless the saving of time effected by the Telegraph is of real importance.

V. At the seats of the local Governments, authority to despatch Messages is vested in the head of the Government and in his Private Secretary. All other Service Messages, Civil and Military, shall be sent under the authority only of the Chief Secretary to Government, and of the chief Military Officer respectively.

VI. At Calcutta, Messages will be sent under the signature of the Governor General, of the Private Secretary, and of the Secretaries to Government. The power of communication along the river is also vested in the Superintendent of Marine and the Master Attendant.

VII. At Telegraph Stations not being seats of Government, no Service Message shall be sent unless it be signed by the Chief Civil, or Military Officer of the station, each for his own Dept.

VIII. The Officer who signs the Message will be responsible for the necessity of sending it by the Telegraph, and if on the periodical inspection of the Station-books, it shall be discovered that Messages of a trifling nature have been despatched, the Officer who authorized them will be made to pay for them.

IX. Officers, whose signatures will authorize Messages to be sent free, are bound in honor not to send private communications under cover of that authority.

X. All Service Messages must be conveyed in as few and as short words as possible.

XI. Messages will be received for transmission by Electric Telegraph on and after the 1st of February 1855, at the under-mentioned rates of charge and subject to the following rules —

A single rate is one Rupee for 16 words and under, and for that sum the Message may be transmitted 400 miles.

A single rate, or distance of 400 miles from Calcutta, will include Benares, and all Telegraph Stations between those cities.

Electric Telegraph Rules

A double rate from Calcutta will include Agra & the intermediate Stations at Allahabad & Cawnpore.

A treble rate from Calcutta will include Meerut, Delhi, Loodianah, Lahore, Gwahor, Secpree and Indore

A quadruple rate from Calcutta will include Peshawur and Bombay.

Peon hire, at the rate of 4 annas per mile, will be charged for extra, if the Message be sent to any place at a distance from a Telegraph Station.

The rates for the Madras line will be established on the same principle, and will be announced when the Offices under that Presidency are opened.

XII. No Message, however brief, will be charged for at less than a single rate, and the reply will in every case be charged for separately

XIII. Mercantile or other Messages involving important results, will only be received on condition of being repeated back from each Receiving Station, and at double price, according to the practice in Europe

XIV. The sender of a Message may pre-pay the charge for a reply, which must be limited to the number of words so pre-paid for

XV. All Messages must be in the English language, and must be pre-paid in cash, including Peon hire, excepting Messages sent from River Stations below Calcutta.

XVI. No unpaid Message, with the above exceptions, shall on any account be transmitted. A violation of this rule will subject the Signaller, or Assistant in charge of the Station whence the message may be sent, to dismissal from Office.

Under this department, it is considered desirable to introduce the following "Rules, for Grants" in and which have been recently established by Government and brought under the control of the Director of Public Instruction —

RULES FOR GRANTS IN AID

The following are the Rules which have been promulgated by the Government of Bengal, with the sanction of the Supreme Government, for regulating Grants in Aid of Education in the Lower Provinces of the Presidency of Bengal, according to the Despatch of the Hon'ble the Court of Directors, No 49, dated the 19th July 1854 —

1. The Local Government, at its discretion, and upon such conditions as may seem fit in each case, (reference being had to the requirements of each District as compared with others, and to the funds at the disposal of Government,) will grant aid, in money, books, or otherwise, to any School in which a good secular education is given through the medium either of English or the Vernacular tongue, to males or females, or both, and which is under adequate local management.

Public Instruction.

2. In respect of any such School for which application for aid is made, full information must be supplied on the following points —

First.—The pecuniary resources, permanent and temporary, on which the School depends for support.

Secondly.—The average annual expenditure on the School

Thirdly.—The average number of pupils instructed, the ages of the pupils, and the average duration of their attendance at the School.

Fourthly.—The persons responsible for the management and permanence of the School, and the time for which they will continue to be responsible.

Fifthly.—The nature and course of instruction imparted

Sixthly.—The number, names, and salaries of Masters and Mistresses, and subjects taught by each.

Seventhly.—The books in use in the several classes of the School.

Eighthly.—The nature and amount of aid sought, and the purpose to which it is to be applied.

3 Any School to which aid may be given shall be at all times open to inspection and examination, together with all its Accounts, Books, and other Records, by any Officer appointed by the Local Government for the purpose. Such inspection and examination shall have no reference to religious instruction, but only to secular education

4 The Government will not in any manner interfere with the actual management of a School thus aided, but will seek, upon the frequent Reports of its Inspectors, to judge from results whether a good secular education is practically imparted, or not. And it will withdraw its aid from any School which may be for any considerable period unfavourably reported upon in this respect.

5. In giving Grants in Aid, the Government will observe the following general principles. Grants in Aid will be given to those Schools only (with the exception of Normal Schools) at which some fee, however small, is required from the scholars, and wherever it is possible to do so, they will be appropriated to specific objects according to the peculiar wants of each School and District

6. No Grant will in any case exceed in amount the sum expended on the institution from private sources, and the Government will always endeavour so to give its aid that the effect shall not be the substitution of public for private expenditure, but the increase and improvement of education.

7 It is to be distinctly understood that Grants in Aid will be awarded only on the principle of perfect religious neutrality, and that no preference will be given to any School on the ground that any particular religious doctrines are taught or not taught therein.

Should vessels of this description however be moved without such permission, having been obtained, they will be liable to the fine specified in Article 14th.

The Deputy Harbour Master will visit the vessels to see that this regulation is complied with, and on his reporting any vessel in the port to be without the proper number of buckets the commander will become liable to the penalty specified, unless it can be proved that the Deputy Harbour Master is in error, and that the ship or vessel really is provided with the number of buckets required.

21st The practice of diving off spots by candle light from which so many fatal accidents to ships have occurred is also strictly prohibited to all ships and vessels in the port under a penalty of 400 rupees for every offence, half of which will be awarded to the party giving information of such infraction of the port regulations. All Pilots and officers of the Harbour Master's department are strictly ordered to see that this regulation is observed, and to report any infraction of it. As in other cases of fire on board the port regulations to which any penalty attaches when violated, if it is either of the fines specified in this and the foregoing clause, shall have been incurred a bill will be sent out to the commander for payment, and no Pilot will be granted to the vessel on board of which the offence committed is not paid.

22nd, Finally, you are hereby informed that no Pilot will be allowed to take charge of your ship outwards, until a certificate from the Collector of Customs, either by express sent to the Master Attendant's office, stating that all port charges due on her account, and all fine if any have been incurred, have been paid.

Rules to be observed by Commanders of Ships lying in the Esplanade Moorings

All applications for these Moorings to be made at the Harbour Master's office by Commanders. Ships will be permitted to remain at these Moorings from the 15th June to 15th October.

Port Regulations.

The Esplanade being a place of public resort, Commanders are requested to have their fireboats and lights carefully screened in so as to avoid any unnecessary exposure of their armament, either from gangs of hoolians watching themselves, or from other causes.

Commanders are requested to take particular notice that their crews are prohibited from bathing along side their ships at any time.

All ships are to have their jibbooms rigged in before going into the Moorings.

No hawsers or lines are, on any account, to be made fast to the posts, buoys, or trues on shore, except for the purpose of hauling in or out of the moorings, and then only to the two former.

Any infringement of the above rules or any rash behaviour or riotous conduct on the part of the crew will subject the vessel to be immediately removed into the stream.

Notices touching Port charges at Calcutta, for the information and guidance of Owners and Commanders of Vessels.

The Marine Board having lately, under the orders of Government, been engaged in revising the general regulations of the Marine Department, bearing on the shipping frequenting the port, request the particular attention of owners, agents, and commanders of vessels, to the following arrangements in connection with the charges on account of pilotage, &c., framed with a view to the mutual convenience of the Marine Department and the shipping interests.

First—Commanders are requested, prior to quitting their vessels on arrival off Calcutta, to fill up and certify, or cause to be filled up and certified, a form of certificate showing the actual registered tonnage, the draft of water, and weather the vessel has or has not been tugged by steam or any part of the way or has not had the use of a row boat, which form will be furnished to the Pilot in order to the bill of the vessels being correctly made out.

Second—Commanders are further requested, as early after their arrival as possible, to notify, in writing, to the Master Attendant, the name and residence of the person for the payment of the vessel's bills.

Third—On the receipt by the Master Attendant of the above certificate and written reference for payment, a single bill will be prepared, including inward pilotage, light house duty, Moynore magazine duty, and row boat hire, (if any) which, together with a certificate to be forwarded to the Marine Pay Master for collection within fifteen days of the arrival of the vessel and living on it the name and residence of the party referred to for payment, which commanders are requested to furnish to the Master Attendant in writing as early after their arrival as practicable, that officer may more readily be enabled to present it. By this arrangement all the charges connected with the vessel up to her arrival off Calcutta will be embodied in one bill instead of, as hitherto, being made in separate bills.

Fourth—In the event of vessels docking, or being transported at the desire of the commander, it is requested that a certificate may be given by the commanding officer of the operation having been performed, in order to accompany the bill when presented for payment to the relief.

Fifth—The practice of charging for hauling to the chain moorings for their monthly hire, and for hauling from the moorings in separate bills, is discontinued, and henceforward one bill will be prepared, including the charge for hauling to the moorings, that for copying them, and that for hauling from them, and commanders are requested to give, or cause their commanding officers to give, to the Master Attendant or the Harbour Master, a certificate of the date of hauling to and from the moorings, which certificate as aforesaid, will accompany the bill when presented for payment. The hire of the moorings will be charged for the day on which the vessel is hauled there-to, without reference to the period of the day, and in like manner no charge will be made for the day on which she hauls from her moorings, how ever late in the day she may quit them. The charges connected with the chain moorings will thus be embodied in one bill and be discharged in one payment, instead of three or more, according to the number of moorings the vessel occupied the moorings.

Sixth—The system of charging outward pilotage on an estimated draught of water with an addition of ten per cent, subject to adjustment after the vessel has sailed, and of charging a certain number of days for a row boat subject to a like adjustment, is abolished, and in future the outward pilotage and charge for row boat hire on outward bound vessels, will be made as follows.

When the vessel is finally laid in the commander is to give notice thereof to the Master Attendant, when the draught of water is to be ascertained and certified by the commander or commanding officer on the part of the vessel, and by the Harbour Master on the part of Government, subject in case of dispute to the decision of the Master Attendant. On receipt of the certificate the Master Attendant will cause a bill to be made out for the regular amount of pilotage, and for the row boat hire according to an average rate with reference to the size of the vessels and the season of the year, fixed by a committee, which bill is set at the Bunkhall, the majority of which was composed of members of houses of agency and commanders of ships. The bill and certificate will be presented in due course for payment.

Seventh—As however it frequently happens that vessels are taking in cargo or filling them with up to the last day of their departure, or that from other circumstances the bills for the chain moorings and outward pilotage cannot be made out till the eve of departure, owners, agents and commanders are in such cases particularly requested, with a view to dispatch, to cause an individual to attend at the Bunkhall and expedite the transmission of the bill and certificate to the Board for registry, and to the Pay Office for collection, at each of which offices they may in such cases depend upon the most ready and special attention.

Eighth—In the event of a vessel being tugged any part of the way down by steam, or not having the use of a row boat, commanders are to obtain from the Pilot at Kedgeree a certificate to that effect, which they should forward by day to their agents. On receipt thereof agents are requested to make out a bill against the Honourable Company for the quarter deduction from the pilotage allowed, if tugged by steam, or for the row boat hire paid, as the case may be, and to forward it, together with the certificate, to the Marine Board for audit and payment.

Ninth—In cases where a vessel leaves Calcutta, avowedly intending to fill up cargo at some place below the pilotage will be charged at the draught at which she leaves Calcutta in like manner, though at the reduced amount, as if she had proceeded to Sea, and with respect to the subsequent pilotage charge, from the place at which the vessel takes in the additional cargo, to Sea, owners or agents of vessels will be required to furnish a special guarantee to pay the amount chargeable according to a certificate of the draught of water to be signed by the commander or commanding officer and Pilot.

Tenth—Six sets of moorings at Hammond Harbour having been fitted specially to enable vessels arriving in distress from loss of anchor and cables to be readily moored the charge will be Co's Rs 50 for mooring and demoorning, and the daily hire the same as for the moorings at Calcutta. The moorings will of course be available to vessels not in distress from loss of anchors and cables, but the Harbour Master will be instructed at all times to keep two sets vacant during the S. W. monsoon to meet casualties.

Eleventh—An index is a statement of the several port and pilotage charges and the Marine Board trusts, that with them and the certification of the commanders or commanding officers before them, owners and agents of vessels will, at all times, be enabled readily to ascertain the correctness of the bills, and to discharge them on presentation.

NOTICE

The Government of Bengal have been pleased to modify the Rules relative to vessels navigating the River Hooghly in manner following.

1st. All vessels under 100 tons and not drawing more than 15 feet trading within the Bay of Bengal considered as bounded by a line drawn from Cape Comorin by Point de Galle and Vellan Head to the Southern Point of Wales Island, are permitted to navigate the River Hooghly without a Pilot on payment of double light and buoy duties provided the commanders can show the satisfaction of the Master Attendant, that they possess a knowledge of the River equal to that which is required of Commanders of Steam Tugs permitted to act as Pilot under a licence.

2nd. Vessels of more than the above specified tonnage and draught, from whatever part of the world they may come, are not required to wait for a Pilot at the Sand Heads but only to make the usual signal to keep it flying as long as they are without one, and to take a Pilot if one offers his services.

3rd. Vessels ready for Sea are permitted to proceed without a Pilot, provided one does not come on board within 24 hours of the time at which the port clearance was produced at the Master Attendant's Office. With respect to vessels trading beyond the Bay and of more than 100 tons and drawing more than 15 feet water, the modification of the Regulations above described, is not to come into operation until the 1st May 1847.

4th. It is also hereby notified that from the 1st proximo, and hereafter instead of the present Moyapore magazine duty of one anna per ton on all vessels a charge of $\frac{1}{2}$ anna per ton as buoy duty, and $\frac{1}{4}$ anna per ton as Moyapore magazine duty will be levied.

Fort William, the 31st Oct 1846

ORDER OF HIS EXCELLENCY THE MOST NOBLE THE GOVERNOR GENERAL IN COUNCIL.

FORT WILLIAM, JULY 16, 1801

Whereas it hath hitherto been the practice for ships importing at Calcutta to retain their gunpowder on board while lying in the port, and whereas the explosion of a large quantity of gunpowder on board of a ship lying off the town, might be attended with the most destructive consequences to the town to the inhabitants thereof and to the shipping in the port, and whereas instances have occurred of shot being fired into the town of Calcutta and into the country adjacent by ships sailing from Fort William or firing guns on other occasions, His Excellency, the Most Noble the Governor General in Council, with a view of obviating the serious consequences which might ensue from a continuance of those irregular and dangerous practices, has been pleased to establish the following rules.

1. The commanders of all vessels bound to the port of Calcutta, and proceeding up to the town of Calcutta, or to any other part of the river above Moyapore are required on or before their arrival off Moyapore, to land at the magazine, which has been erected at that place, all the gunpowder which they may have on board, (whether contained in barrels, or made up into ammunition) exceeding the quantity of one hundred pounds, which quantity every vessel is permitted to retain on board, for the purpose of firing salutes or signals in cases of distress. Officers appointed by Government, will take charge of the gunpowder immediately on its being conveyed to the shore at Moyapore, and will deposit it in the magazine. Commanders of vessels are required to make the names of their respective vessels on the barrels and packages of gunpowder previously to their being landed. A receipt for the gunpowder will be granted by the officer in charge of the magazine.

2. In order that vessels may be detained as short a time as possible for the delivery of their gunpowder, commanders of vessels are required, on coming in sight of Moyapore, to hoist a flag at the fore-top mast-head, whereupon the officer in charge of the magazine, will immediately order persons to be in readiness at the river side to receive the gunpowder.

Pilotage Rules.

3. Gunpowder shall not be landed or received into the magazine between sunset and sunrise.
4. The commanders of vessels outward bound, who may require gunpowder for their outward voyage, shall not take gunpowder on board in any part of the river above Moyapore, with the exception of a quantity not exceeding one hundred pounds, for the purposes before mentioned. Should any gunpowder have been landed from any vessel, when inward bound, and deposited in the magazine, the gunpowder will, upon the application of the Commander of the vessel to the officer in charge of the magazine, (such application being accompanied by the receipt granted on the deposit of the gunpowder in the magazine) be conveyed to the river side, and delivered to such person as may be sent to take charge of it.
5. In future vessels entering the port of Calcutta shall not at any time, while lying in any part of the river between Moyapore and Calcutta, have on board without the express sanction of Government, any quantity of gunpowder exceeding one hundred pounds for the purposes before mentioned, the Collector of Government Customs is hereby empowered and directed should he have reason to believe that a quantity of gunpowder exceeding one hundred pounds has been received on board of any vessel, to cause the vessel to be searched, and should any greater quantity be found on board to seize the same. The Collector is also empowered and directed to seize any unauthorized quantity of gunpowder which may be attempted to be shipped on any vessel, in opposition to the rules herein prescribed, all such gunpowder so seized, shall be liable to confiscation, the Collector shall immediately send all the gunpowder so seized to the magazine in Fort William, and shall report the circumstances of the case to the Board of Trade, the Collector shall not grant a port clearance for any ship vessel from which gunpowder shall have been so seized without the express authority of the Governor General in Council.
6. One half of the estimated value of all gunpowder which may be consumed under this regulation, shall be granted in equal proportions to the Collector of Customs and his deputy, the remaining moiety shall be granted in equal proportions to the informer and to the officer assisting in making the seizure.
7. The commanders of vessels lying at Diamond Harbour, or in any other part of the river below Moyapore will be permitted to deposit their gunpowder in the magazine at Moyapore.
8. Pursuant to the orders contained in the 4th article of these regulations the commanders of all vessels now lying in the port of Calcutta, having on board a quantity of gunpowder exceeding one hundred pounds, are required to send the quantity of gunpowder exceeding one hundred pounds which they may have on board of their respective ships, or to any place on shore, to the magazine at Moyapore. If the commander of any vessel shall not conform to this regulation he will be liable to the penalties stated in the 5th article.
9. The commander of all vessels lying off the town of Calcutta or any part of the river between the town and Kedgeree are prohibited from firing guns (excepting for the purpose of saluting Fort William, or for signals in case of the vessels being in distress) for any purpose whatever without having previously obtained the permission of Her Majesty's Justices of the Peace for the Town of Calcutta. When guns shall be fired from any ship for the purpose of saluting Fort William, or for signal in case of the ship being in distress, and also in cases in which guns may be fired with the permission of the Justices of the Peace, the commanders of the ship is enjoined to be particularly careful that the guns be not shot.

Notice is hereby given, that the building that served as a Magazine at Howrah, for the deposit of powder for sale, ceased to be used for that purpose in May 1850 since which the above orders of 1801 have been as they still are in full force. All commanders violating the same by bringing up gunpowder in their vessels are warned that it will be liable to seizure and confiscation, if the quantity exceed 100 lbs whether it belongs to the ship or is for sale. All powder in excess of that quantity must be landed at the Moyapore magazine.

The orders do not apply to Government powder such as ammunition brought for the use of troops on board. This must be brought up to Town at Diamond Harbour or Fort William for if it is left at Moyapore commanders will have to bring it up from thence at their own expense.

DEDUCTIONS FROM PILOTAGE CHARGE FOR EMPLOYING STEAM

A great deal of unnecessary trouble and correspondence has been caused by parties not following the proper course for the recovery of the deduction from the charge for pilotage allowed for vessels employing steam. Bills for pilotage, are frequently returned to the Collector of Customs with a remark written on them that the vessel has been tugged in part or entirely to Sea. Notice is hereby given that the deduction on that account cannot be recovered in that way. The pilotage is payable in advance and bills for the full amount must be paid whether a vessel is towed by a Steam or not. If she is, full must allow to be made out for the usual deduction on that account, and present it at this office when it will be paid if correct and accompanied by the Pilot's certificate, specifying that steam was employed and to what extent whether in part or entirely out to Sea. Without that document no such claims can be admitted. The attention of owners and agents of ships to this Deduction is earnestly requested.

COMMANDERS TO FIND GUARANTEE FOR THE PAYMENT OF GOVERNMENT CHARGES

Fort William, the 7th February 1827

Notice is hereby given, that whereas, in several late instances, the Marine Board have been unable to recover just claims for sundry port charges incurred after ships have left Calcutta, such as, for detention of row-boats additional pilotage charges arising from the original draught of water given being considerably under the actual,—it has been deemed expedient, that the commanders of all vessels, from and after the 15th instant, shall previously to their being provided with a Pilot, furnish the Master Attendant with a guarantee of some respectable house for the payment of all such charges. Copies of the form of application for a Pilot, and of the guarantee will be furnished at the Bankshall.

1—Parties having any claims on the Marine Department, are requested on and after the 1st proximo to forward the same, for examination and registry, direct to the Marine Board whence, if found correct, they will be transmitted, without loss of time to the Marine Pay-master and passed for payment.

2—To prevent as much as possible, the multiplication of unnecessary correspondence, it is requested that bills may be, in general, transmitted under a blank cover, superscribed with reference to the contents of the

Pilotage Rules.

former, and that on the face of the bill itself reference may be made to the authority on which the claim is preferred, and the vouchers if any annexed to the bill. In cases where the claim has arisen out of correspondence with the Board, reference by number and date, to the Board's letter, sanctioning the charge, will be sufficient.

3.—Of course when a bill is presented on account of transactions, which have not been previously before the Board it will still be necessary to accompany the bill with vouchers, and an explanatory letter.

4.—Any bill which may be found inadmissible or to require correction or further voucher, will be returned to the party as early as possible, and should it not be so returned within the week the drawer will know that it has been passed to the Marine Paymaster and may accordingly apply for the payment.

No. 109

NOTICE TO COMMANDERS OF OUTWARD BOUND VESSELS

Great inconvenience arising to the agents of vessels from commanders of outward bound vessels which have been engaged by steam or which have had no representative in attendance on them, not attending to the 8th item of the published Notices touching port charges, and sending up from Keelong, the required certificate without which the refund of Pilotage and the charge paid on account of tow boat cannot be paid by the Marine Board. Commanders are therefore reminded of the necessity on their own vessels account of their obtaining such certificate from the Pilot and forwarding it to their owners from Keelgoe.

ACCOMMODATION ON BOARD THE PILOT VESSELS

The following revised rules, relative to the accommodation of passengers proceeding to the Sand Heads or down the river, on board any of the Honorable Company's Pilot Vessels, having been sanctioned by Government, are published for general information.

1st. Officers civil or military, when ordered to proceed on duty on board pilot vessels are to notify the same to the Master Attendant. In cases where persons, whether public officers or private individuals, are desirous of proceeding on board a pilot vessel for the benefit of their health, application to be made is also stated as accompanied by a medical certificate. Individuals both in the Service and out of it, who may wish to go on board a pilot vessel for purposes unconnected with duty or health are to make application to the Superintendent of Marine. Officers in command of pilot vessels are not account to receive on board as passengers, persons who have not obtained the requisite sanction from one or other of the above named authorities.

2nd. Individuals proceeding on board pilot vessels under any of the circumstances stated above are entitled to occupy the port half of the deck accommodation free of other charge than that of mess or table money hereafter pointed. It must be understood that in all cases when in conformity with these orders the port cabin has been assigned to any individual no one can be allowed on board of such accommodation without the party by whom it was not assigned, or remains on board. Officers public either on or out of the service, permitted to go on board, can only have such accommodation as the demand of affairs and the pilot tendering should let any of them have the use of his starboard cabin. It is to be optional with him to allow the occupation of it except as to the record of duty to which he must give up his or the starboard half of the accommodation if required, but he is not account to demand a rate of pay for this accommodation from the Company, except a proportion for the first fourteen days, and six pence a day for every day after whether it be given up voluntarily or under order.

3rd. Pilots in charge of vessels are to provide a suitable table for their passengers, and are not account to demand a large amount for table money than the sum specified in the margin, and any proceeding directly or indirectly any demand other for table money or accommodation not strictly authorized by these regulations, besides being compelled to refund any overcharge, will be subjected to such loss of rank or other punishment as Government at the reconstituted of the Superintendent of Marine may award.

4th. When a pilot vessel is placed at the disposal of a public functionary to convey him to different ports in succession, half the amount of table money may be charged for day, point on shore up to one week, but should the week be exceeded, no table money is to be charged for any more days spent by the functionary on shore, but on his rejoining the vessel the rate will revert to the latter schedule. A Pilot voluntarily proceeding in command of a vessel beyond Pilotage waters, is not to be paid for his services, and if required to be taken for the use of a public functionary, such Branch Pilot being accommodated with a cabin in one other part of the vessel.

5th. Without Officers or other respectable parties whose means do not admit of their paying the above rates, can be accommodated, and in such cases the 2nd Mate and Volunteers at a charge of two pence a day for the first fourteen days, and one penny eight farthings for each day afterwards that they remain on board. The Branch Pilots in charge of the pilot vessels are to note that such passengers are at once directed to these rates. Any demand for more will subject those who prefer it to punishment.

NEW PILOT STATION FOR THE S.W. MONSOON—DISTINCTION OF LIGHTS

Notice is hereby given, that from and after the 15th March 1852, the Pilot Station for the South West Monsoon will be changed to the position described in the following Sailing Directions of the Master Attendant of this Port, and that from and after the date specified the Eastern Channel Light Vessel will show a *bright red light* instead of a *plain one* as at present, to distinguish it from the Casper Channel Light, which bears from it about N. N. W., distant 22 miles.

By order of the Superintendent of Marine,
JAMES SUTHERLAND,
Secretary

Port William, the 6th May 1851

Clearing Rules.

Sailing Directions for Vessels requiring Pilots during the South-West Monsoon, at the New Station, on the North-East part of the Pilot Ridge.

False Point Light House is in latitude $20^{\circ} 19\frac{1}{2}'$ north and longitude $86^{\circ} 47'$ east, and a buoy is placed in 81½ fathoms on the Pilot's Ridge, in latitude $20^{\circ} 49\frac{1}{2}'$ north and longitude $87^{\circ} 42'$ east, the buoy therefore bears from False Point Light House north $59^{\circ} 49'$ east true, and distant $59\frac{1}{2}$ miles.

A vessel therefore after making the Light House at False Point (in passing which she ought not to go into less than 10 fathoms) should bring it to bear about west south-west 10 or 15 miles distant, when she will be in 11 or 12 fathoms, then steer east north-eastward, when the soundings will gradually increase to 23 fathoms on the eastern edge of the Pilot's Ridge. She should then regulate her course so as to keep between the Ridge and 27 fathoms, when by attention to the land and nature of the soundings, course and distance run from the Light House, it is almost impossible to avoid making Pilot Vessels, as their cruising ground is immediately to the north-east of the Light Vessel stationed during the South-West Monsoon in close proximity to the buoy on the Ridge.

The soundings to seaward of the Pilot's Ridge are in general a greenish or olive-coloured mud, with occasionally a few bits of broken shells mixed with it, whilst those on the Ridge are of a shelly sand, or minute gravel, of a reddish or rusty brown color.

Vessels approaching the Station are earnestly warned to be careful in avoiding collision when communicating with either the Light, or supplying Pilot Vessels, and on making the former at night, they are strongly recommended to heave to, at a proper distance till day-light by which measure they will avoid the probability of passing the supplying Pilot Vessels in the darkness of the night.

The Eastern Channel Light Vessel is in latitude $21^{\circ} 04'$ north and longitude $88\frac{1}{2} 14'$ east, and therefore bears from the buoy on the Pilot's Ridge, north $63^{\circ} 26'$ east true, and distant $32\frac{1}{2}$ miles.

The Eastern Channel Light Vessel burns a blue light every hour during the night, commencing at 7 P.M., and a marcon (or torch) at the intermediate half hours, and her standing Light will from the date above specified, be a bright red colour.

The Pilot's Ridge Light Vessel shows one plain standing Light, and burns a blue light every hour, and a marcon at the intermediate half hours, and also fires a gun on sighting any vessel.

During the North-East Monsoon, the cruising ground where Ships will have to seek for Pilots, will be as heretofore in the Eastern Channel.

HOUSES OF REFUGE,

ERECTED AT THE EASTERN ENTRANCES OF THE FIRST THREE GREAT RIVERS

East of Saugor Island

Notice is hereby given, that these houses of refuge for ship-wrecked mariners thrown on shore on the Sea face of the Sunderbunds have been put up as follows, under the superintendence of Mr Branch Pilot Bedford, the river surveyor, and on the sites selected by him.

No 1

Erected just to the northward of Jackson's grove on Seyers' point, forming the eastern entrance to Channal Creek. It is on an extensive plain, covered with short grass, inside or to the eastward of some high Sand Hills that here line the shore.

No 2

Erected at the eastern entrance to the Subtermookey River, 400 yards to the northward of the point that forms from Bulcherry Island, and 200 yards from high-water mark. It is in the midst of thick low jungle.

No 3

Erected at the eastern entrance to the Jamera River, 400 yards to the north of the point that forms the entrance of the Subtermookey River, and 200 yards from high-water mark.

"It may," says Mr Bedford, "assist the memory of those interested in the matter to note, that the above houses are erected on the eastern entrances to the three first large rivers to the eastward of the Hooghly, and that they are pointed as boys would be, viz. eastern one, Black, western one, Red, and the centre one White."

In each house there is a supply of blacut and water, which will be easily found by reading the instructions put up in each, which also give others that will be useful. A Cutanaran is attached to each house.

The directions are abridged from Mr Bedford's report to the Master Attendant and published for general information.

RULES FOR CLEARING THE RIVER HOOGHLY OF WRECKS AND OTHER OBSTRUCTIONS

1 In order to provide for clearing the bed of the river of all anchors that have been lost in its channels and anchoring stations, and for the recovery and removal of every description of wreck deposited therein, it shall be the duty of the Master Attendant to employ, in the most efficient manner practicable, under the official superintendence of the Marine Board, the means placed by Government at the disposal of that officer, for the purpose specified.

2 All recovered anchors, grapnels, and wrecks of every description, shall be landed as soon as may be practicable, in the same state in which they are recovered. Articles belonging to the Hon'ble Company, are to be deposited in the Bankshall premises, and immediately after their being so deposited, a full and accurate description shall be taken of the articles for registry, specifying whether the articles are of a perishable nature or not; place where, and date when found, and such other information as may be at all calculated to enable others to identify their property. A distinguishing mark is to be placed on the anchor or other thing so recovered, with white paint, when the article will admit of it, the mark expressing the year in which it was recovered, and the number in the register of that year; when the article will not admit of being marked with paint, it is to be in some other manner sufficiently identified, so as to connect it with its particular item in the registry.

3 The above information is to be regularly entered into books of registry to be kept for that purpose at the Master Attendant's Office, which books shall be always open for public inspection, during the hours of business; a copy of this registry shall be sent weekly, under the signature of the Master Attendant, to the Marine Board.

Clearing Rules.

who will cause a list of the recovered articles, with all the necessary information, to be hung up in the Exchange Room, for the information of the public.

4 In the event of the right of property being proved to the satisfaction of the Master Attendant, or in case of dispute, to the satisfaction of the Marine Board, such property shall be valued by Messrs. Mackenzie, Lyall and Co., or the proprietors of the Exchange, subject to arbitration, if the value fixed by them should be objected to either by the Master Attendant on the part of Government or by the owner. When the valuation shall have been fixed, the Master Attendant shall make out a bill for salvage, rated according to the place of recovery; viz., 4th of the value of articles recovered above Fultah, 40 per cent on articles recovered between Fultah and Culpah; 60 per cent on articles recovered between Culpah and Sugar, and 65 per cent on articles recovered below Sugar, with interest on the amount of salvage, calculated from the date of recovery at the rate of six per cent per annum, the salvage to be calculated on the value fixed by Messrs. Mackenzie, Lyall and Co., as above directed. The bill is to be sent to the Marine Board for registry, it is then to be passed to the Marine Paymaster for collection, on the production of whose receipt to the Master Attendant, that Officer will deliver up the anchors or wreck identified.

5 All perishable property shall, if unclaimed, be sold by public auction, by Messrs. Mackenzie, Lyall and Co., three months after its recovery, unless they, in conjunction with the Master Attendant, consider it for the interest of the owners that it should be sooner disposed of in like manner, all non-perishable property shall be sold, at quarterly public sales, twelve months after recovery. One receipt of the net proceeds, salvage, as directed in Article 4th, shall be deducted therefrom, to the credit of the "Wreck and Anchor Concerns" and the balance be deposited in the General Treasury for payment, without interest, to parties at any time subsequently establishing their right thereto.

6 In cases where ships may have parted from their anchors, or other property have been lost or wrecked, and information of the same is immediately communicated by the owners or commanders, to the Master Attendant, the requisite assistance is to be afforded without delay, and the anchors, &c, when recovered, are to be delivered to the owners, on security given for payment, at the rate of three rupees per cwt. for anchors, or similar property, any other description of property so recovered, is to be delivered on payment of one-half the amount of salvage, referred to in 4th paragraph, according to the place from whence the property is recovered, the valuation thereof to be made by Messrs. Mackenzie, Lyall and Co., subject as before, to arbitration. If the owners or commanders possess suitable means for recovering their own anchors or other lost or wrecked property, within 48 hours after they have been parted from, or lost, and decline receiving assistance, the interference of the Master Attendant is then forbidden, but, should they fail to remove the obstructions within that period, (unless it shall be extended under the sanction of the Marine Board,) the Master Attendant is authorized to effect the subject himself, and all such anchors or property, when recovered, shall be subject to the prescribed charge of salvage in Article 4th.

7 Should any anchors or other property, not their own, be recovered by owners or commanders of ships, when weighing or recovering their own anchors they shall be delivered to the Master Attendant in the state in which they may have been found, with every thing attached to them and be registered in the same way, as if they had been recovered in the first instance by the Master Attendant. In this case, however, the parties so recovering wrecked property, shall be entitled to one half the amount of salvage.

8 The above rules are not to be construed to extend to the case of any ship or vessel being wrecked in any part of the river. In such case the Master Attendant shall, on the regulation of the parties concerned, afford every practicable assistance for recovering the said ship or vessel, her stores or cargo, and such a claim, or compensation in the nature of salvage, shall be preferred by the Marine Board, as to them, under all circumstances of the case, shall appear reasonable, should however the parties concerned decline the assistance of the Master Attendant, their operations shall not be interfered with, unless by their negligence the navigation of the river should become liable to continued obstruction from the accident. In this case, as before, the Master Attendant is to adopt all the necessary measures to remove it.

By Order of the Marine Board,
CHAS B GREENLAW, Secretary.

3rd. Members of the Pilot Service whose state of health may require a voyage to Sea, or who may on that account desire to leave the Presidency, shall submit application for the same through the Master Attendant to the Marine Board, forwarding with the application a certificate from the Marine Surgeon, or Assistant Surgeon. The Marine Board may grant leave for any period not exceeding three months, and the party availing himself of it, may draw while absent on such leave, his entire pay and allowance without deduction. The bills may be drawn in duplicate and will be payable to the order of the Pilot, provided, however, that no Pilot shall be allowed to benefit by this provision, unless he shall give security to such amount as may be sufficient to cover any refunds to which he may become liable in case of proceeding to Europe or of over-receipt by agents.

GENERAL RULE

10th. Under the authority of the provisions contained in the latter part of Clause 1, Act 1 Victoria cap 47, it is further provided in respect to all the above classes of officers, that if they embark with the permission of Government at any other Presidency than their own, or at any other place or port in India, provided that it be not more distant from their station than the ports of their own Presidency, the date for the commencement of the operation of the above rules for sick leave beyond Sea, shall be that of actual embarkation at such place or port, and not that of leaving the frontier of their own respective Presidency, and the same privilege in respect to the date of leaving India, will be granted to officers of the several Services referred to, embarking at other Presidencies or place in India, not more distant from their station than the ports of their own Presidency with the leave of Government previously obtained, for the purpose of proceeding to Europe on furlough or of retiring from the Service altogether.

11th In the above rules no provision is made for the case of servants of the classes mentioned resigning the Service after leaving their Presidency with the permission of the Government in consequence of sickness. The case of such persons has been considered by the President in Council to require a new rule, which, under the terms of the Act, requires to be submitted for the confirmation of the Hon'ble the Court of Directors before it can take effect. It is accordingly declared, that the security to be given by servants, as the condition of their drawing allowances while absent from their Presidency, must provide for the case of such retirement, and the servants must bind themselves to refund the whole of the allowances so drawn, in case of their resignation and departure for Europe without previous return to their Presidency, provided that the new rules to be established should require such refund.

RULES FOR THE GUIDANCE OF RUNNING PILOTS

Outward-bound Vessels

1. On receiving an order to take Pilotage charge of a vessel, the Officer will proceed on board with all convenient despatch and ascertain her state. It is his duty to see that her decks are clear, and to ascertain as far as practicable without causing unnecessary detention by hauling up cables and sails for inspection, that she is in a proper state for working both as regards her masts, yards, rigging, sails, and also her anchors and cables. He is to ascertain that she has two bower anchors, and that if she has not sheet or spout anchor fit for a bower over her side, that she has one in such a position on deck that it can easily be brought into use in case of its being required. Should it be necessary to communicate with the Commanding Officer on these points, the Pilot is to do so in the most respectful manner, and if his representations and inquiries do not meet with prompt and due attention, and he should still have reason to suppose the ship deficient in any of the above regulations, he will not take charge, but immediately report the same to the Master Attendant. A vessel losing one of her three bower anchors after leaving Gaiden Reach, is not therefore to be stopped, if the Commander wishes to proceed. Officers are directed to ascertain that the vessels to which they are appointed, have the means of showing two good lights, during the nights for the whole of the time they are likely to occupy in getting clear of Pilot's water.

* Widows of pensioners married after the party becomes a pensioner and the children of such marriages, are not entitled to pension, though of course, all children born of mothers married prior to pension being granted are so.

Pilotage Rules.

2. Should any Officer of the Pilot Service, on going on board to take charge of an outward-bound ship, have reason to think that her crew is so weak or otherwise so inefficient as to be likely thereby by causing unusual detention to him in taking her to Sea, he is to make his opinion known to the Commander or Commanding Officer on board, decline moving the vessel, and report the circumstance to the Master Attendant, unless the deficiency is supplied immediately.

3. An Officer before taking Pilotage charge of an outward-bound ship, is to be very particular in ascertaining her draught, and forwarding a certificate of the same to the Master Attendant's Office, signed by himself and the Commander or Commanding Officer of the vessel a receipt will be granted for this certificate if required. Should circumstances render waiting for the receipt inconvenient, the vessel may proceed on an understanding with the Commanding Officer, that if the certificate of draught of water (on which only the Pilotage bill can be made out) is not received at the Bankshall before the vessel passes Moyapore, Telegraphic orders will be sent to detain her until it is received.

4. In the event of any difficulty being made in regard to the reception on board of any outward-bound vessel of the Post Office and Government despatches for which receipts are to be duly signed by the Commander or Commanding Officer the Officer in Pilotage charge is (by special orders of Government) not to conduct her to Sea, but wait for further instructions.

5. Should an attempt be made to put goods on board of an outward bound vessel after the Port Clearance has been obtained and the Preventive Officer has left the Officer in Pilotage charge will likewise remonstrate against it, and if it should be still persisted in report the same and remain for orders, unless such goods are accompanied by a Custom House permit, in which case they are to be received and the permit forwarded to the Master Attendant's Office.

6. A ship is not to be taken in tow by a steamer which has not an authorized Officer in Pilotage charge, unless such Officer shall have left her in full health, after leaving Calcutta, when it may be permitted at the discretion of the Officer in Pilotage charge of the ship, provided the Commander of the latter agrees to the arrangement.

7. In the event of an Officer being appointed to a ship that does not leave Calcutta within two days subsequent to the date of his appointment, he is to report the same to the Master Attendant together with the probable time of his departure, which is to be learnt from her Commander, which should she still exceed, the delay is again to be reported. Officers in charge of ships detained for three days at Nangor or any other part of the river below Calcutta, are to report and explain the cause, and for every subsequent three days' detention in like manner.

8. An Officer appointed to the Pilotage charge of a ship above Bishop's College, who, on going on board, shall find her at single anchor (unless in charge of a duly authorized Officer) is not to move such vessel, but he is forthwith to report the same to the Master Attendant, unless the Commanding Officer can show a written permission from competent authority. The Master Attendant or his Assistant.

9. In case of a vessel taking in cargo at any place on her way down the river, so as perceptibly to alter the draught the Officer in Pilotage charge, is to forward a certificate of such altered draught, noting the place where the cargo was taken on board.

10. Officers in Pilotage charge of ships are not to permit their leadmen, to take servants to Sea with them. A leadman, either of the Service or some other, to be always in the chains when the vessel is under weigh in Pilot's water.

Inward bound Vessels

11. Officers taking charge of vessels at Sea are to be provided with copies of the letter from the Secretary to the Superintendent of Marine to the Commander, and of the Order in Council relative to the Moyapore magazine and also with copies of letters required to be filled up and addressed severally to the Secretary to the Superintendent of Marine, the Master Attendant and to the Post Master at Kedgees. Immediately on getting on board he is to write the name of the Commander and of the vessel on the letter to the Commander's address, giving it and the Order in Council to him with the letters above referred to. It is to be most particular in seeing that these four letters, or such of them as he may be furnished with, are correctly filled up as ordered to the form of each before he takes charge, unless the vessel is in a situation of danger and he is to be careful that they are delivered to the first dak boat to be forwarded to their respective addresses. Should there be more passengers on board than the column in the report intended for the names, for the information of the Governor General, and Governor or Deputy Governor of Bengal, will contain a separate sheet, must be attached with the names of the passengers, and a note made in the column, "see attached list."

12. A manifest is to be forwarded from all merchant ships, even although they have only ballast on board.

13. Officers in Pilot charge of inward-bound ships, are directed to receive any document tendered by the Commander as his manifest, and append the same to the printed form.

14. The Pilot on delivering to the Commander of an inward-bound vessel the blank manifest, which is contained in the letter addressed to the Secretary to the Superintendent of Marine is to insert in it the hour at which it is delivered to the Commander, and again the hour at which it is returned in order to be forwarded by the Kedgees dak boat, and the vessel is on no account to pass Kedgees until the Pilot has received that document.

15. Should it be quite impossible to communicate with the dak boat at Kedgees, the Pilot will forward the manifest from Diamond Harbour, distinctly understanding that it must be in his possession before passing Kedgees, otherwise he is to anchor the vessel.

16. Should an inward-bound ship remain at anchor outside of Kedgees, the manifest ought to be returned to the Officer in Pilotage charge, filled up and attested by the Commander. Should he refuse to do so immediately upon anchoring, the Officer will respectfully warn the Commander of the consequence (namely, a penalty of a thousand rupees) of his neglecting to do so within twenty four hours from his first taking charge, and report to the Master Attendant, should that time be exceeded.

17. Every vessel, whether British or Foreign, having salt on board, on entering the river, will hoist her ensign at the main, which will be answered either at Kedgees Light House or Semaphore Station, and the information be forwarded by Semaphore for the purpose of having a Custom House Officer sent to meet her from Diamond Harbour.

18. Should an attempt be made to remove goods from a vessel in the river, the Officer in Pilotage charge will remonstrate against such proceeding and report the same to the Master Attendant, with such description of the goods as he can obtain.

19. Officers in charge of inward-bound vessels, are to point out to Commanders the necessity of keeping a good look-out for the Custom House Boat, and of affording every facility to her in getting alongside, and that nothing short of the safety of the vessel, is to prevent her receiving a Preventive Officer on board, at the proper station.

Pilotage Rules.

20 In order to secure the correct insertion of the ship's tonnage in the printed form to the Secretary to the Superintendent of Marine, and in the inward certificate, the Officer is to request a sight of the register, and should this be denied, he will make a note of the same in the letter and on the face of the certificate.

21 When no Second Mate or Volunteer is available as a leadman, the Pilot on entering the river and obtaining a two boat man, should address the Commander in some such terms as the following —

"I require the lead to be hoisted with great accuracy to a small quarter fathom, and great attention paid to such directions as I shall give regarding it. Have you a man on board that will do this? If not, I have a man here whom from experience I know to heave the lead better than most European seamen and with your permission I will send him in the chains." If the Commander after this explanation chooses to prefer one of his own crew to heave the lead, the responsibility for correct soundings will then rest with him as it ought to do, in that case.

22 An Officer taking charge of a ship at the Sand Heads, the language of whose crew he does not understand is not to proceed in with her, without a leadman from the Service unless the immediate safety of the vessel requires it. Should no Volunteer or Second Mate be available, a good leadman from the crew of the Pilot Vessel is to be put on board if such can be spared. A tow-boat man is not to be put in the chains to heave the lead without the consent of the Commander of the vessel.

23 Officers of the Pilot Service, taking charge of inward-bound steamers, are directed to inform their Commanders that they (the Commanders) have been vested with discretionary powers of bringing any Mail packets under their charge direct to Calcutta, instead of delivering them to the Post Office authorities at Kedgee, should the appearance of the weather, the time of their arrival, and other concomitant circumstances, render it probable that by so doing the mail packets will reach the Post Office sooner than by the ordinary dak, a dispensation from the provisions of the XVth and XVIth Sections of Act XVII of 1837, having been granted to Commanders of steamers exercising their discretion as above.

24 No Officer in Pilotage charge of a vessel is to quit the same in the river unless she is properly moored, without being duly relieved by an Officer of the Harbour Master's department, or some other person properly authorized to take charge.

25 Within three days of the full or change of the moon, no vessel drawing more than 12 feet is to attempt to pass the Jannas and Mary's inward bound on the flood, before half tide unless in tow of a steamer.

26 A vessel under Pilotage charge arriving off Kidderpore under circumstances of wind, tide or steam, permitting her to proceed above Fort Point, and seeing a single (blue pierced white) flying on board the Harbour Master's receiving vessel at Cooley Bazar, that no Assistant Harbour Master is available, is to proceed up and anchor in any clear berth that the commander may select, taking care that the ship is properly moored, with not less than 30 fathoms of cable each way. A certificate of her being so moored is to be obtained from the Commander or Commanding Officer, and forwarded to the Master Attendant's Office.

27 Ships arriving in the river, having troops on board, are on no account to be brought higher up than the Cooley Bazar, until the troops are disembarked.

28 No vessel in tow of a steamer is to be brought above Bishop's College with a spring flood tide, but is to be cast off and dropped up amongst the shipping. On the neap tides she may be brought up on the responsibility of the Captain for any damage to ships lying at anchor.

General Rules

29 No Officer, having taken Pilotage charge of a vessel, is on any occasion to relinquish such charge before completing the service for which he was placed in charge of her unless in case of sickness or other unavoidable necessity.

30 No Officer is to proceed in pilotage charge of a ship whose Commander refuses to receive a leadman; but is to refer the case to the Master Attendant, if in town, or to the senior Officer if at the Sand Heads, as the case may be.

31 Officers in pilotage charge of ships, are to use their utmost diligence in completing the service on which they are ordered, and should any one be improperly impeded in his duty, he will report the same to the Master Attendant.

32 Vessels being permitted to be under weigh during the night in certain parts of the river, to prevent as far as possible accidents occurring, the following rules are to be observed by all vessels between Saugor and Bishop's College —

First. — All vessels at anchor are to show a light during the night, at the starboard fore-yard arm.

Second. — Vessels under weigh in tow of a steamer, are to carry a light at each fore-yard arm the steamers showing one where most convenient.

Third. — Vessels under weigh without a steamer, to show a light at the fore-top gallant mast-head.

33 Every vessel anchoring is to moor unless she intends to weigh on the next tide, but this rule is not intended to apply to vessels at anchor below Bishop's College waiting for day-light to move with.

34 No Officer, of whatever rank, is to interfere with the pilotage charge of any other Officer, without his consent, except in the case of a vessel in charge of a Second Mate, or Volunteer, when at the request of the Commander a Pilot of a superior grade, may supersede the inferior.

35 No Officer above the rank of a Second Mate, unless he is already employed, or proceeding on some particular service is to pass a vessel in the river ten miles below Calcutta which may have a signal for a Pilot flying, without going on board and if the vessel is inward-bound he is to offer to take charge, should the vessel be outward-bound, he is to endeavour to ascertain the cause of her being without a Pilot, and if he shall have reason to think that she has been regularly cleared, and that she had a Pilot when she left Calcutta, which Pilot has been obliged to quit through some legitimate cause (but not otherwise) he is to offer to take charge and conduct her to Sea, and it will be the duty of such Pilot to report the particulars of such occurrence to the Master Attendant by the first opportunity.

36 In the event of a ship or vessel losing an anchor or anchors, the Officer in pilotage charge will state the same officially to the Master Attendant in a separate report as soon as practicable, giving an accurate description of the place where the accident happened and stating the description and weight of the anchor, and also a description of the cable, to enable the Master Attendant's department to identify the same when recovered; this report is also to be attested by the Commander or Commanding Officer of the ship or vessel.

37 In like manner should the ship or vessel unfortunately get aground, the Officer in charge will, on the first opportunity forward to the Master Attendant a report of the accident, containing, besides the bearings of any known fixed objects in view, and information usually furnished, the ship's draught of water, the time of tide, and hour of the day, when, and the place where the ship grounded, the manoeuvre that the Pilot was attempting or attempting to execute at the time, the cause of the accident, the damage (if any sustained) and the time the vessel was on shore. This report, if approved, is to be attested by the Commander or Commanding Officer. Officers in pilotage charge of steamers, are to make a report of the circumstances, as far as these may come within their

Pilotage Rules.

knowledge, of the grounding of any ship or vessel they may have in tow. This report if approved of, to be signed by the Commander of the steamer.

58. Steamers meeting are to pass each other on the port side. Steamers with ships in tow, likely to meet in a narrow passage, or when, from another vessel being in the way, it may be difficult to pass, the one going against tide is to ease her steam, until the other has cleared the difficulty. Every steam vessel navigating any river or narrow channel, shall keep, as far as practicable, to that side of the fair-way or mid-channel of such river or channel which lies on the starboard side of such vessel, due regard being had to the tide and to the position of each vessel in such tide. Steam vessels under weigh are to be considered in the light of sailing vessels navigating with a fair wind, and are to give way to sailing vessels on a wind on either tack.

59. In order to prevent accidents from vessels crossing each other on opposite tacks, it is to be distinctly understood, that the vessel on the starboard tack, is to keep her wind, and that on the larboard tack, to bear up, without regard to seniority. On such occasions at night, two lights to be shown at the weather bow and one at the lee. The same course to be pursued when a vessel is taken in a sudden squall during the night, and other vessels near. When vessels are likely to fall on board of each other from sudden shifts of wind, it is to be presumed that the Pilot of each will endeavour, as much as possible, to avoid such an accident; but in order to ensure unity of effort, the junior officer will, in all such cases obey, the orders of the senior. In case of collision between ships, whether at or under weigh, a full and particular report is to be made, by the Officers in pilotage charge, signed as in case of grounding reports.

60. Every Officer of the Pilot establishment, in a case of sickness, is to obtain a certificate from the Marine Surgeon of his inability to attend to his duty, which he is to forward to the Master Attendant, and failing that, he will be considered absent without leave and must accordingly. In like manner on recovering from sickness, he must furnish a certificate of his ability to resume his duties. In the case of Second Mates and Volunteers, this will be a discharge from the General Hospital.

61. An Officer before giving over charge of an outward-bound ship at the Sand Heads, is to cause the usual certificate to be filled up and signed by the Commander, as well as by himself, which certificate is to be forwarded to the Master Attendant. A like course is to be pursued in regard to the inward certificate on arrival at Calcutta, to secure the correctness of which latter, great circumspection is enjoined.

62. The firing of guns unless as signals of distress, is forbidden in any part of the river above Fulta.

63. If a Pilot considers himself aggrieved by any conduct on the part of the Commanding Officer of a ship, he is to transmit his complaints, in writing, to the Master Attendant, who, if he thinks it necessary, will forward it to the Superintendent of Marine, for his consideration and orders.

General Instructions.

44. Much inconvenience and often damage occurring to ships from the proper channel for vessels moving up and down not being kept clear between Bishop's College and the Mint Ghaut, a channel as hereafter described, is to be kept clear and on no account is a vessel to be kept by her Pilot therein, whether moored or at single anchor.

First.—From Bishop's College to the buoy off Kyd's Dock, a deep water channel is to be kept of a cable's length wide, along the eastern bank of the river.

Second.—A channel of the same width is to be left next the swinging and fixed moorings at Cooley Bazar and also off Fort Point. RULES

FOR REGULATING THE

APPOINTMENT, ALLOWANCES, &c

OF

Engineers Belonging to the

GOVERNMENT STEAM SERVICE IN BENGAL.

The following Rules for regulating the Appointment, Allowances, &c, of the Engineers' Establishment, are promulgated by order of Government:—

1st—Engagement of Engineers

All Engineers who engage at Calcutta for Service in the Steam Vessels or Factories of the East India Company, and all persons who engage in the Engineers' Department for the purpose of learning the Craft, will be required to do so for General Service on board any of the Government Steam Vessels in Peace or in War, wherever those Vessels may be employed, or to serve on shore in any of the Steam Factories or Foundries of the East India Company established for the Manufacture or Repair of Machinery or in their Mint Establishments. But all Appointments to the Engineers' Establishment will be subject to a Medical Examination of the individual in the first instance.

2nd—Appointment of Engineers

All Engineers will be appointed by Warrant in the same manner, and under the same Regulations, as the Warrant Officers of the Indian Navy. Engineers will be distributed into three Classes with the denomination of

First Class Engineers

Second Class Engineers

Third Class Engineers

Appointments, &c.

The Classes will rank respectively in that order, and the Engineers will rank with each other according to seniority on the Official List of their Class,—they will have rank on board ship relatively with Warranted Boatswains, Gunners and Carpenters, and in succession to those Officers.

No person will be deemed eligible for an appointment as an Engineer in the East India Company's Marine Service, or for promotion to the higher Classes, until he shall have passed an examination before a competent Engineer, or some other Officers to be appointed for that purpose, or until he shall have produced a Certificate to the same effect from a respectable and competent Engineer as to his qualification for each Class as herein-after stated.

3rd.—Qualification for First Class Engineer

No person will be considered qualified to hold the Warrant of a First Class Engineer who is not able to keep Accounts and to make Notes in the Log of every particular of the working of the Engines and Boilers.

He must be thoroughly acquainted with the principles upon which the Machinery works in all its parts, and be capable of setting right any defects which may arise in the Engines or Boilers, and also to adjust the length of the various Rods and Motions, Slide Valves and Levers.

He must have been at Sea as an Engineer, and be capable of working, starting, stopping the Engines, &c. and be able to make rough Sketches correct in proportions, of any part of the Machinery.

He must be able and willing to exert himself practically as a workman upon occasions either in driving, packing or repairing the Engines.

He must be willing to instruct in his Art such Lads, European or Native, as the Court of Directors of the East India Company or the Indian Government may place under him as Apprentices.

4th.—Qualification for Second Class Engineer

He must be equal in education to the First Engineer, and but little inferior in mechanical acquirements, with the exception of the nice points of adjustment of Slides, &c. and his improvement in all such points of knowledge will be the road to his promotion to the post of First Class Engineer as vacancies occur.

5th.—Qualification for Third Class Engineer

He must not be inferior in education to Second or First Engineers, and will be selected either from the Senior Class of Apprentices, or appointed direct to the Service from a Factory. He must be accustomed to Engine work and acquainted with the principles of the Engine, with the names of its parts, their several uses and effects in producing motion, and if found qualified he will be eligible for promotion to the higher grade as vacancies occur.

6th.—Employment of Engineers on Shore

An Engineer of either Class may be required to perform duties on shore, or to make repairs of Machinery in the Mint, or in any Factory, or on board other Steam Vessels than that to which he is attached.

7th.—Scale of Pay and Allowances of Engineers

For the first three years after appointment		From the fourth to the seventh year inclusive		From the end of the seventh year	
Per Annum	Per Mensm	Per Annum	Per Mensm	Per Annum	Per Mensm
First Class Rs. 2,000 or	Rs. 166 10 8	Rs. 2,500 0 0 or	Rs. 208 5 4	Rs. 3,000 0 0 or	Rs. 250 0 0
Second Class „ 1,500 or	„ 125 0 0	„ 1,750 0 0 or	„ 145 15 4	„ 2,000 0 0 or	„ 166 10 8
Third Class „ 1,000 or	„ 83 5 1	„ 1,250 0 0 or	„ 104 5 1	„ 1,500 0 0 or	„ 125 0 0

It is to be distinctly understood that although Engineers will be entitled to increase of pay according to the foregoing Scale whilst belonging to the Service, no Engineer will have any claim to be continued in it longer than the Government require his services.

An additional allowance will be given of

Rs. 2 a day to a First Class Engineer,
„ 1 8 a day to a Second Class ditto,
„ 1 4 a day to a Third Class ditto,

for such period as the Steam is up, or the Engines working, or while employed in repairing Machinery in any Factory, Mint or works, where or on board any other Steamer than that to which he is attached, or while employed in fitting the Engines to any Steam Vessel.

The First Engineer will be allowed 8 Annas a day for each Apprentice placed under his tuition when attached to a Steamer during the period of such tuition taught by him, on production of a Certificate from the Commanding Officer of the Steam Vessel. Such Fee however will not be allowed on account of any Apprentices after he has been promoted to the rank of Journeyman.

Every First Class Apprentice promoted to the rank of Journeyman will be entitled to an increase of Rs. 10 per month to his pay.

Engineers in the Company's Sea Service will be supplied with Rations, and will be provided with quarters on board ship or where at the expense of Government, or when such are not provided or supplied they will be entitled to Compensation at the rate of 8 Annas per day for Rations, and 25 Rupees per month for quarters.

No allowance for House Rent will be granted to an Engineer absent from his Ship at Sick Quarters, General Hospital or being open for his reception.

When a Ship is in Dock, or under repair, which unfits her for the habitation of Officers and Crew, the Engineers will be provided with quarters afloat or on shore in the same way as other Officers.

When promoted to a higher Class an Engineer will have the benefit of service in the lower Class or Classes at the rate of three years' service in the lower, for two years in the higher, (three years' service in either of the lower Classes being reckoned as two years in the First Class) and will become entitled to the pay and other benefits of that higher Class accordingly. Thus an Engineer having served four years and six months either in the Third or Second Class on being promoted to the First Class, will come on the pay and allowances of an Engineer of the First Class after three years' service, or to Rupees 2,500 per annum or 208 Rupees, 5 Annas 4 Pie per mensm. Or an Engineer of the Third Class having served four years and six months in that Class, on being promoted to

Inland Passage Rules

the Second Class, will come on the pay and allowances of a Second Class Engineer who has completed three years' service, which is Rupees 1,750 per annum or 145 Rupees 15 Annas 4 Pie per month.

Engineers who have not been appointed to any Class and who are not employed on the Sea Steamers are designated Unclassed Engineers and beyond their pay they have not under any circumstances, other allowances. They may be transferred according to their abilities to either of the Three Classes of Engineers three years' service as an Unclassed Engineer or Engine Driver, counting as two years in the Class to which they may be removed for determining the rate of Pay they may become entitled to, or in other words, all Unclassed Engineers and Engine Drivers are for the above-named purposes of calculation of Pay, as also for absence on leave or for Pension to be considered as Engineers of the Third Class.

When an Engineer of either Class attached to a Steamer is absent at Sick Quarters and his place not filled up, or when from any cause any appointment of the Engine Room Establishment of Engineers is vacant, the Engineers junior to the absentee shall for the time such appointment remains vacant, enjoy as regards allowances only, but not pay, the advantages that would result from a successive rise of the Juniors of the Ship's Establishment to fill the vacant appointment, and the indulgence shall extend to the Journeyman or Senior Apprentice, provided that the latter be of the First Class and that both hold Certificates of eligibility for promotion. Thus the Chief Engineer being absent at sick quarters the Second Engineer for the time being will enjoy the Apprentice fees and higher rate of Steam money and the Third Class Engineer in like manner will enjoy the Steam money of the Second Class and the Journeyman or Senior Apprentice, under the above conditions, the Steam money of the Third Class Engineer.

Journeyman and Apprentices whilst attached to Sea Steamers will be allowed Rations or Compensation for the same on the same scale as Engineers and when disembarked they will return to the Work shop on the footing of others of their Class.

8th — Allotment of Family money

Engineers of either Class may allot any portion, not exceeding half their pay, for the benefit of their families.

9th — Leave of Absence

Leave of absence for short periods will be granted from time to time to Engineers either for the recovery of health or on account of private affairs, whenever a sufficient case made be made out and the Government may be satisfied as to the necessity for the grant of this indulgence. On all such occasions the Absentee will be entitled to one-third of his Net Pay (i.e. exclusive of Steam-allowance, Apprentice fee, and Compensation for rations and quarters) for the period of authorized absence.

Absence without leave will subject the Absentee to loss of appointment.

10th — Pensions

The Rules dated the 4th January 1871 for regulating the grant of Superannuation Pensions to Uncovenanted Servants, will be applicable to cases of Engineers incapacitated for further employment.

The quantity of baggage allowed to deck passengers messing with the Commander is 20 cubic feet

8th Deck passengers providing their own food, will be charged $\frac{1}{2}$ anna per mile, and are allowed one roll of bedding 2 feet wide, and a box of six cubic feet solid contents

9th One servant allowed to each cabin occupied by one person, but if a cabin be occupied by more than one person, an additional charge will be made of 20 rupees 8 annas, which will entitle the cabin to a second servant. Half the passage money, and half the table money become forfeited by persons who relinquish a passage after having engaged it

17th The despatch of boats is generally advertised in the order of their expected arrival in Calcutta, but it may sometimes occur, that the vessel first expected, may be the last to arrive, or from damage, be prevented going in her turn. —in such case the boat next for despatch will be substituted, and keep the appointed time as nearly as possible, and the passengers engaged for the first boat, will still be the first accommodated, by a substitution of one boat for the other, and should it even be more convenient for any passengers, originally, engaged for the second boat, to proceed by the first one under the above circumstances despatched, their claim on account of the name of the boat in which they engaged their passage being that ordered for first despatch will not be recognised, to the prejudice of another passenger, and vice versa.

It must be understood, however, that although all persons are at liberty to consign goods to the Steam Agent of the station at which they are to be landed, the Government is not responsible for any damage to the goods, or for the safety of the goods after the delivery of the same to the consignee, or to his order, whether the consignee be the Steam Agent or any other person.
- 6th Freight on all packages, excepting treasure laden in Calcutta, or for which tonnage is reserved in Calcutta, and which does not exceed in weight 35 lbs, or 17½ seers per cubic foot, will be charged by the cubic foot.

From Dinapore, or any station below that place (taking the chance of space being available) to Calcutta at 1 pice per lb, or 2 annas 3 pice per foot. If freight be received from any of these stations, the charge to be the same as from Allahabad, with the exception of cotton in half-screwed bales of about 26 feet, not exceeding a gross weight of 800 lbs, for which the charge is Rs 2-10, and all country produce such as Mugar, Indigo, Lacdy, Borax, &c are charged by weight. 12th The Steam Agent will, in reply, name the boat in which he assigns tonnage, and if from any cause, as damage to the boat, deviation from her intended voyage, or unexpected demand on account of Government, a circumstance likely seldom to occur, the tonnage should be rendered non available, the party for whom such tonnage has been registered, must bear the inconvenience, and he will have no claim for indemnification by assignment of freight in another vessel to the detriment of any other person who may have engaged tonnage subsequently to the disappointed party, whose right to tonnage will be limited to such as may be available in the vessel previously named, but in that vessel the claim to such tonnage as may remain available, will be acknowledged according to priority of application. Thus the entire tonnage of a boat may have been assigned in rotation by the boat agent to A, B, and C, &c. After which the Government unexpectedly make a demand for more or less, the remaining portion will go to satisfy first the claim of A then of B &c, the last applicants being thrown out partially or wholly as the case may be.

Commanders must therefore, on all occasions, look to them for the payment of the whole sum they are allowed to charge, with exception only of the extra rupee which is to be drawn for, as before, accompanied with the certificate required

"Non-commissioned Officers and privates proceeding on duty, are entitled to have their diet found by the State. In all cases when the parties embark in Calcutta, the Commissariat will be requested to put on board the requisite quantity of provisions for such parties. GUIDE FOR PARTIES PROCEEDING BY THE HONORABLE COMPANY'S INLAND FLATS AND STEAMERS

A month, or six weeks before the intended time of your departure, intimate by letter to the Controller of Government Steamers at the Steam Freight Office the time you wish to leave Calcutta, (stating for what station,) with particular as to number of ladies, gentlemen, children and servants, if Hindoos, or Mussulmen, or Christians, and what class and number of cabin are required.

On receipt of answer, it is requisite to secure the passage immediately by letter as the accommodation of the Flats are often engaged two and three months before hand. When passage is engaged, send for your bill, and either pay or give a check for full amount of passage dicting &c &c

If no cabins should be procurable in the Accommodation Boat, get a letter from the Controller to the Commander of the Flat or Steamer granting them permission to accommodate you if they can unless this is done, it is useless applying to any of the officers for their private cabins, as they are liable to a heavy fine for transgressing, and dismissed from the Service for taking any packages.

There are four Accommodation Flats, each has four 1st class cabins, measuring 12 feet by 8-6, at Co's Rs 700 each to Allahabad, four 2nd class cabins, 9 feet by 8-6, at Co's Rs 250 each, and six 3rd class cabins, 6-3 by 8-6 at Co's Rs 200 each—each cabin being fitted with pituit water closets, but no furniture.

The return fare of each cabin is as follows, being for 1st class cabin 160-10-0, 2nd class cabin 160-10-8, and 3rd class cabin 133-5-4.

Parties engaging a cabin for any of these stations in Calcutta will be charged for Dinapore being 3rds of the passage, thus 1st class cabin 200, 2nd class 160-10-8, 3rd class 133-5-4.

Cabins retained for any distance beyond 3rds the passage, are charged full passage to Allahabad.

The same rules appertain to the return passage. The fare being for a 1st class cabin 133-5-1, a 2nd class cabin 111-1-8, a 3rd class cabin 98-14-2.

Passengers are allowed to carry 5 cwt as baggage in their cabins, but no packages. And any luggage put into the hold at passenger's request will be charged freightage.

One servant is allowed to each cabin, and any extra are charged for at the rate of 60 Rs each to Allahabad, for Mussulman servants, if dicting with the crew, a charge of 4 rupees per diem is made, and for Christian servants 1 rupee per diem is charged.

If two passengers occupy a 1st or 2nd class cabin, they may have a 2nd servant at a charge of 25 Rs.

When the vessels anchor at night, a boat attends all Hindoo servants to cook on shore, and all such servants should be warned to provide themselves with gram, choolah and water, sufficient to last them four days when the vessels proceed on Sunday rounds.

On return trips their provisions should be purchased at Commisariats.

A Table d'Hôte is kept on board the Accommodation Boat for passengers at a charge of 3 Rs each per diem for adults, exclusive of wines &c &c which, if required may be obtained at regulated charges, a list of which is hung up in the Cabin, as also any thing extra that may be called for between meals.

Children not sitting at table are charged 1 Rupee per diem.

Thirteen miles from Mud Point, or 74 miles from Calcutta, is the entrance to the Doar Agra River. Into this river the steamer turns, leaving the Barattolli, and may be said to have properly entered the uninhabited wilds of the Sunderbunds for at least two days. On the southern bank of the Doar Agra are some pine trees, and the old ruins of Mr. Jas. Prinsep's former estate which was deserted after the May gale of 1833. At a clump of trees about one mile E. by S. from the house, is a fresh water tank, buried in on the bank of the Habitage. This place is infested with tigers. From hence sportsmen prepare for good ball practice at alligators, pigs, deer, and monkeys, but no firing is permitted on board the flats, on account of the ladies. Good salt water bathing is now obtainable.

From the Doar Agra the passage is very intricate, up to Koolna, owing to the number of windings, rivers, creeks and nullahs (43 in number). Bannighur, 13 miles above Benares on the right bank on the river, is a native place, the residence of the Rajah of Benares.

Skootpore Bunnies, is a native civil station 17 miles above Benares and on the left bank of the river. Steamers here, there are few minutes on their passage up or down, as required, to land and receive passengers. It has a kunkury or rocky point, which is very awkward for native boats, as also for steamers, owing to narrow channel and strong currents, it is off the at this, which are called Little Calcutta.

On the right bank of the river, about 1 miles above Skootpore, is a very neat-looking place, called Chunar, with a very fine looking English church that reminds one of sweet "sweet home." It is an invalid military station and has fortification, on an isolated rocky hill, which projects into the river, forming a very nasty point to pass in the rains. Hindoo tradition tells us this fortress was built in one night by a giant, and is impregnable, it completely commands the river, and is used as a place of confinement for state prisoners. There are several detached rocky hills or stone quarries here. It is a very sickly place, owing to the heat arising from the stones, which causes fever and spleen. This is a good place for snakes. A little above the fort is a temple. Tradition states it to contain a chest which cannot be opened, unless the party opening it lose his hand—four thieves having so sufficed once in an attempt on it. Very fine black and red orthenware is procurable here, such as wine coolers, being filled with water, after the bottle is inserted and set out in the draft of the hot westerly winds, (none better serves the purpose) in the shade, cools the confined liquor equal to iced it. The cooler must be dried daily. Also red sandy water holders, or surres, which keep water very cool. Black butter pots, with a coating for water, very neatly finished, and large black double urns, to contain bread and keep it moist. Here is a steam agent, but steamers seldom stop more than ten minutes.

Inland Travellers' Guide.

Seven miles above Chunar on the right bank of the river, is the village of Kutnas with rocky bottom and hard lumps of red earth in the river, a little above is a ravine which is to be avoided by all boats.

Fourteen miles above Chunar, is the crossing ferry of the Benares grand road, and of Kutnas and Bhuddoolee to Mirzapore. From hence to the latter place is a fine road distant 7½ miles by land, and 16 miles by water.

Ten miles above the ferry and 7 miles below Mirzapore on the left high bank, is Bhagum with a white tomb, and a patch of kankur in the river, on which many boats are lost. From here the cotton mounds of Mirzapore are visible.

Mirzapore a military cantonment is 2 miles below the city, and the civil station, where the judge's magistrates and collector's offices are, is 1 mile below the city. The steamer stops at the agency ghaut at the lower end of the city. This place is noted for a cotton market, and cotton manufactory, as likewise shell lac, lac-dye, hardware in a small way. Many boats are lost at all seasons.

The city is very confined and dirty, subject to great sickness. There are 2 or 3 fine steam ghauts here, and some small temples and minarets. Bread, butter, eggs, mutton, lamb, kid, beef, veal and fowls are procurable here. Both a militry and a civil doctor reside here.

Mirzapore is from Calcutta via Bhagurtoolee, 74½ miles via Sunderbunds, 10½ miles, and by dawk route 455 miles. The dawk takes 5 days, and bhanga 8 days to turn. It is for steamers should leave Calcutta on the 14th day after her in the rains, and 17 days after her in the dry season. The vessels having plenty of cargo to discharge here are generally detained from four to five hours.

Four miles above Mirzapore is Binduwan on the right bank, noted as the place of an annual meeting of disreputable people who come here to make vows and pilgrims.

One mile above Binduwan are the dangerous granite rocks of Seobore.

Suttimaree is twenty-eight miles above Mirzapore, on the left bank of the river. Passing generally land in the cold season, and have a walk across the neck of land, in a W. N. W. direction two miles wide to Talia, and rejoin the steamer again off there, she having to go a distance of 21 miles to the point.

Two miles above Suttimaree is Deega Kunkur Spit with a deep light.

Lotky gurree and its ravine, on the left bank of the river, is 22 miles above Deega, noted for its robbers when it was attached to the Oude territories.

Suris is a large cotton mart, on the right bank of the river, and is 60 miles above Mirzapore, and 23 miles below Allahabad, to which place is a good road. This is the station of a European customs officer. There are several punka houses here, and two very fine tanks at the back of it, and an old mud fort. From hence, up to Allahabad the river is very intricate and shallow. Iron work in a small way can be done for boats here. Turkeys and guinea fowls abound.

Allahabad is 83 miles above Mirzapore. Its fort is at the junction of the rivers Jumna and Ganges. It has an imposing appearance, when on the river 7 miles below it. The Jumna waters are blue whilst the Ganges are muddy. The steamers put to at the Jumna mawqu built by General Kyd and ½ mile inside the Jumna. The native military cantonment is about 5 miles inland, and civil and military offices are from 3 to 4 miles inland. The general and doctor reside in the fort, and also the agent. State prisoners are kept here. Here is also a large stone pillar said to have been erected by Alexander the Great to mark his conquests, and a cave full of native stone images, wherein is shown a small entrance to a supposed subterraneous passage to Benares but which, in fact only extends a few feet. (The city is the seat of one of the principal native courts of justice the Sadar Dewanny). It is also a great place of worship, and an annual fair is held outside the fort on the sands, at the point of junction. It was formerly the seat of the residant. Bread butter, eggs, beef, mutton, lamb, kid, fowls, pigeons, turkeys, guinea fowls, quail partridges, &c., wild ducks and geese are procurable here. European shops are here and auctions held. About 2 miles from the ghaut is the chowk or market, where all sorts of cloth, European and native are procurable. Shawl men board the steamers, if sent for, with all sorts of Cashmere shawls, waistcoats, caps, gloves, socks and Afghanisthan woollen cloths, as also Delhi jewellers and manufacturers of cotton, carpeting of various patterns shown on rooms and rather durable. A little beyond the chowk is the heavy stables where beautiful horses are procurable of the Persian Cabool and Turkey breeds. The post office is in the fort, where you must send for all letters. Letters for steamers should leave Calcutta on the 14th day in the rains, and on the 17th day in the dry season after the departure of the steamers. The distance from Calcutta is, via Bhagurtoolee, 81½ miles, via Sunderbunds 118½ and by dawk route 501 miles. Steamers regulated distance is 800 miles. Steamers run here three entire days when they depart on their return trip after discharging and taking in their upward and downward cargoes and passengers. Apply to agent there, or to commander, for passage downwards.

RETURN PASSAGE.

From Allahabad to Mirzapore, in the rains, is generally a run of 8 hours, and if not detained long the vessels get down to Benares on the same day, but if detained for cargo at Mirzapore, it is one day's work. In the dry season, it is 1 day's work to Mirzapore from Allahabad, and 1½ days to Benares.

Steamers stop at Benares generally 1 hour, only on their way down. From hence to Ghazapore is 1 day's run in the rains, and 1½ in the dry season they stop here for coals, passengers and cargo, perhaps 2 or 3 hours, making 1½ days from Allahabad in the dry season and 2 in the rains.

Steamers pass Develguango on the 3rd day in the rains, not stopping except previous notice is given by the steam agent, or passengers require to embark they pass this place on the 4th day in the dry season.

Steamers pass Dinapore in 3 days in the rains and stop 2 or 3 hours for coals, cargo and passengers, and pass on the 4th day in dry season. Passengers from Patna embark here.

Steamers pass Monghyr on the 4th day in the rains, and in 5½ in the dry season, stopping 1 or 2 hours for coals, passengers or cargo.

Steamers pass Bhagulpore on the 4th day in the rains, rounds to for a few minutes, and passes on, in the dry season, on the 6th. Rounds to for a few minutes outside the sands, distant 2 to 3 miles from the town.

Steamers pass Rajmahal in 4½ days in the rains, and in 7 days in the dry season. Steamers only round to in the rains for letters, and perhaps for a few coals, a short time, but in the dry season for about 2 hours.

Steamers pass Boihampore on the 5th day in the rains, (in the dry season she takes the outer), where they take in coals, and reach Calcutta on the evening of the 6th day, or in 6½ days from Allahabad, beating the dawk.

RETURN LOUIN IN THE DRY SEASON VIA SUNDERBUNDS

Steamers pass Rampore Benaula in 8½ days and generally round to on the Ganges, is passed on the 10th day. Steamers stop at Comorcolly to take in coals.

Koolas in Jessore is passed on the 12th day. Here the steamer takes in coals, fills fresh water, and prepares for Sunderbunds. (Have Hindoos time to lay in provisions, and cook for the last time, until reaching Calcutta). Steamers are generally 15½ days on the passage.

Half charge of 1st Class.

The Company do not guarantee landing Passengers or Freight at the smaller intermediate stations, but will do so whenever the river and route may allow.

CABINS.—No Cabin can be engaged to any station short of Dinapoor, parties taking their chances of a vacant Cabin when the vessel leaves, are charged at the fixed rates of the Passage Table.

If two or more persons occupy one Cabin, each extra person charged one third the Cabin rate. CHILDREN, over 2 and under 12 years, (sharing the cabins of their friends) charged the same rates as 2nd Class Deck Passengers.

Children, who do not come to Table, charged one Rupee per day for Diet.

DECK PASSENGERS, 1st Class, have the privilege of messing at the Saloon Table.

2nd Class restricted to the Cargo Flat.

For intermediate native Deck Passengers—3 pice per mile from station to station.

MESS RULES.—The Rates of Passage are exclusive of Mess, at three Rupees per day for Cabin and 1st Class Deck Passengers, to be paid to the Captain—Beer and Wines extra—as per authorized Table of Terms, to be seen with the Commanders, Agents, and Secretary.

The Mess-money charged in advance for the estimated number of days of the voyage, the excess, if any, repaid on arrival at the Passenger's destination. When the Soondobund route is taken, five days will be added to the distance above estimated.

Parties using their own Wines and Beer charged 3 Annas per each cork drawn on Board.

L. G. & N. Company.

PASSAGE AND MESS MONEY.—The Passage and Mess-money paid at the time of engaging the passage.

Parties engaging a passage and afterwards relinquishing the same, forfeit the whole amount of Passage-money, and half the deposit of Diet money, unless the Cabin be re-let.

SEVANTS.—One servant allowed to each Cabin; all others charged as 2nd Class Deck Passengers, except when two persons occupy one Cabin, in which case a second servant is charged at half price.

Christians messes by the Butler at One Rupee per day; Mussulmans by the Serang at Three Annas per day.

● **BAGGAGE.**—Passengers allowed 20 cubic feet, limited in weight, to 12 muns of Baggage in each cabin, if two or more persons in one cabin, their entire Baggage not to exceed 34 cubic feet, limited in weight to 20 muns to each Cabin, all extra Baggage charged as Freight.

These Collieries, which are the principal source of supply for Calcutta, as well as for the Steamers in the Ganges, are situated on the Damoodah, and have hitherto been dependent for their means of transport on the periodical rise in that river, and the Adjye, on which they employ a fleet of upwards of 1,500 boats, each boat making from 2 to 3 trips, as an average in the season, as it is only where a torrent comes down from the hills that there is water enough for the laden boats. The Railway, which was opened early in 1855, however, has its terminus about a mile from the principal Colliery of Raneegunge, with which it is connected by a line made at the expense of the Coal Company, and the supply will henceforth be continuous, and of Coal freshly dug from the mines instead of being exposed as at present for 12 or 18 months before it is delivered to the consumers. If the Railway, therefore, is able to carry the Coals at a sufficiently reasonable rate, the consumption will be largely increased for ocean Steamers and others, which at present prefer English Coal

RATES OF HIRE AND GENERAL REGULATIONS

In regard to the engagement of their Steamers, as revised by the Committee

RATES OF HIRE—*When the Steamer is Hired by the Day.*

The Hire of the Steamer is charged for proceeding under engagement to a Vessel, and during the whole period of the Steamer's employment and detention, and eventually, for her return to town.

The Hire of the Steamer is charged at the rate of Rupees 350 for each day for the entire day on which she first proceeds under engagement, and for every subsequent day of her so proceeding to join a Vessel. But no charge is made for proceeding to the Vessel when not previously engaged.

The Hire of the Steamer is charged at the rate of Rupees 350 for each and every day on which the Steamer is employed. And no deduction of hire is made for employment during only a portion of the day.

The Hire of the Steamer is charged at the rate of Rupees 250 for each and every day during which she is detained, when steam has been got up, and at the rate of Rupees 200 for each and every day during which she is detained without steam. And no deduction of hire is made for detention during only a portion of the day.

The Hire of the Steamer is charged at the rate of Rupees 200 for the entire day following that on which she leaves a Vessel down the river, to admit of the Steamer's return to town, and this charge is made whether she return to town or remain down the river, and equally, however short the actual employment of the Steamer may have been, and whether the Steamer return during the night, after being discharged from towing, or not until the following day, but when the Steamer is dismissed before 8 A.M. at or above Kedgeree, before 10 A.M. at or above Mud Point, or before noon at or above Diamond Harbour, another day's hire is not charged for return to town, but the full hire of Rupees 350 for that day is charged without deduction, whether the Steamer obtain other employment or not.

Extra Hire, according to circumstances, is charged for all work done before Sunrise or after Sunset.

Subject to eventual appeal to the Committee, it is discretionary with the Secretaries, and under their direction, with the Commander of the Steamer in certain cases, to charge a higher remuneration than is provided for by the general rates of the Association, when preferential claim to the assistance of the Steamer is advanced, on the grounds of alleged, but not obvious, emergency or distress. And also, whenever extraordinary assistance is afforded in a case of distress, and, especially, when the services, or exertions of the officers and crew of the Steamer are considered to be deserving of extra reward.

When the Steamer casts off a Vessel in order to render assistance in a case of distress, or when accident to the Steamer, not attributable to mismanagement of the Vessel that is in tow, obliges the Steamer to cast her off before completing the engagement for the day, then the hire of that day is charged to the Vessel so cast off only for the portion of the day during which the Steamer has been employed by her, but no further concession is made on account of any detention to the Vessel that may result from such cause, or from other unavoidable delay or accident to the Steamer.

When the Steamer is Hired by the Job

The vessel must, in all cases, be ready to start at sunrise on the day and from the place agreed upon, or demurrage is charged at the rate of 30 Rupees per hour, but when the detention of the Steamer on the day of starting is so great as to cause the Steamer to occupy an additional day in performing the work agreed upon, one whole day's demurrage is charged, viz. 250 Rupees per day when steam has been got up and 200 Rupees per day without steam.

Whenever a Steamer is detained in any part of the River, away from Calcutta, in consequence of the weather not permitting the Steamer to tow or the Vessel to proceed, or in consequence of any accident to the Vessel, or from any other cause not occasioned by or attributable to the Steamer, demurrage is charged at the rates above specified for the whole time during which the Steamer is detained. If the vessel is unable to proceed from accident or any other cause—or if the weather is such as to make it impossible for the Steamer to tow the Vessel, the Commanding Officer of the Vessel is at liberty to discharge the Steamer, if he prefers doing so, to paying demurrage.

Calcutta Steam Tug Association.

When extra work is required in addition to the job agreed for, the Commander of the Steamer is authorized to settle the terms for such extra work, and if no settlement is made, the hire of the Steamer is charged at 30 Rupees per hour for the time she may be employed in performing the extra work, and in returning to the place from which she started on the extra work.

When the draft of water of the Ship proves greater than stated in the agreement, the hire is charged by the day at 350 Rupees per day, instead of by the job

THE STEAMER'S ENGAGEMENT

Subject to the above rates of charge and to the general Regulations printed below, the Steamer is bound to proceed to the Ship to which she is engaged, and to attend and tow her if required as far as may be considered by the Commander of the Steamer to be practicable with reference to the safety of the Steamer, the state of her engines, and the supply of fuel, and to the necessity of affording sufficient time for the return of the Steamer to safe anchorage, not lower down than Saugor Point, by sunset. It being understood that, under these provisions, it is within the discretion of the Commander of the Steamer to decline towing a Ship higher up the River than Bishop's College or proceeding lower down than Saugor Point and also to decline towing a Vessel during the continuance of a dense fog.

The hours of steaming are from sunrise to sunset

GENERAL REGULATIONS

Priority of claim to a Steamer is given in the order of application when the party applying has determined the date on which he requires the Steamer, and subscribed to the printed engagement annexed to these Regulations. But when the day on which he requires the Steamer is uncertain, then the engagement becomes subject to the precedence of all positive engagements that may be accepted, or employment that may occur during the period of such uncertainty.

When the Vessel for which a Steamer is engaged is not ready at the appointed time, the Steamer is considered to be engaged to that Vessel on demurrage, unless, with the consent of the Secretaries to the Association, an arrangement be made for that Vessel to which the Steamer is next engaged to take up the engagement of the first Vessel.

No engagement of a Steamer can be cancelled, nor departed from in respect of any of its conditions without the previous sanction of the Secretaries to the Association, or that of the Commander of the Steamer, provided the Secretaries are not on the spot, should the Steamer have actually entered upon fulfilment of its engagement.

The selection of the Steamer in all cases rests with the Secretaries to the Association.

The Steamer does not provide tow ropes nor warps. These and all other requisites must be provided by the vessel that employs the Steamer, and conveyed by her own boats, to the Steamer.

The Certificate of the Commander of the Steamer certifying the period and place of employment or detention, &c., of the Steamer, is at all times to be admitted as the only requisite proof of the claim of the Association for hire of the Steamer under these Regulations.

The Steam Tug Association are not responsible for any accidents or detentions whatever.

Under all circumstances of ascertained or apprehended distress, a right is reserved of employing the Steamer to the postponement of every ordinary or less urgent engagement. And the Commander of the Steamer is authorised to cast off a vessel that is in tow wherever safe anchorage may be obtained, in order to render assistance to a vessel or to persons in distress.

When assistance is rendered to a vessel on shore or otherwise in distress, all loss or damage sustained by the Steamer, her anchors, cables, hawsers, &c., in so assisting the vessel, is to be borne and made good by the vessel or the party engaging the Steamer on her account.

The object contemplated by this Company is to establish on the River Hooghly Steam Tug Vessels, adequate in number and power to meet the great and continually increasing demand of the commerce of Calcutta.

It is proposed, in the first instance, to build of *Teak and Saul*, four large and powerful Steam-Tugs, *two* of 180, and *two* of 140 *horse power* each, the machinery and boilers to be made in England, and to be completed in such time as the hulls will be ready for launching; each of which Tugs will be able, in the height of the monsoon, to take out to or tow in from sea, a merchant vessel of the largest tonnage.

The dangers of the navigation of the Hooghly, on the banks of which Calcutta is situated, to vessels without the aid of Steam, are well known to all navigators frequenting the Port.

The channel is not only most intricate, but, to a vessel working up or down unassisted by steam, presents very serious obstacles, when aided by steam-power, the difficulties are comparatively small.

The ordinary time of the passage of a vessel of heavy tonnage, without the aid of steam, from the Sandheads to Calcutta, and *vice versa*, occupies, according to the monsoon, from seven to eighteen days, whilst the usual time for a vessel of the same class, when towed by Steam-Tugs of the present class, is from two to four days.

It is well known that the number of Tugs at present in the Hooghly is very insufficient; no stronger proof of which can be given, than that ships are obliged to wait days, and even, at times, three or four weeks for steam.

This Company has been formed in England, and will be managed by a Board of Directors in London, as well as by their Superintendent and Agents in Calcutta, subject to the control of the Board of Directors.

It is well to mention that the Indian Government make a considerable allowance on the charge for Pilotage to all vessels employing Steam-Tugs, and invariably stipulate that ships under Charter to them shall employ Steam-Tugs till clear of the River.

The accompanying Statement of Profits and Disbursements is calculated from data, founded on the actual working of existing Companies.

The calls will not exceed _____ per share; and it is intended that an interval of three months shall elapse between each call.

Dividends will be made payable in London, excepting those to the Indian Shareholders which will be payable in Calcutta.

Prospectuses, with Forms of Application for Shares, may be obtained of the Secretary, at No. 68, Fenchurch Street, the Office *pro. tem* of the Company in London, of the Broker, and of the Agents in Calcutta, Messrs Griffiths, Hay & Co., Fairlie Place.

Referring to the above, the Agents have the pleasure of stating that this Company has the promised support of the principal Ship-owners in London and Liverpool; and as the number of Shares reserved for India is limited, early applications are requested.

RATES OF HIRE.

The Hire of the Steamer is charged for proceeding under engagement to a Vessel, and during the whole period of the Steamer's employment and detention; and eventually, for her return to Town.

The Hire of the Steamer is charged at the rate of Rupees 350 for each day for the entire day on which she first proceeds under engagement, and for every subsequent day of her so proceeding to join a Vessel. But no charge is made for proceeding to the Vessel when not previously engaged.

The Hire of the Steamer is charged at the Rate of Rupees 350 for each and every day on which the Steamer is employed. And no deduction of hire is made for employment during only a portion of the day.

The Hire of the Steamer is charged at the rate of Rupees 250 for each and every day during which she is detained, when Steam has been got up, and at the rate of Rupees 200 for each and every day during which she is detained without Steam. And no deduction of hire is made for detention during only a portion of the day.

The Hire of the Steamer is charged at the rate of Rs 200 for the entire day following that on which she leaves a Vessel down the river, to admit of the Steamer's return to town. And this charge is made whether she returns to town with or without a return Vessel or remain down the river, and equally, however short the actual employment of the Steamer may have been, and whether the Steamer return, during the night after being discharged from towing, or not until the following day. When the Steamer is dismissed before 8 A.M. at or above Kedgeree, before 10 A.M. at or above Mud Point, or before noon at or above Diamond Harbour, another day's hire is not charged for return to town, but the full hire of Rs 350 for that day is charged without deduction, whether the Steamer obtain other employment or not.

Extra Hire according to circumstances is charged for all work done before sun-rise or after sun-set.

When the Steamer casts off a Vessel in order to render assistance in a case of distress, or when accident to the Steamer not attributable to mismanagement of the Vessel that is in tow, obliges the Steamer to cast her off before completing the engagement for the day, then the hire of that day is charged to the Vessel so cast off only for the portion of the day during which the Steamer has been employed by her, but no further concession is made on account, of any detention to the Vessel that may result from such cause, or from other unavoidable delay or accident to the Steamer.

When the Steamer is obliged to leave a Ship to proceed to the assistance of another in distress or taken away from any duty in which she might be engaged, for that purpose then the charge to the Ship thus detaining her will be at the rate of Rupees 500 for each and every day she may be in that manner employed.

It is discretionary with the owners Messrs. Apear and Co. and, under their direction, with the Commander of the Steamer in certain circumstances, to accept employment for the Steamers on short jobs at rates to be agreed upon at the time. But the rates charged upon such occasions are not to be considered as tending to establish precedents for a rate or rule of charge in exception to the general rates, when preferential claim to the assistance of the Steamer is advanced on the grounds of alleged but not obvious emergency or distress. And also whenever extraordinary assistance is afforded in a case of distress—and specially when the services or exertions of the Officers and Crew of the Steamer are considered to be deserving of extra reward.

THE STEAMER'S ENGAGEMENT

Subject to the above rates of charge and to the general regulations printed below, the Steamer is bound to proceed to the Ship to which she is engaged, and to attend and tow her if required as far as may be considered by the Commander of the Steamer to be practicable with reference to the safety of the Steamer, the state of her engines, and the supply of fuel, and to the necessity of affording sufficient time for the return of the Steamer to safe anchorage, not lower down than Sangor Point, by sun-set. It being understood that, under these provisions, it is within the discretion of the Commander of the Steamer to decline towing a Ship higher up the river than Bishop's College, or proceeding lower down than Sangor Point and also to decline towing a Vessel during the continuance of a dense fog.

The hours of steaming are from sun-rise to sun-set.

GENERAL REGULATIONS

Priority of claim to a Steamer is given in the order of application when the party applying has determined the date on which he requires the Steamer, and subscribed to the printed engagement annexed to these Regulations.—But when the day on which he requires the Steamer is uncertain, then the engagement becomes subject to the precedence of all

positive engagements that may be accepted, or employment that may occur during the period of such uncertainty

When the Vessel for which a Steamer is engaged, is not ready at the appointed time, the Steamer is considered to be engaged to that Vessel on demurrage, unless, with the consent of the owners Messrs Apcar and Co an arrangement be made for that Vessel to which the Steamer is next engaged to take up the engagement of the first Vessel.

No Engagement of a Steamer can be cancelled, nor departed from in respect of any of its conditions, without the previous sanction of the owners, or that of the Commander of the Steamer, provided the owners are not on the spot, should the Steamer have actually entered upon fulfilment of its engagement.

The selection of the Steamer in all cases rests with the owners Messrs Apcar and Co

The Steamer does not provide more than one tow rope or warp.—The other ropes and all other requisites must be provided by the Vessel that employs the Steamer, and conveyed, by her own boats, to the Steamer. Or in cases when Extra Hawser is supplied by the Steamer a charge of 16 Rs per diem will be made for such Hawser

The Certificate of the Commander of the Steamer certifying the period and place of employment or detention, &c. of the Steamer, is at all times to be admitted as the only requisite proof of the claim of the owners for hire of the Steamer under these Regulations.

The owners of the Steamers "Union" and "Rattler" are not responsible for any accidents, nor for demurrage of Vessels employing their Steamers, under any circumstances whatsoever.

Under all circumstances of ascertained or apprehended distress, a right is reserved of employing the Steamer to the postponement of every ordinary or less urgent engagement. And the Commander of the Steamer is authorised to cast off a Vessel that is in tow wherever safe anchorage may be obtained, in order to render assistance to a Vessel or to persons in distress. When the assistance is rendered to a Vessel on shore or otherwise in distress, all loss or damage sustained by the Steamer, her anchors, cables, hawsers, &c in so assisting the vessel, is to be borne and made good by the vessel or the party engaging the Steamer on her account

On demand promise to pay to the order of Messrs APCAR & Co, for the hire of one of their Steamers, which engage on account of the on or as soon after as a Steamer may be available, the sum of Co's Rs 350, for each and every day during which the Steamer may be employed on account of that Vessel, and also eventually, for hire of the Steamer on proceeding to the Vessel and during detention, and on returning to town, in conformity with the conditions of the annexed printed Rates and Regulations, to which hereby subscribe

Extra hire according to circumstances is charged for all work done before sunrise or after sunset.

Subject to eventual appeal to the owners it is discretionary with the agent and under his direction with the commander of the Steamer in certain cases to charge a higher remuneration than is provided for by the general rates when preferential claim to the assistance of the Steamer is advanced on the grounds of alleged but not obvious emergency or distress and also whenever extraordinary assistance is afforded in a case of distress and especially when the services or exertion of the officers and crew of the Steamer are considered to be deserving of extra reward.

When the Steamer is hired by the Job.

The vessel must in all cases be ready to start at sunrise on the day and from the place agreed upon or demurrage is charged at the rate of 30 rupees per hour but when the detention of the Steamer on the day of starting is so great as to cause the Steamer to occupy an additional day in performing the work agreed one whole day's demurrage is charged, viz. 250 rupees per day when steam has been got up and 200 rupees per day without steam.

Whenever a Steamer is detained in any part of the river away from Calcutta in consequence of the weather not permitting the Steamer to tow or the Vessel to proceed or in consequence of any accident to the vessel or from any other cause not occasioned by or attributable to the Steamer demurrage is charged at the rates above specified for the whole time during which the Steamer is detained. If the vessel is unable to proceed from accident or any other cause or if the weather is such as to make it impossible for the Steamer to tow the Vessel the commanding officer of the Vessel is at liberty to discharge the Steamer if he prefers doing so to paying demurrage.

When extra work is required in addition to the job agreed for the commander of the Steamer is authorized to settle the terms for such extra work and if no settlement is made the hire of the Steamer is charged at Rupees per hour for the time she may be employed in performing the extra work and in returning to the place from which she started on the extra work.

When the draft of water of the ship proves greater than stated in the agreement the hire is charged by the day at rupees per day instead of by the job.

The Steamer's Engagement

Subject to the above rates of charge and to the general regulations printed below the Steamer is bound to proceed to the Ship to which she is engaged and to attend and tow her if required as far as may be considered by the commander of the Steamer to be practicable with reference to the safety of the Steamer, the state of the engines and the supply of fuel and to the necessity of affording sufficient time for the return of the Steamer to safe anchorage not lower down than Saugor Point by sunset it being understood that under these provisions it is within the discretion of the commander of the Steamer to decline towing a Ship higher up the River than Bishop's College or proceeding lower down than Saugor Point and also to decline towing a Vessel during the continuance of a dense fog.

3 Life Insurance taken out by or through the Bank, is reduced half-yearly, according to the gradual liquidation of the claims against the debtor.

4 Applications for loans must only be for such sums as can be repaid by monthly instalments within three years.

5. When a debtor dies, the balance (after discharging his own debt in full) of any Policy of Assurance upon his life will, at the discretion of the Directors, be detained as security for the re-payment of the balance of any account for which he may be responsible as a surety.

6 The Mortgage of real property in the Hill stations and larger Military Cantonments, is occasionally taken in place of Life Assurance, provided that the property be officially registered (with power to sell) in the Station Books as belonging to the Bank, and that the amount advanced thereon be regulated by previous official report as to its convertible value at the time.

7 Regimental loans granted to Corps to facilitate the establishment and maintenance of Messes, Bands, Libraries, and other Regimental purposes.

8 Loans are granted on the Security of Government Paper, on the Stock of the Calcutta, Madras, Bombay, and Mofussil Banks, and on the shares of other approved Joint Stock concerns, where the parties borrowing give to the Bank a power to sell the notes or shares forming such security if on one month's notice to close the account, the loan—which will, in the first instance, be for three months and thereafter renewable for a similar term or terms—shall not then be re-paid in full.

9 Parties desirous of taking advances in Bombay, Madras or Agra, should apply to the Branch Agents of the Bank at those Presidencies respectively.

10 Interest on loans is charged from the date on which the amount, wholly or in part, is placed as a floating balance at the disposal of the borrower, according to notice given, and is allowed at the same rate, upon all remittances from the date of their realization.

11. When loans are not liquidated as agreed upon, a penal interest of two per Cent. per annum additional will be chargeable.

12 It is a condition of every loan that the party borrowing shall be subject to the general rules of the Bank, in respect of such transactions.

13 Constituents of the Service, when writing to the Bank, are requested to add their rank or official designation, to obviate the delay of reference, and with the same view applicants for loans are also requested, in naming their sureties, to furnish a similar detail regarding them.

14 All loan accounts with the Bank are brought up periodically to the 30th of June and 31st of December, and interest thereon is debited or credited to those dates half-yearly.

15 When parties already indebted to the Bank require further accommodation, the balance due on the former account will be deducted from the new loan, as a general rule, two accounts with different sureties and different terms of payment, cannot be kept open at the same time.

16. The Directors give a preference to applications for loans re-payable within a short date.

The attention of the Assuring classes in India is invited to an entirely new set of Tables, constructed for the special use of the Church of England Company. The rates are quite as low as the average rates of the cheapest offices in India. They have, in fact, been reduced to the fullest extent compatible with the stability of the Institution, and the security of its policy-holders.

The distinguished success which attended the establishment of the CHURCH OF ENGLAND ASSURANCE COMPANY, in England, Scotland, and Ireland, induced the Directors, several years

Church of England Life and Fire Assurance Institution.

ago, to open Branch Offices of the Company, at Calcutta and Madras, with a view of extending the peculiar advantages of this establishment to Europeans residing in all parts of India. They felt satisfied that these advantages would be duly appreciated by the Anglo-Indian public, and that the same decided success would attend the Company's establishment in the East, and the same powerful support be given to it by the Clergy and Laity in the three Presidencies of India, as had already marked its progress in all parts of the United Kingdom in Europe.

These anticipated prospects of success the Directors have the gratification of being enabled to state have been fully realised.

The high credit enjoyed by the Company in Europe, and the connection of many of its Directors with men of eminence and influence in India, have enabled the Company to proceed in a continued career of prosperity such as to satisfy the most sanguine expectations of all persons interested in its welfare.

In every Institution of this kind the two main objects of Policy-holders are **SECURITY** and **ECONOMY**.

The highest attainable economy has been afforded to Policy-holders by means of an entirely new set of Tables computed for the especial use of the Indian Branches of this Institution. No labour or expense has been spared in the construction of these Tables, and the Directors have much gratification in directing attention to them, being confident that they will meet the views, and satisfy the expectations of the assuring classes in India.

The security of Policy-holders in India is made complete by the responsibility of the whole body of Proprietors, both in England and India, to the extent of the subscribed capital, whilst, for their immediate protection and advantage, an adequate fund has been invested in Indian securities, so as to be always immediately available, to provide for whatever casualties may arise. The premiums may be paid either annually, half-yearly, or quarterly, and Policies, which have become forfeited by non-payment of the premiums, may be revived, within twelve months, upon proof of the same state of health, and the payment of the premiums in arrear, with interest thereon, but without the exaction of any fine. The age will be admitted in all cases where satisfactory evidence is furnished in regard to it, previously to the Assurance being completed.

After their arrival in England, Assurers will, if in approved health, be permitted during the remainder of their abode there, to pay their Renewal Premiums according to the reduced scale for Great Britain.

Policies effected by parties on their own lives, and assigned as a *bona fide* security to others, will not be rendered void in the event of death by suicide, duelling, or the hands of justice. Claims will become payable within three months after satisfactory proof of death.

TABLES. The first two Tables are for the use of the Civil Servants of the Company, of merchants, elegymen and others, who are not liable to the same exposure to the injurious effects of the climate and other risks, to which military officers are subjected.

Table I contains the rates for Assurances on the lives of such persons for short terms, varying from one to seven years.

Table II contains the rates for Assurances on the lives of such persons for the whole term of life, at an equal rate of premium, payable annually during life.

Tables III and IV are for the use of Officers in the Army and Navy, and others exposed to military risks. They are precisely analogous to Tables I and II, and the same observations will apply to them respectively.

In cases where Assurances are to be effected on the lives of persons exposed in an equal, or nearly equal, degree to the effects of the climate, as Military Officers, but not liable to be killed in action, a rate of premium will be charged according to the nature of each particular case. It will, however, exceed the rate for Civilians, but will in general be less than the rate for Military officers. The premium for every such case may be ascertained by application to the Agents.

When the party resides in, or is about to visit any particularly unhealthy part of India, or is afflicted with gout, hernia, or any slight chronic disease, not attended with immediate danger, such additional rate (to be ascertained by application to the Agents,) will be charged as the circumstances of the case may require.

No addition to the premium will in any case be made for sea-risk, in passing from any one part of India (including Ceylon,) to another, or in passing to or from the Cape of Good Hope, or England, either by the Overland or Sea route.

WILLIAM EMMENS, *Secretary*

The necessary Forms of Proposal, and every requisite information as to the mode of effecting Assurances, may be obtained either by letter or personal application, to Messrs. Colvin, Ainslie, Cowie & Co., Calcutta, and to Messrs. Parry & Co., Madras.

The Colonial Life Assurance Company was established in 1816 for the purpose of extending to India and to the Colonies of Great Britain generally, the benefit of life Assurance on such a scale, and under such liberal conditions, as the altered circumstances of the times were considered to require, also for the purpose of giving increased facilities to persons visiting or residing in foreign countries.

The first Division of the Company's Profits will take place at 25th May 1851, and Policies opened before that date will receive the benefit of a share in the Division.

From the wide basis on which the Company has been established, from the extensive field of business which it is cultivating, and from the success which has attended its operations, the Directors look forward to large Profits available to their Policy-holders, and they do not think they over-estimate the advantages of the Company, in stating that no office has extended its business to India affording so many facilities, and holding out the prospect of so much advantage to Assureds.

The Rates of the Company, as contained in the annexed Tables, will be found moderate, and, looking to the facilities and advantages afforded by the Company, they may be considered more advantageous, and virtually less expensive, than those of any other office doing business in the East. Policies will be issued for any amount, from 500 to 50,000 rupees.

The Directors now invite attention to the following general Regulations and Conditions, which have been framed with much care, with the view of making the Company's Policies available securities of the most perfect kind, with as much freedom to the Policy-holder as may safely be granted.

Claims paid at the end of three months, or immediately, if preferred, on discount.

Policies with Profits purchased at any time after payment of one year's Premium, and Policies without Profits for the whole term of life, after three years' Premiums have been paid.

Nine-Tenths of the surrender value of the Policy advanced by way of Loan, on its security.

Assignments of Policies recorded, and from the date of such recording assurance not subject to forfeiture on any ground whatever, except fraud, or non-payment of the proper Premiums.

Policies held by parties on their own lives unalienable on any ground whatever, except fraud, but subject to forfeiture, during the period of twelve months from their date, in the event of death by suicide, duelling, or the hands of justice.

Age and Interest admitted on the Company's Policies in all cases where proof is given satisfactory to the Directors.

Thirty days of grace allowed for payment of Premiums, and in the event of death taking place during the currency of these days, before payment of the Premium, the risk binding on the Company, if payment be made before the days of grace expire.

Assurances forfeited may be revived within three months of the date at which the Premium became due, on proof, of health satisfactory to the Directors, and payment of a fine of ten per cent. on the Premium in arrear.

Military men holding appointments of a civil character, not requiring military service, charged the rate applicable to the civilians.

Persons Assured through the Indian Branch of the Company have permission to reside in any part of the world, so long as they continue to pay the original rate of Premium stipulated in their Policies.

Colonial Life Assurance Company.

Persons Assured for the Whole Term of Life returning to Europe or other climate considered equally healthy by the Directors, pay the reduced Premium applicable to Europe, according to the Company's published Rates (Table No II), commencing with the first Annual Premium due, after their arrival within such limits has been duly reported.

Persons Assured paying a reduced rate of Premium for residence in Europe or elsewhere, desirous of returning to India, require to make application to the Directors for permission to do so, paying the original rate of Premium required in terms of their Policy. If desirous to proceed to any other part of the world instead of returning to India, the terms will be specially arranged.

No Expenses in connexion with obtaining Policies; and all Medical Fees paid by the Company.

The Calcutta Board are empowered to accept Proposals and issue Policies, and every facility is afforded for the despatch of business.

Every information which this Prospectus does not contain will be furnished by the Secretaries.

The advantages of this Society are as follows —

A lower and more economical scale of Premiums for Life Assurance than hitherto demanded by the established offices in India

Three-fourths of the whole profits divided amongst the Policy-holders

All holders of Policies in India on the profit scale, who may have paid five Annual Premiums, will be entitled at the expiration of the fifth year, to a *year's profit*, calculated on the average of the preceding five years, such profit to be paid in cash, or to go in diminution of the future Premiums payable or to be added to the sum assured by the Policy at the option of the holder, after the calculation of the profits shall have been made in London.

Parties assured in India for life shall, on their return to England for a *permanency*, and on the first half-yearly Premium becoming due, be entitled to come upon the English rates of Premium, and be placed under the Rules and Conditions of the Society there obtaining

All parties assured for life or for terms other than for life, whatever the number of payments or the permanency or otherwise of their residence in Europe, shall, after completing a full year from the date of their quitting India, and on the first half-yearly Premium thereafter becoming due, be entitled to a reduction of their Premium to the English rates, such reduced rates being continued during their further residence in Europe

Parties in the Military Service holding Civil Offices, and thus subject to no greater risk than members of the Civil Service, will be charged at the rate of Premium of a civil life, but on return to their military duties the higher rate will be charged—due notice of such return must be given to the Secretaries

Premiums are payable half-yearly in advance, but arrangements may be made with the Secretaries for the payment of Premiums annually or for a given number of years

Assurance will be computed from the date of the certificate, but no Assurance to be binding on the Society until the first *six months* premium shall have been actually paid to the Secretaries

Policies becoming claims upon the Society, will be paid three months after satisfactory proof of the death of the party assured shall have been received at the Society's office

Policies granted by the Indian Branch, will be paid in India or London, at the option of the holder, at the exchange of two shillings per Company's Rupee, provided notice shall have been given to the Secretaries, at least *three months* previous to a lapse occurring, of the place at which it is desired the payment may be made if no notice shall have been given, the payment will be made at the place at which the last Premium previous to lapse may have been paid

All payments or receipts on account of the Society of Sterling money in India or of Rupees in England, will be made also at the fixed rate of Two Shillings per Company's Rupee

In cases of lives, of more than ordinary hazard, an increased rate of Premium will be charged proportionate to the risk, such increased rate will be regulated by the strictest attention to justice between the Society and the Assured

All applications for Assurance must be accompanied by a Medical Fee of Eight Rupees

Notices of Assignments of Policies will be duly registered at the office of the Secretaries

Applications for Assurance to be made to the Secretaries, Messrs. GORDON, STUART AND CO., who are prepared to grant Policies, to the extent of 30,000 Rupees on any one life, approved of by the Directors, and who will afford information regarding the business generally and rules of the Society in London, as relates to Assurances on lives or survivorships, the purchase and sale of Annuities and reversionary interests, the granting Endowment on existing children, and other ordinary business of the Family Endowment Society

Premiums are received half-yearly, but in the event of death taking place within the first six months of any year (commencing on the anniversary of the date of the Policy) the Premium for the next six months will be deducted from the sum assured, it being distinctly understood and agreed upon, that the Premium for each entire year during the continuance of an Assurance, shall in all cases be paid.

Indian Laudable and Mutual Assurance Society.

CONDITIONS ENDORSED ON THE POLICY

Policies will become void if the Premiums be not paid within thirty days after the period limited by the Policy for payment, but should proof be given, to the satisfaction of the Directors, that the parties whose lives have been assured continue in good health, the Policies may be revived at any period within six calendar months on the payment of a fine of one-half per cent. on the sum assured, or at any period within twelve calendar months, on the payment of such a fine as the Directors may think reasonable.

Policies will become void if the parties whose lives have been assured shall go to any of the following places, viz, Arracan, the Soondurbans of Bengal, Assam, the province of Soudo, and all places subject to periodical visitation of the plague; or (not being of the military, or maritime profession at the time the Assurance is effected) shall afterwards enter into or engage in any military, maritime, or other hazardous service or employment whatever, unless in each case permission shall have been granted by the Directors, which may be obtained by the parties paying a Premium adequate to the extra risk, but no additional Premium will be demanded in consequence of the party whose life has been assured, proceeding on public duty, in obedience to the orders of his superiors, or in performance of his professional duties, to any of the above exempted places.

Policies will become void in case the parties whose lives have been assured, shall die by duelling or by their own hands, or by the hands of Justice. But the Directors will in each case, make such allowance as they may deem reasonable, and if the Policy shall have been assigned to a *bond fide* creditor other than the Society, the Directors will pay such creditor to the extent of his interest in the Policy, upon satisfactory proof of his interest being given to the Directors.

All claimants upon Policies must, if required, furnish proof of the death of the party assured, and give such further information as the Directors may think necessary, and reasonable proof will also be required of the age of the party assured, unless it shall have been previously established and admitted in the Policy or by indorsement thereon.

In the event of death taking place within the first six months of any year (commencing on the anniversary of the date of the Policy) the Premium for the next six months will be deducted from the sum assured, it being distinctly understood and agreed upon, that the Premium for each entire year during the continuance of this Assurance shall in all cases be paid.

Policies granted by the Indian Branch will be paid in India or London, at the option of the holder, at the exchange of Two Shillings per Company's Rupee, provided notice shall have been given to the Secretaries, at least *three months* previously to lapse, of the place at which it is desired the payment may be made. If no notice shall have been given, the payment will be made at the place at which the last Premium previous to lapse may have been paid.

All payments or receipts on account of the Society of Sterling money in India or of Rupees in England, will be made also at the fixed rate of Two Shillings per Company's Rupee.

Policies will become void in case the parties whose lives have been assured shall take service out of India, except under the orders of the Indian Government.

12.—These Rates are lower than those of any other Insurance Office in India, as will be seen by a comparison of the Tables. But irrespective of rates, it is clear that a prosperous Society like the Laudable, which reserves the whole of its profits for the assured must, in reality be more advantageous to a Policy-holder than any other Life Insurance Company with an external proprietary body however apparently low the rates of the latter may be.

By order of the Directors,

J. S. SMITH, Secretary.

Calcutta, 1st August, 1854.

As there seemed to be some ambiguity in the Rules as to the rights of voting and the qualification for the direction, the Directors deemed it necessary to take Mr Morton's opinion thereupon and which is now inserted

1st.—That it be, and it is hereby declared, that according to the true construction of the Rules of the Society, the right of voting, and the qualification for the direction are vested in the parties respectively mentioned and described in Schedule A herewith annexed, and that the said right and qualification shall be regulated in future, according to the tenor of the following Rules, and of the said Schedule in the respective cases therein mentioned.

2nd.—That where the right of voting, or the right of qualification is vested in any particular case, in more persons than one, whether Trustees, Executors, Assignees, Partners or others, any one of the number may exercise the said rights respectively, provided none of the others express dissent, and in the case of dissent by any one of the number, none of the number shall exercise the same without the written consent of all.

Indian Laudable and Mutual Assurance Society.

3rd.—That where the right of voting or the right of qualification is vested in a Company, or other public body, the said rights respectively may be exercised by the Secretary, or other public accredited Agent or Officer of such Company or body.

4th.—That whenever the interest in a policy shall be transferred, such transfer of interest shall not be valid for the purpose of transferring or affecting the right of voting or the qualification for the direction in respect of such Policy, until such transfer shall have been registered by the Secretary of the Society, in the present and existing Registry of the Society, and the same shall be conclusive evidence of the right, as regards all registered policies therein mentioned, as the same shall appear on the production thereof, at the dates when such right is claimed to be exercised

SCHEDULE A — Referred to in the Declaratory Resolution.

First—Where A has taken out a Policy in his own name, A has the right of voting in respect of it, and also the qualification for the Direction provided that the amount insured be not less than Co's Rs 6,000

Second—Where B has taken out a Policy on his own life for the benefit of A, A has the right of voting and the qualification for the Direction in respect of it.

Third—Where A has taken out a Policy on his own life, and afterwards assigned or transferred it to B, B has the right of voting and the qualification for the Direction in respect of it, subject to the provisions as to Registration contained in Declaratory Rule No 4th.

Fourth—Where the interest in a Policy is vested in the Trustees of the Marriage Settlement, the case is to be deemed an exceptional one, and the right of voting and the qualification for the Direction are to be deemed and taken to be, not in the Trustees, but in the Settler so long as he himself pays the Premium

DAYS OF GRACE

In order to define the applicability of the 15 days of Grace, Counsel's opinion was taken, and Mr. Morton decided as follows That it must be distinctly understood, (that notwithstanding 15 days of Grace are allowed during which the Premium may be paid, the risk covered by the Policy extends only over the period for which premium has been paid in advance—28th February 1851

REDUCTION OF PREMIUM TO PARTIES RESIDING IN EUROPE OR OTHER APPROVED COUNTRIES.

1—The above rates are charged in full only on the first payment of 6 months' Premium on the issue of a Policy

2—The subsequent Cash payments are lessened by the deduction of one-half of the declared profits of the Society, which half has averaged 12½ per Cent for some years past, and the other half is passed to Credit of the Policy in the Guarantee Fund

3—When the required accumulation of 10 per Cent on the sum assured has been completed in the Guarantee Fund to the credit of the Policy, future Cash payments of Premium will be still further reduced by a deduction of the whole profits, say 25 per Cent, instead of the moiety as heretofore.

4—The amount realized to Credit of every Policy in the Guarantee Fund is payable on discontinuance of the Policy, or added to the payment of the sum assured in event of lapse

Success—The Indian Branch of this Society was established on 14th Aug. 1851, and on the 1st January 1854, an amalgamation was effected with the Oriental Life Insurance Company. At the present period or in little more than three years, there are Policies of this Branch in force for upwards of one Hundred Lakhs or a Million Sterling and fresh business is steadily coming in at a rate that gives an increase of income from premiums of upwards of two Lakhs of Rupees per annum, 379 new Policies for Co.'s Rs. 21,69,515 having been granted in the last six months.

This is ample evidence that the public have pronounced in favor of the low Premiums and general liberality of the terms introduced by this Company for India.

Profits are ascertained at regular intervals of five years, and an entire two-thirds are divided amongst Policy-holders on the participating scale. The last division was made out of the profits up to 30th June 1853, and the following are examples of it as applied to Indian Policies, showing an addition to the amount insured of about two per cent. per annum.

Universal Life Assurance Society.

Age.	Date of Policy.	Original sum Insured.	Bonus given.	Sum now Assured under Policy.
49	31st Oct. 1851,	Rs. 10,000	886 14 8	Rs. 10,886 14 8
44	4th May 1852,	" 10,000	365 12 0	" 10,365 12 0
27	30th Dec. 1852,	" 10,000	111 4 8	" 10,111 4 8

The above shows the advantage of effecting Policies in the class participating in profits of a Company constituted like the present, and without disparaging the principles of mutual assurance, the result will bear comparison with that shown by any office.

Premiums for the Assurance of Rupees 1000 for the whole term of life *with profits*, the rates *without profits* being exactly 10 per cent. less than the following

60 ...	40 0 0	7 1 4		41 0 0	7 4 2	

EXAMPLE.—An Officer, aged 30, may secure Rupees 10,000 to his heirs at his decease, whenever that may happen, by paying Rupees 205 half-yearly, or Rupees 36-4-10 monthly, to this Company, or on the without profit scale Rupees 190 half-yearly, or Rupees 33-10-4 monthly.

The above Premiums were computed by Mr Neison, the Resident Actuary and Manager of this Company, from the records of the India House—an ample guarantee for their sufficiency—and are in the case of Civil lives from 8 to 20 per cent. lower, and in the case of Military lives from 21 to 30 per cent. lower than the average, *with profit* rates of other Offices. Premiums for *Short Term Insurances* correspondingly moderate,

INSTRUCTIONS TO PERSONS DESIROUS OF EFFECTING AN ASSURANCE ON THEIR LIVES IN THE UNIVERSAL ASSURANCE SOCIETY.

1.—The person on whose Life the Assurance is to be effected must wait on his usual Medical Attendant with the letters, and transmit the same to the Directors of the Society agreeably to the instructions given.

2.—In case of the absence of the usual Medical Attendant, and the Certifying Surgeon cannot of his own knowledge answer the queries put to him as to the general habits of the person applying for assurance, such other Certificate or Certificates may be furnished as may be presumed calculated to satisfy the Directors.

3.—The Report of the Surgeon will be considered as strictly confidential. The Official Medical Adviser of the Society will alone be consulted when the advisableness of any risk admits of doubt.

4.—An Affidavit, of which the form is annexed, must be taken before a Magistrate, or where there is no Magistrate before the Principal, Civil or Military Officer of the Station, or a solemn Declaration according to the same form must be made before either of the Directors, or the Agents of the Society in Calcutta, Madras, or Bombay, as soon as possible after the party has appeared before the Surgeon for examination.

5.—Applicants being conscious of any of the diseases enumerated in the Declaration and

Universal Life Assurance Society.

Affidavit, may note the same, that the Directors may consider whether an additional premium will cover the additional risk

6.—Should the Directors agree to take a risk more or less objectionable, a rate of Premium higher than ordinary will be stipulated for accordingly, to which the Applicant may of course assent or not, as he may judge expedient. But whether a risk be altogether declined, or a rate of premium higher than the ordinary be proposed, the Officers of the Society are prohibited from offering any explanations on the subject.

7.—These instructions, with the Declaration of the Medical Reporter, and the Affidavit or Declaration hereunto annexed, must, when duly attested, be forwarded along with the report without any unnecessary delay, to the Directors of the Society

BRADDON AND CO., *Agents and Secretaries.*

N B.—Persons residing in or near Calcutta are also required to appear before the Medical Officer of the Society, Dr Allan Webb

CONDITIONS 1.—The payment of Premiums must be made within twenty-eight days after the day they shall become due, or the Policy will be void, but, upon proof being given, to the satisfaction of the Managing Committee or Directors, that the party whose Life has been assured continues in good health, the Policy may be revived at any period within three months, on payment of a fine of one-half per cent on the sum assured, or at any period within six months, on the payment of such fine as the Directors may think reasonable

2.—Assurances shall be void if the parties whose lives have been assured shall, without having obtained the previous written consent of the Managing Committee or Directors for the time being, go to any of the excepted places enumerated below, or enter into or engage, in any Military, Maritime, or other hazardous service or employment whatever, other than their declared regular professional duties or services, but no additional premium will be demanded from any assurer proceeding on public duty in obedience to the orders of his superiors to any of the excepted places.

3.—If the assured shall die by duelling, this Policy shall become void so far as respects such persons, but in such cases, the Managing Committee of Directors are empowered to allow to the representatives of the person so dying, any part of the sum assured as they shall think fit, the Assurance, however, shall remain in force so far as any other person or persons shall have acquired a *bona fide* interest therein, by assignment, or by legal or equitable lien; the extent of such interest to be proved to the satisfaction of the Directors

4.—Assurances made by persons on their own lives who shall die by their own hands or by the hands of justice, shall become void so far as respects such persons, the assurance, however, shall remain in force so far as any other person or persons shall have acquired a *bona fide* interest therein by assignment or by legal or equitable lien, provided that the Policy shall have been in existence for the space of twelve months at the least prior to the death by any of the means herein enumerated, the extent of such interest to be proved to the satisfaction of the Directors. Assurances, however, made by parties on the lives of others are not to be affected by this Rule.

5.—Where the application for Assurance makes no mention of the date from which the Assurance is desired to take effect, the Policy will be issued as of the date of approval of the risk by the Directors. No assurance to be binding on the Society until and unless the first Premium shall have been actually paid to the Agents.

6.—In case of lapse of life within the first six months of any year of the time covered by the Policy, the Premium for the following six months, if not already paid, will be deducted from the sum assured it being agreed, that Premium *for the whole of every year* shall in all cases be paid.

7.—Claimants must make proof of the decease of the person on whose life the Policy is effected, and give such other information respecting the same, (particularly as to the disease or other occasion of death, as the Directors may reasonably require)

8.—No receipts are to be taken for any Premium of Assurance or Deposit, but such as are printed and issued from the Office, and signed by the Agents of the Society

9.—The places excepted, and above referred to, are declared to be Arracan, the Soonderbuns of Bengal, Assam, and all places subject to periodical visitations of the Plague. Upon the lives of persons insured, resorting to any of the above excepted places, additional Premium will be demandable at the discretion of the Managing Committee or Directors

10.—Parties assured in Company's Rupees in India who may determine on paying their future premiums in England, will be required to pay them at the fixed rate of Exchange of Two Shillings per Company's Rupee and in the event of any such Assurance becoming a claim payable in England, the sum assured will be paid at the same fixed rate of Exchange of Two Shillings per Company's Rupee.

ADDRESS—The Directors of the Liverpool and London Fire and Life Insurance Company beg to invite the attention of the Residents in India to the claims which the Company prefers on their confidence and support

And, first, the Directors would invite a perusal of that part of the Prospectus in which the Constitution of the Company, its Capital, and Resources are stated, and merely adding to the information there given, that as there is still *one-fifth* of the original Capital yet to issue, and as no portion of that is parted with except at a Premium, which Premium is carried by direction of a clause in the Deed of Settlement to the credit of the Reserved Fund, and so goes to strengthen the Company, it is obvious that the figures inserted in the Prospectus are true only up to the time when the last Annual Accounts were printed and are subject to increase from that source year by year, until it shall have been deemed expedient to complete the stated Capital of Two Millions.

But it cannot be said that the ability of the Company has not been tested, when it is considered that during the seventeen years it has existed, it has paid away in satisfaction of claims, under its Fire and Life Policies, the large amount of £420,000, an amount which has probably never been exceeded in the same time, by any Company in so early a period of its history.

If, however, the test be deemed sufficiently severe, the Directors have the satisfaction of knowing that it has brought with it a very convincing proof that the favourable opinion of the public has been secured. The income of the Company now, from its Fire Business, is at the rate of £100,000 a year, and its Life Premiums produce £50,000 a year more, added to which is an Annuity business of very considerable magnitude—the Annuities now payable by the Company amounting to upwards of £10,000 per annum

In reliance upon these facts, therefore, the Directors respectfully invite the inhabitants of India to favour the Company with a portion of their patronage. They do not lay claim to any exclusive information—they do not profess to work cheaper than their competitors but they do undertake to have both the disposition and the means to discharge cheerfully all claims under their Policies, and to give to those who do Business with them the security they seek.

The Directors having recently acquired the Business of the late Australasian, Colonial and General Life Insurance and Annuity Company, which has for some time past been doing business in India, have appointed the highly respectable Agents of that Company representatives of this, and have invested them with ample powers for the satisfactory transaction of Business in both the Fire and the Life Departments.

Liverpool and London Fire and Life Insurance Company.

The Directors of this Company are of opinion that it will meet the views and wishes of the great body of those who apply for Policies, if they be informed at the time of application, what is the extent of benefit for which they contract, and so enter into the engagement with a full knowledge of what they have to expect. It is thought that certainty on this point, and freedom from partnership liability, combined with a fixed and liberal participation in the results of the Company's operations, will present to those who desire to provide in this way against the uncertainty of life such substantial reasons on which to proceed as cannot fail to find favour with the public.

Hence the Directors have prepared a scheme of business which offers an option of insurance on either two plans; one at a comparatively low rate of Premium, carrying with it no advantage other than the amount of the Policy, the other requiring a higher rate, and entitling the Insured, so soon as Ten full Annual Premiums shall have been paid, to certain declared Annual and Decennial Bonuses.

The great advantage over other plans of Insurance which this arrangement possesses, is, that there is no uncertainty as to what is promised, no liability to disappointment at what is realised, and, if it be true that a leading object aimed at by Insurance Companies is to render that certain which without their agency would be doubtful only, that Company would seem to fulfil most entirely this purpose of their existence which places the inducements it holds out to the world, on the clear basis of distinct guarantee.

As regards the advantages so guaranteed by this Company when compared with those proposed by other Offices, it will be found, it is believed, that they are greater than the large majority of the Participation Companies have yielded to their insured, and that few Companies, if any, have been able to do more. The scale of Bonuses, which begins at something less than one per cent per annum at the young ages, gradually rises, until at the advanced periods of Life it exceeds two per cent per annum, and the Bonus accrues to each Policy yearly after ten Annual Premiums have been paid, and at the expiration of each succeeding term of ten years, is calculated from the date of the Policy.

Thus, a Policy for Rs 10,000 on the Life of a Civilian aged 40 years, on which the Annual Premium is Rs 552½, will after ten payments of the Premium represent, Rs. 11,016½
 And every year thereafter the Policy will be increased Rs 101½, and at the end of twenty years that Annual Bonus will be calculated from the date of the Policy, or for twenty years, giving at that time a further Bonus of Rs. 2,033½
 And so on until the expiration of thirty years, when the Bonus will be Rs. 4,066½
 And at the end of forty years the Policy will be increased by Rs 2,883½

And attain its full sum of Rs 20,000

From this example, each person will be able to ascertain by reference to the Tables, the precise operation of the plan in his own case.

Premiums may be paid yearly or half-yearly.

CONDITIONS OF INSURANCE.

I Persons desirous of making Insurance against Loss or Damage by Fire, are to deliver in to the Office or its Agent, the following particulars viz.

BUILDINGS.—Of what Materials the Walls and Roof of each Building intended to be Insured are constructed, as well as of the Buildings contiguous or nearest thereto—Whether the same are occupied as Private Dwellings, or how otherwise—Particularly whether any Manufactory or Hazardous Trade is carried on, or Hazardous Goods deposited therein—Where situated—Also the Name or Names of the Occupiers.

GOODS, WARE, OR MERCHANDISE.—In the Insurance of Property of this description, the Building or Place in which the same are deposited is to be described according to the foregoing directions, and, also, whether such Goods are of the kinds denominated Hazardous.

Each Building must be separately valued, and a specified sum insured thereon—And in like manner a separate sum insured on the Property contained in each Building.

In the Insurance of Premises which contain any Steam Engine, Furnace, Kilo, Stove, Coakle, Oven, or other Implement, in or by which Heat is produced (common Fire-Place excepted,) the construction and circumstances of the same must be particularly described at the time of effecting the Insurance,—or, if subsequently introduced, due Notice must be given to the Company, and the same be allowed by them, otherwise the Policy will be void. And if any person or persons shall insure his, her, or their Buildings or Goods, and shall cause the same to be described otherwise than as they really are, to the prejudice of the Company, or shall misrepresent, or omit to communicate any circumstance which is material to be made known to the Company, in order to enable them to judge of the risk they have undertaken, or are required to undertake, such Insurance shall be of no force.

Pitch, Tar, Turpentine, Rosin, Saltpetre, Sulphur, Gunpowder, Flax, Hemp, Oils, Tallow, and Distilled Spirits are denominated Hazardous Goods, and amongst the trades deemed hazardous are included Apothecaries, Chemists and Druggists, Dyers, Distillers, Brewers, Maltsters, Bakers, Confectioners, Carpenters, and all other Workers in Wood, Mills of all descriptions, Manufacturers of Cotton, Wool, Hemp, Flax, Soap, Candles, Starch, Snuff, Tobacco, and Huts, Theatres, Sugar Refineries, Sail Makers, Ship Chandlers, Dealers in China, Glass, & Earthen-ware, Inns, Taverns, Hotels, Stable Keepers, Printers, and Founders.

Many other Goods, Trades, and Manufactories will also fall under this denomination.

II. Goods held in Trust or on Commission are to be insured as such, otherwise the Policy will not extend to cover such Property.

III. No Loss or Damage to be paid on Fire happening by any Invasion, Foreign Enemy, Civil Commotion, Riot, or any Military or Usurped Power whatever; nor for Damage done by Fire occasioned by Earthquakes or Hurricanes. Nor will the Company be answerable for any Loss or Damage by Fire that may happen to any Hay, Corn, Seed, or other property by Natural Heating, but this Company will make good Losses on Property burnt by Lightning.

IV. Books of Accounts, Written Securities, Bills, Bonds, Tallies, and Ready Money cannot be insured.

V. Jewels, Plate, Medals or other Curiosities, Paintings and Sculptures, are not included in any Insurance, unless such Articles are specified in the Policy.

VI. No Order for Insurance will be of any force, unless the Premium is first paid to the Office, or its Agent, or unless a sum has been advanced; and all persons desirous to continue their Insurances, must make their future payments on or before the day limited by their respective Policies, or the same will be void.

Liverpool Royal Insurance Company.

VII. Leaseholders, Trustees, Mortgagees, and Reversioners, as well as Landlords may issue their Interests in Buildings, provided the nature of the Tenure or Interests be duly specified.

VIII. All persons assured by this Company, sustaining any Loss or Damage by Fire are forthwith to give Notice to the Company or its Agent, and as soon as possible after (within fourteen days at furthest) to deliver in as particular an account of their Loss or Damage, signed with their own hands as the nature of the case will admit of. In this account, the Property and Articles must be specified in detail, with the Quantities, Qualities, and Prices; and the Assured make proof of the same by his Oath or Affirmation, and by his Books of Accounts or other proper Vouchers, as shall be reasonably required. No Profit or Advantage of any kind is to be included in such Claim, and if there appears any Fraud, Overcharge, or Imposition, or any false Swearing, the Claimant shall forfeit all claim to Restitution, or Payment, by virtue of his policy.

If required, the Assured shall also procure a Certificate, under the hand of one or more Magistrates, Sworn Notary, or Clergyman of the City or District in which the Fire happened, not concerned in such loss, importing that they are acquainted with the character and circumstances of the person or persons insured, and having investigated the circumstances relating to such Loss, do know, or verily believe, that he, she, or they, really, and by misfortune, without any kind of Fraud or evil Practice, have sustained by such Fire, Loss and Damage to the amount therein mentioned, and until such Proofs, Affidavit, and Certificate are produced, the Loss Money shall not be payable.

Where property insured is only partially damaged, no abandonment of the same will be allowed, unless by consent of the Company or its Agent. And in case of the removal of property to escape Conflagration, the Company will rateably contribute to the Loss and Expenses attending such Act of Salvage.

IX. When any Loss or Damage shall have been sustained by Fire, upon Property insured, the Company will either restate the same, or the Assured, as soon as such Loss or Damage shall have been duly proved, shall immediately receive payment of his Claim.

X. In case any Difference or Dispute shall arise between the Assured and the Company, touching any Loss or Damage by Fire, such difference, if the Company shall so require, shall be submitted to the judgment and determination of Arbitrators indifferently chosen, whose award in writing shall be conclusive and binding to all parties.

LIVERPOOL ROYAL INSURANCE COMPANY.

LIFE AND FIRE INSURANCE.

CAPITAL, £ TWO MILLIONS, in 100,000 Shares of £ 20 each.

Liverpool Office, — Royal Insurance Buildings.

Liverpool Royal Insurance Company.

Manager and Actuary, — Percy M. Dove.

The important advantages afforded by the Company in the *Life Branch*, will include the following, *viz.* :—

I — **SECURITY.**—The guarantee of an ample Capital and exemption of the assured from liability of partnership. The assured neither having to depend on an uncertain fund, consisting solely of the accumulated premiums, nor being liable, as in mutual Companies, for any deficiency, as soon as that amount may be absorbed.

II — **PREMIUMS.**—Moderate premiums. The Company, in determining its charges for assurances, under the various contingencies, dependent on human life, has availed itself of the experience of the oldest and most prosperous London Offices, and of the recent investigations on the subject, made by the most competent Mathematicians and Actuaries. Its tables of premiums consequently avoid, on the one hand, an unnecessarily high rate of payment by the assured, and on the other, the danger resulting from inadequate charges.

III — **DISTRIBUTION.**—Large participation of profits by the assured, amounting to two-thirds of its net amount, which may be applied at the option of the party effecting the assurance.

1st — *By an immediate payment of the sum so apportioned*

2nd — *By an equivalent reduction of the future premiums, or*

3rd, — *By an equivalent increase of the sum assured.*

IV — **SMALL CHARGE FOR MANAGEMENT.**—The expenses of the office being borne in due proportion by the two branches.

V — **PROMPT SETTLEMENT OF CLAIMS.**—All claims will be payable within three months after satisfactory proof of the death of the Life assured. The Directors reserving to themselves the power to discharge any claim immediately on its being established.

VI — **FOREIGN RESIDENCE.**—Residence in any part of Europe allowed without any additional charge, and the extra premiums charged for voyage to, and residence in, any other foreign climate, or, for Naval and Military service, or any other special risks, are fixed on a moderate basis.

VII — **Lapsed POLICIES.**—Policies lapsed by non-payment of the premium, may be renewed within three months, by paying the premium with a fine of 10s. per cent, on the production of evidence to the satisfaction of the Directors of the good state of health of the life assured.

VIII — **PURCHASE OF POLICIES.**—*Or issue, in lieu thereof, of a Policy without Premium.* The Company will always be prepared to purchase the Policies of this office at their equitable value, or will grant a New Policy in lieu thereof without any further payment of Premium, for a sum to be agreed on.

IX — **SECRECY.**—Assurances may be effected when needed with the utmost secrecy and despatch.

X — **NO ENTRANCE MONEY.**—No entrance money, nor any charge made for the Policy stamp. N. B. —The usual commission allowed to Solicitors and others acting as Agents. Fees to Medical referees are likewise granted by this Company.

Premiums on Credit, &c.—A portion of the premiums may remain on credit, or Assurances may be effected in various ways, to meet the convenience of the party making the proposal.

CALCUTTA BRANCH.—Office, —No. 1, Church Lane.

Agents, —James Church, Junior, & Co.

Beg leave to inform their friends and the public, that they continue to receive orders for Assurances, and desire to draw their attention to the sound principles of the establishment for which they act, and its ample resources.

CAPITAL AND SECURITY.—The amount of the Capital of the Company, *viz.*—Two Millions Sterling, which would be immediately available to meet any unforeseen calamity—the well-known character of its Directors—the high respectability of its Proprietors—and the standing which it takes among the large Insurance Establishments of the *British Empire*, enable it to rank with the most eligible offices now in existence, either in *Europe* or elsewhere, with respect to the advantages offered to the public.

MODERATE PREMIUMS.—Fire Insurances will be effected at moderate rates of premium.

The Company, from its large experience of Fire Insurance business, is able to form a just estimate of the risks which may be offered for its acceptance, and the Directors will always be amongst the first to give up premiums which shall be found to be excessive.

CONCESSIONS OF RATE FOR IMPROVEMENTS.—They will likewise be ready to give such persons as may have introduced valuable and cautionary regulations for the safety of their premises the full advantage of those improvements.

Accidental Death Insurance.

PROMPTNESS AND LIBERALITY IN THE SETTLEMENT OF CLAIMS.—The Company will ever distinguish itself by its *promptness in the settlement of claims.*

The high character which the Company has obtained for liberality in the payment of losses, is very marked. The liberal settlement of losses incurred by the great fires in the United States and Canada during 1852 and 1853, has practically shown the character which this Company has ever maintained throughout the whole world under this head, it will only be necessary to add here that the Agents at Calcutta can, with confidence, announce to their fellow-citizens, that they may feel assured that every legitimate claim will be immediately settled.

EXEMPTION OF THE ASSURED FROM LIABILITY.—Persons assured by this Company are not subject to any covenants or calls, to make good losses which may happen to themselves or others, nor do they depend upon an *Uncertain Fund or Contribution*, the Capital Stock of this Company being an unquestionable security to the assured, in case of loss or damage by Fire.

The extent of the Company's business now spreads, not only throughout the United Kingdom, but very largely in the continents of Europe, Asia, and America; and the numerous Agents which it has established, including persons of the highest standing and mercantile position in foreign countries, where Insurances may be effected with peculiar advantages, place in the hands of the Directors an *efficient machinery* for increasing the benefits of insurance generally, and for giving to insurers every facility to indemnify themselves, in the event of the destruction of their property by Fire.

Ocean Parcels Delivery Company.

Head Office,—4, Agar Street, Strand, London — Calcutta Agency, 14, Writers' Buildings.

The undersigned has been appointed Agent for the Bengal Provinces

Parcels and packages are received for despatch at all the Agencies of the North-Western Dāk Company and the North-Western Bullock Train, for all Cities, Towns and Villages, in Great Britain and Ireland, and all the chief Cities and Towns in continental Europe and America.

At the time of delivery to Agents for transmission, it should be stated by letter or otherwise whether packages are to be conveyed to Calcutta by Horse Dāk, or by Bullock Train, and it must be distinctly stated in writing on the packages whether they are to be forwarded via the Cape, or overland, and in the latter case the contents (in general terms) and value, in sterling money must be specified on the outside of each package.

The carriage on packages as far as Calcutta, as well as Customs duty and charges there, must be prepaid. To meet the latter a deposit must be made with the Agents to whom packages are delivered, and an account of the same will be rendered as soon as practicable.

All packages will be forwarded via London, and the Agent there will realize all further charges; but, parties desirous of more than usual expedition, on depositing with the undersigned or his Agents a sum, calculated to meet all contingencies, will have their packages forwarded at once to their respective destinations, without being delayed at the London Office, pending payment of dues thereon

The only charge in India, beyond actual cost of transit to Calcutta. Duty and Shipping-charges, will be one rupee per package.

REGULATIONS

I. That this Association be denominated "The Calcutta Trade Association."

II. That it do consist of an unlimited number of merchants, tradesmen, artists and others, who may be disposed to aid in the accomplishment of the objects of the Association

III. That the objects of this Association be,

1. To encourage the general adoption of the system of ready money-payments, which prevails in all other parts of the world, and which enables tradesmen to sell at lower rates than those of Calcutta can afford to do, from the prevalence of the ruinous system of indiscriminate credit which has obtained for many years, to the serious injury of the tradesmen, and the manifest disadvantage of the public

2. To define the terms of credit, when credit is allowed, and to prescribe measure calculated to ensure payment, and guard against future loss when the terms of credit are violated

3. To encourage friendly communication amongst persons engaged in business in Calcutta, especially on subjects involving their common interests, an object which appears to have been hitherto neglected

IV. The officers of the Trade Association are the master, past master, senior warden, junior warden, treasurer, secretary, auditors, counsel, and solicitor

V. The master to be elected from the past masters and those members who have served or may be serving the offices of wardens. All other office-bearers, to be elected from the members generally.

VI. The election of master, wardens and treasurer to take place by ballot annually, at a special meeting to be convened for the purpose, on the second Saturday in December. VII. No member shall continue in the office of master or warden for more than two years in succession, but he may be again elected after he has been out of office one year

VIII. The committee of management, to consist of twelve members in addition to the office-bearers, and five to be considered a quorum

IX. Four members of the committee shall go out annually by rotation, and the master shall nominate four, which, with any candidate proposed by a member, shall be balloted for their stead

X. Any member of the committee being obliged to leave Calcutta from sickness or otherwise, on intimating the same to the master in writing, the master shall, if required, nominate another member from the body of the association to take his place during his absence

XI. The committee of management shall meet every Saturday morning for the despatch of business, their decisions being subject to the approval of the members at the succeeding quarterly meeting

XII. The general quarterly meetings of the association to take place the second Saturday in January, April, July, and October

XIII. The master shall preside at all meetings, or, in his absence, the immediate past master. In the absence of the immediate past master, the oldest past master present, shall take the chair

XIV. The master, or, in his absence, the senior warden, has right and authority of assembling a special general meeting, the cause of such meeting to be declared in the summons, and no other business to be entered upon.

Trade Association

XV. Special general meetings may also be called on a requisition to that effect, signed by five members, and specifying the object of the proposed meeting.

XVI. In any case where the votes are equal, the second or casting vote of the chair to decide.

XVII. The master, past master and wardens in office, are to be the representatives of the association, and being supposed to speak the sentiments of the members, or a majority of them, or bound to act upon such resolutions as may be passed in committee, or at general meetings duly assembled.

XVIII. Applicants for admission as members of the association, to be proposed and seconded at one committee meeting and ballotted for at the next, two black balls to exclude.

XIX. Notice of the ballot to be particularly circulated to the committee.

XX. The member who proposes a candidate for admission, shall be responsible for his entrance fee.

XXI. Each newly elected member shall pay an entrance fee of fifty (50)* rupees, towards the permanent fund of the association, and he shall be furnished with a copy of the general regulations and bye-laws of the trade association gratis.

XXII. Each member shall pay a subscription of six rupees monthly, in advance to the current fund of the association.

XXIII. Any member allowing his bills to remain unpaid beyond three months, shall be liable to have his name erased from the list of members of the association.

XXIV. Any member who shall have been struck off for non-payment of subscriptions, shall not be again eligible for election, except as a new member, and that not until he pays the said arrears, when he may make application, as a new member, in form and manner above prescribed.

XXV. Any member desirous of withdrawing from the association, can have his wish complied with from the end of the current month, upon sending written notice to that effect to the Secretary.

XXVI. Any member intending to leave Calcutta for a considerable length of time, but to return within two years, shall not be subject to monthly subscription during his absence, and may, if he wishes, be re-admitted to the association without paying the usual donation, provided that, previous to going away, he has duly intimated his intention to the Secretary *in writing*.

XXVII. In case of the death, sickness or absence from Calcutta of the subscribing partner of any firm, another member of that firm, or other person employed by it, shall be allowed on continuing to pay the monthly subscription, to take his place in the association, provided he duly intimates his intention of so doing in writing to the Secretary.

XXVIII. All bills or drafts for disbursements, shall be signed by the master before they are paid.

XXIX. The permanent fund of the Association shall be lodged in the Bank in the name of the Master and Treasurer for the time being.

XXX. The accounts of the Association, with an abstract therefrom, shall be laid upon the table at each quarterly general meeting.

XXXI. A weekly list of arrivals and departures in and from Calcutta, shall be furnished to each member of the association.

XXXII. Applications for the use of the rooms for meetings or other purposes unconnected with the association, shall be made to the Master, through the Secretary.

XXXIII. It shall be proper for any member of the association, to apply *personally* to the Secretary or to the committee, for any information obtainable on subjects embraced by the declared objects of the association, and the committee, and especially the Secretary, are enjoined, as far as practicable, to impart the desired information.

XXXIV. Such part of the proceedings or regulations of the association, as to the committee may seem proper shall, from time to time, be published for general information in such newspapers as may be disposed to give gratuitous insertion to the same.

XXXV. In addition to the officers prescribed by Regulation IV, that of Permanent President be revived.

XXXVI. The permanent president shall be a member of the Committee, and Regulation IX which prescribes the retirement of members by rotation, shall be inoperative as regards the permanent president.

XXXVII. The organization hitherto existing for the government and management of the Association and its objects, as laid down in Regulation XIII is complete and effective; and its powers and duties are in nowise altered, abrogated, or to be controlled by the permanent president.

* Made optional, the 13th April 1839.

THE BENGAL HURKARU,

A DAILY NEWSPAPER,

Printed on an Extra Large Imperial Sheet, with which is incorporated

THE INDIA GAZETTE AND BENGAL CHRONICLE.

THE BENGAL HURKARU, the senior journal of India, was established, as a *weekly* Newspaper in January, 1795. It was originally printed on small folio sheets, and published every Tuesday morning, with supplements as occasion required, during the week subsequently, the day of its publication was changed to Saturday, and eventually it became a *daily* Paper.

The first number of the daily Hurkaru (being likewise the *first* DAILY Paper ever published in India) appeared on the 29th April, 1819, printed on a single quarto sheet, which was then judged the utmost that could be got up daily at an Indian Press. Very soon however, a second sheet was considered necessary and means were found to publish it, and on the first July, 1821 a third sheet was added, and the material upon which it was printed changed from Bengal medium to good European royal paper—the first ever issued for an Indian Newspaper. Quarto, and even small folio, sheets, having, however, been found, by experience, unsuited to the purpose of a *daily* paper, on the 1st February, 1824, it was printed on a royal folio sheet, and so continued until 1st January, 1834, when it assumed its present *imperial* size.

The interests and resources of several Calcutta Journals have, from time to time, merged in the BENGAL HURKARU, and it received an important accession on the 1st October, 1834, when the then oldest Newspaper in India, (*The India Gazette*) with all its stock, was united to the Hurkaru Press thus rendering the *Bengal Hurkaru*, the oldest, the largest and the most comprehensive Newspaper, ever yet published in India.

THE BENGAL HURKARU is delivered, free of expense, every morning, by the poons of the establishment, throughout Calcutta and its environs, including Russapugla, Garden Reach, Seelipore, Howrah, Sulkea, Cossipore, Dum-Dum, Barrackpore, Serampore, Chanderanagore, Chinsurah, and Hooghly. A second edition is despatched by Dawk every evening, bearing postage.

The weight allowed for Newspapers is 3½ sicca weight each cover, upon which postage is levied at two rates—two annas to stations within 400 miles, and three annas to stations exceeding that distance from Calcutta.

It shall be in respectful and temperate language, and shall conclude with a distinct prayer.

In no other case or manner shall any stranger be heard by himself or by his Counsel.

XXX. Ordinarily no reply will be sent to a petitioner. But the Clerk of the Council may be ordered to make such special communication to a petitioner as the Council may direct.

If within four weeks from the day of such report being made, no Member shall make any motion upon the subject, it shall be the duty of the Member nominated by the Governor of such Presidency, or by the Lieutenant-Governor of such Lieutenant-Governorship, to bring the same before the Council, either by bringing in and taking charge of Bill for the purpose of carrying the proposal into effect, or by making such other motion upon the subject of the proposal as he may think fit.

XXXII. Any final resolution of the said Council upon such proposal shall be communicated by the Clerk of the Council to the Government of the Presidency, or to the Lieutenant-Governor of the Lieutenant-Governorship, by whom the proposal was made.

- LVI.** Any Member may, at an ordinary Meeting of the Council, move the first reading of a Bill.
- LVII.** Notice of such intended motion shall be given by the mover, either at a previous Meeting of the Council, or by sending the notice in writing to the Clerk of the Council two clear days before the day fixed for making the intended motion.
- LVIII.** The motion, of which notice has been so given, shall be inserted in the Orders of the Day for the day appointed.
- LIX.** Upon moving the first reading of a Bill, the mover shall state the object and intention of the measure, and the reasons upon which it is founded, and shall deliver to the Clerk of the Council the Bill which he proposes to be read, with a brief abstract of each Section or Clause in the margin thereof, and also a statement, signed by himself and annexed thereto, of such object and reasons, and any extracts of correspondence or documents which may be necessary for a right understanding of the Bill.
- LX.** Upon such motion no discussion shall be permitted, and the Bill shall be read a first time without question, unless the Bill relate to the public finances, to the constitution of the Army or Navy, or to the relations of the British Government with Foreign States, or shall affect the religious rites or usages of the Natives of India.
- LXI.** If the Bill relate to any of the matters mentioned in the last preceding Order, notice of such intended motion must be given at an ordinary Meeting of the Council, at least one week before the motion shall be made, and the question shall not be proposed by the President unless the motion be seconded.
- LXII.** On the first reading of a Bill, the Clerk of the Council shall read only the title of it. The Bill with its annexes shall be printed, and a copy shall be sent by the Clerk of the Council to each Member.
- LXIII.** After a Bill shall have been read a first time, notice may be given of a day on which the second reading of the Bill will be moved.
- LXIV.** When a motion for the second reading of a Bill shall have been made the President shall propose the question—"That this Bill be now read a second time," upon which a debate may be taken only upon the general merits and principles of the Bill.
- LXV.** If the motion for the second reading of a Bill be carried, the title only of the Bill shall be read. Thereafter upon motion made, the Bill shall be referred to a Select Committee of the Council, of which the mover shall be the Chairman.
- LXVI.** After the Bill shall have been read a second time and referred to a Select Committee, it shall be published in the *Calcutta Gazette* for general information, unless the special instruction provided for by Order No. LXX shall have been given to the Committee immediately after its appointment.
- LXVII.** All written communications on the subject of Bills published for general information shall be addressed to the Clerk of the Council, who shall cause the same and also all such petitions as shall be ordered by the Council, to be referred to the Select Committee on the Bill, to be printed, and a copy thereof to be forthwith laid before such Select Committee and to be sent to each Member of the Council.
- LXVIII.** The Select Committee shall take into consideration the Bill, and all such written communications, and also all such petitions as shall be referred to them, and shall prepare a Report thereon, and shall in such Report propose any amendments of the Bill which they may think expedient. A copy of the Bill signed by the Select Committee shall be annexed to the Report, written or printed in such a manner as to distinguish the amendments, if any, proposed by the Select Committee, from the Bill as published.
- LXIX.** As soon as the Report of the Select Committee is ready, it shall be presented to the Council. Provided that such Report shall not be presented before the expiration of the following periods respectively,
- Report of Select Committee. viz. :—

Legislative Council.

2 In all other cases, twelve weeks from the date of the first publication.

LXX Any Member, however, may move a special instruction to the Select Committee immediately after its appointment, directing it to submit forthwith a preliminary Report, suggesting any alterations which it may deem expedient to make in the Bill previous to the publication thereof in the *Calcutta Gazette*. If such preliminary Report of the Committee shall be adopted by the Council, the Bill shall be amended accordingly, and published for general information.

LXXI When the Report of the Select Committee shall be presented to the Council, it shall be laid upon the table; after which notice may be given of a day on which it will be moved, that the Council do resolve itself into a Committee of the whole Council on the Bill.

LXXII The Report of the Select Committee shall be printed, and a copy thereof, and also a copy of the Bill annexed to such Report, if any amendments of the Bill be proposed by the Report, shall be sent by the Clerk to each Member of the Council.

LXXIII If the motion for going into Committee of the whole Council on the Bill be carried, the President shall leave the Chair, and the Chairman of the Committee shall take a place at the table of the Council. The Committee will then proceed to consider the Bill in the form in which it was referred to the Select Committee. Provided always that the Council may instruct the Committee to consider the Bill in any amended form in which it may have been recommended by the Select Committee to be passed, in which case the Committee will then proceed to consider the Bill in that amended form. The Committee may make any amendments in any part of the Bill, or in the title thereof, which they may think fit.

LXXIV In settling a Bill in Committee of the whole Council, the title, preamble, and each Section or Clause of the Bill shall be considered separately, commencing with the first Section of the Bill and ending with the preamble, if any, and the title of the Bill.

LXXV The Chairman shall call the number of each Section and Clause and shall read the marginal abstract thereof. If no motion be made thereon, he shall put the question—"That this Section (or Clause) stand part of the Bill." If any motion be made to amend the Section or Clause, the Chairman shall state the line in which the amendment is proposed to be made, and upon such motion, or any other motion that may have been made, he shall proceed in the mode prescribed in these Orders under the head "Motions."

LXXVI. If any amendment of the Section or Clause be carried, the question shall be put by the Chairman—"That this Section (or Clause) as amended stand part of the Bill."

LXXVII A similar course shall be adopted with regard to the preamble, if any, and to the title of the Bill.

LXXVIII Except as herein otherwise provided, no amendment of an earlier part of a Bill shall be proposed after the Committee has resolved upon a later part of the Bill, unless an amendment made in a later part of the Bill shall have been carried, which renders necessary an alteration in the language of an earlier part of the Bill.

LXXIX The Committee may allow the consideration of any Section or Clause to be postponed and taken out of its order before the vote has been taken on the question—"That the Clause stand part of the Bill."

LXXX. In settling a Bill in a Committee of the whole Council, any Member, without making a formal motion, may suggest an amendment thereof, or of any amendment proposed by another Member, or may ask for information respecting any part of the Bill, or any proposed amendment thereof. Provided that the Chairman or any Member may require such suggestion to be put by motion made in a regular manner, and provided also that no amendment shall be made in a Bill except upon a question regularly

The Rules and Orders, with the Table of Fees, which have hitherto subsisted in the Court for the Relief of Insolvent Debtors, are revoked and annulled, save as to matters already done, and save as to the Rule of Court made to take effect from the 28th day of December 1847 relating to the Accountant General, and, instead of them, the following Rules and Orders and Table of Fees are established by the Supreme Court at Fort William in Bengal

1 All summonses, precepts, rules, orders and other mandatory process shall run, and be in the name of our Sovereign Lady the Queen, and shall be sealed with the Seal of this Court, and shall have and bear the attestation of the Chief Justice of the Supreme Court of Judicature, or in the vacancy of the office of the Chief Justice, the Puisne Judge acting as Chief Justice, naming him, and shall be prepared, made out, and signed by the Chief Clerk of the Court, and all petitions, affidavits, and other proceedings shall be filed by the said Chief Clerk of Record, and the offices of the said Chief Clerk shall be open daily, between the hours of ten in the forenoon and four in the afternoon.

2 That in every case the Attorney shall personally, and not by his clerk, accept the retainer of a Prisoner, and the Prisoner shall sign the retainer, and at the same time the Attorney shall sign his acceptance thereof, provided that, in case of the illness of such Attorney, or of his absence from Calcutta, such retainer, may be received and accepted for him by some other Attorney of the Court, the cause thereof being stated in such acceptance

3 That the Attorney of every Prisoner, or other Person, applying for Relief under the Act of Parliament, shall cause his Bill to be taxed by the Taxing Officer, and delivered with the allocatur thereon to such Prisoner, or other Person applying for Relief, one week at least before the hearing of his or her Petition, and the Attorney, in all cases, on taxation of his bill of costs, shall produce and leave with the Taxing Officer an Affidavit, proving the payment of all sums of money charged in the same as paid out of pocket, and the truth of each and every other charge for any proceeding, or attendance, or letters charged therein, and that the same were actually necessary to the Prisoner's discharge

4. That no Attorney shall directly or indirectly employ the Gaoler, or Deputy Gaoler, Prisoner, or other Person, residing or confined within any of the Goals, as clerk or agent to solicit retainers, touching the Relief or Discharge of any Prisoner on pain of being removed from the rolls of the Supreme Court, and no Attorney shall practise as an Attorney whilst he shall himself be a Prisoner for debt or other cause

5 That, with every Petition, there shall be delivered to the Chief Clerk of the Insolvent Court, to be by him immediately delivered to the Official Assignee, an Estate Paper signed by the Petitioner, containing an account of the Estate and Effects of the Insolvent, in his possession, or under his control, capable of being delivered up, or of which immediate possession can be given or taken, and, on receipt of such Paper, the Official Assignee shall send a Broker or Appraiser, who shall immediately inventory and appraise such Articles as shall be claimed by or on behalf of the Insolvent as excepted under the Act, and such appraisement shall be countersigned by and lodged with the Official Assignee.

6 That to every Schedule there shall be annexed (and filed therewith) another Estate Paper, containing an account of all Moneys, Estates, Effects, and Securities, which, within 12 Calendar months next preceding the time of his going to Prison, if a Prisoner, or of the presentation of the Petition, if not a Prisoner, shall have been paid, spent, alienated, or in any wise lent, disposed of, incumbered, or pledged (and to whom respectively) or recovered, by or from

Rules and Orders.

the Insolvent, or on his account, and also containing an Account of his Income or Receipts during such twelve months, and whence derived or obtained, which Estate Paper shall be signed and witnessed in the same manner as the Schedule. That at the time of filing every Schedule, with the annexed Estate Paper hereinbefore last mentioned, there shall be delivered by the Insolvent to the Official Assignee a duplicate thereof respectively, signed and attested in the same manner, and by the same persons as the original filed in Court.

7. That any application to the Court for leave to file any Schedule shall be supported by the Affidavit of the petitioner, setting forth the facts and stating the cause of not having filed such Schedule as required by the Act, or within such time as the Court may have allowed, and also stating what time is required for filing the same, and the application is not made for delay.

8. That, in case of second or subsequent Insolvencies, where it shall be necessary to mention creditors, debts and liabilities under a former Insolvency, it shall not be necessary to do so, otherwise than by stating the total amount of debts and liabilities, and total number of creditors under the former Insolvencies, and referring for particulars to the Schedules filed there under.

9. And whereas it is desirable to provide assistance for such Insolvents, being prisoners (and who shall have been and continue imprisoned for six calendar months) as may be unable themselves to prepare the necessary papers, and who may be unable to procure professional assistance, it is ordered that the Keeper of the Gaol of Calcutta shall be entitled to receive from every such prisoner in his custody, desirous of seeking the benefit of the Insolvent Act, the sum of 16 Rupees, provided he shall furnish to such prisoner the necessary blank forms like those in the Appendix to the Act, and shall assist in properly filling up the same, and shall be present when the Petition, Schedule, and the Estate Papers of such prisoner, and when the duplicate original of such Schedule and the Estate Paper annexed thereto, shall be signed, and shall attest the same as a witness, and shall forthwith deliver or transmit, sealed up in a secure manner, to the Office of the Chief Clerk, such Petition, Schedule and Estate Papers, and to the Official Assignee such duplicate Schedule and annexed Estate Paper.

10. That, unless the Court shall in any case otherwise order, the notices for hearing the matters of the petition of the Insolvent shall be served 28 days before the day for hearing. That all notices to be served by the Messenger shall be served, when the distance does not exceed 5 miles from Government House, Calcutta, by the Messenger of the Court personally, and beyond such distance, by him through the General Post Office, and such Messenger shall be in attendance to prove such services, whenever the Court shall be sitting, and shall produce the duplicate list of notices, that the Chief Clerk may minute, in the margin thereof, opposite each name, the services, and file the same. Provided always that, in the case of Military Insolvents, whose regiments shall be stationed more than 50 miles from Calcutta, and who shall appear to be indebted to persons residing at such stations, in sums not exceeding the amount of One Hundred Rupees, respectively, instead of the service of notices in the usual manner, notices to such creditors may be forwarded to the Pay Master, Quarter Master, Adjutant of the Regiment, or Brigade Major, or Station Staff, of the Division to which the Insolvent may belong, or have belonged for the purpose of being served upon such creditors, and the service of such notices upon such creditors shall be duly certified to the Chief Clerk, who shall file the certificate.

And it is ordered, that the amount of the dividends, or other sums which shall appear to be due to such creditors, in default of any claim being made for payment thereof, pursuant to the provisions of the Statute may be remitted by the Assignee to such Pay Master, Quarter Master, Adjutant of the Regiment, or Brigade Major, or Station Staff, of the Division to which the Insolvent may belong, or have belonged, for the purpose of being paid to such creditor, respectively, so served as aforesaid.

11. That copies of such notices for the hearing, and of all other notices, to be served by the Messenger, duly addressed and numbered according to the name, address, description and number in the Schedule, together with a duplicate list of each such name, address, description and number, and together with the original order to which such notices shall relate, shall be delivered to the Messenger five clear days at least (exclusive of Sundays,) before the last day for the service thereof. That delivery of notices by the Messenger to the party, or to his Solicitor, partner, clerk, door-keeper, wife, son or daughter at the usual place of abode or business of such party, or to the Gaoler in whose custody a party shall be, shall be deemed equivalent to personal service.

12. That the publication of notices in the *Gazette*, required by the Act, and of the vesting order, day for the hearing, day for hearing any other application in the Insolvency, and of the appointment of Creditors' Assignees, shall be by the Chief Clerk, who shall cause the same to be inserted in such numbers of the *Gazette*, as shall be first and second, successively, printed next after the Court shall have directed such notices to be given, or next after the making of such Vesting Order, or the appointment of such days for hearing, or of such Assignees. That, in lieu

Insolvent Debtors' Court :

of attaching to the proceedings in each Insolvency, a copy of the *Gazette*, and other papers, if any, in which advertisements shall have been directed, the Chief Clerk shall make and file a memorandum of the appearance of the advertisement therein, and of the date thereof, and it shall not be necessary to file such *Gazette*, or papers.

13 That the Petition and Schedule (with the Annexures) of any Insolvent, and the books and papers filed therewith, shall be produced by the proper officer for inspection and examination during office hours, upon payment of the ordinary and established fees for search, and notice to produce such books and papers, or any specified one or more thereof at the hearing of any petition, or application, must be given to the officer having the custody thereof, on or before the day preceding the day for hearing.

17 That, whenever any person shall claim to be a creditor for an amount larger than that admitted by the Schedule, or whenever any difference shall arise between the Assignee or any one creditor and another, as to the correctness of the amount of any debt admitted by the Schedule, or whenever any person, who is omitted from the list of creditors in the Schedule, or whose debt shall be entered as disputed in the Schedule, shall prefer any claim to rank as a creditor, the Official Assignee, having ascertained upon what day the Court will sit for the purpose, shall (by advertisement) give one week's notice at the least, of the day so appointed, and on such day the persons aforesaid, and any other person, may bring forward their proofs in support of any claim, and the Court shall deal with the same in manner directed by the 41st Section of the Act as to claims.

18 That no dividend shall be reserved for any disputed claim or debt, that shall not have been substantiated before or at the date of such sitting at which the dividend shall be declared, or which the Court shall not specially direct to be reserved.

19 That every such claimant shall, at such sitting of the Court as aforesaid, upon oath, declare, whether he has, or has not, any security for his claim or alleged debt, and, if any, shall produce the same to be marked.

20 That the Official Assignee shall require the production of every security held by each creditor when such creditor or his duly authorized agent shall apply for receipt of his dividend.

21 That the Assignee or Assignees of each Insolvent Estate shall, on the expiration of six calendar months from the declaration of the dividend, file in Court an account upon oath of every dividend then in his or their hands unclaimed, specifying the name of each creditor to whom each such unclaimed dividend is due, as well as the amount of the debt due to each such creditor, and shall publish the same in such numbers of the *Gazette* as shall be first and second successively printed next after such six months, and, if any such dividend shall have remained unclaimed for the space of twelve calendar months next following such declaration, every such unclaimed dividend shall be paid into the hands of the Government Agent of the East India Company to the credit of the matter of the Insolvent Estate in which it shall have been declared, accompanied with a memorandum or account specifying each creditor's name, to whom each such unclaimed dividend belongs, provided always that, out of the amount of such unclaimed Dividends Accounts so filed and published as aforesaid, the Assignee or Assignees shall deduct the cost and charges of preparing and advertising such account, and that out of the amount so to be paid in and credited, he or they shall further deduct the cost and charges of preparing such memorandum or subsequent account.

In pursuance of such power, therefore, it is hereby ordered, that the following be the

5th When a defendant shall be living or serving on board of any ship or vessel, or be residing or quartered in any barracks, and serving Her Majesty or the East India Company, as a marine or soldier, it shall be sufficient service to deliver the summons, to appear to a suit or action, to the senior officer on board, or to the person who may at the time have charge of such ship or vessel, or to the Adjutant of the Corps, or any officer or sergeant of the company to which such marine or soldier shall belong or be attached "and in the case of Pilots and Preventive Officers respectively, while engaged in actual service, it shall be sufficient to deliver the summons to the senior officer of the Bankschall, or the Superintendent of the Preventive Service of the Custom House."

21st. In every case where the defendant intends to move to reduce the amount of a judgment, or for a new trial, he must give notice at the time of making the deposit to the Clerk, who shall then return the same for five days, within which time the defendant must move the Court for the rule *nisi*. On the granting the rule *nisi*, the money shall be detained in Court till the rule has been made absolute, or till such other time as the Court shall order. In the event of notice not being given to the Clerk as aforesaid, or of the rule *nisi* being refused, the plaintiff may take the money out of Court without further delay.

HOUSE ASSESSMENT

The collection of the house assessment is now transferred to the Municipal Commissioners, but is subject to the same rules as prevailed when it was under the Justices

As much misconception prevails on the part of landlords and others in regard to the remission of the house tax for periods during which houses are occupied, and to the rules established for hearing appeals against the assessment, the Collector of Assessment deems it necessary to inform landlords, where any house, building, or ground, within the said Town, has been vacant for sixty consecutive days in any quarter of a year, that rate for the quarter shall be remitted, provided that the owner of such house, building, or land, shall have given notice in writing of the vacancy thereof to the Secretary of the Commissioners, within seven days next after the day on which it becomes vacant, and if such notice of vacancy be not given within the said seven days, the said rates shall be remitted from the day on which the notice may be delivered to the Secretary.

The bills for house tax being made out from books prepared by the assessors, and approved by the Justices, at their quarter sessions, neither the Commissioners nor Collector have power to alter those bills in any respect, consequently, when parties are desirous of having their own names substituted for the names in which the bills are made out, or when the assessor's valuation of premises is objected to, they should apply to the Justices at their quarter sessions for the alteration of names or the abatement of assessment, as the case may be, and landlords are *particularly required to take notice* that any abatement in the assessment, which may be allowed by the Justices in sessions has effect from and after the quarter immediately succeeding that in which the abatement was allowed, and not retrospectively.

The Quarter Sessions are held by H M Justices of the Peace in February, May, August, and November in each year, at these sessions the assessors make such increase in the valuation of premises as they may deem proper, timely notice being served upon the owners or occupiers of the premises, the assessment whereof it is proposed to increase. Public notice is given in the Calcutta *Lucknow Gazette* of the holding of the quarter sessions and of the period allowed by the Justices for receiving appeals against the assessment. Appeals should be delivered to the Clerk to the Justices, and receipts obtained from him of their having been filed in his office. The assessors give notice to appellants of the day and hour appointed by the Justices to hear their appeals.—*Vide Sections 39, 40, 41, and 42, of Act X of 1852.*

The house tax is payable quarterly, and recoverable, in cases of default, by distress of the goods and chattels of the owner or occupier, under the provisions of Act X. of 1852.

Determined, that the extra allowance at the rate of Rupees 360 per mensem, drawn by the chaplains for visiting out-stations, be discontinued, and that instead a travelling allowance be drawn, according to the rates fixed at the General Post Office, as in cases in which travelling allowances are granted to civil servants, the bills for which allowance to be submitted with the certificate of chief Civil or Military Authority, and through the channel, countersigned by the Archdeacon, through whom they are to be forwarded to the Civil Auditor, and to be returned by the latter, direct to the respective chaplains prescribed in the 5th and 6th paragraphs of the orders of Government, dated the 10th March 1829.

Ecclesiastical Department, the 18th December 1832.

The Hon'ble the Vice-President in Council is pleased to resolve, in supersession of the rule passed under date the 19th July 1831, permitting chaplains to draw a travelling allowance according to the rates fixed at the General Post Office for visiting out-stations, that hereafter an extra allowance, not to exceed Rupees 200 per mensem, shall be paid to the district chaplains of the Bengal presidency upon periodical visitations, when these have been duly authorized, and that it shall be calculated at the rate of one day's allowance for every ten miles, allowing for a halt on the Sabbath; provided, however, that the allowance drawn on this account shall in no case exceed Rupees 200 per mensem. The bills for this allowance are to be authenticated by a copy of the order or authority under which the visit has been made, and by a declaration on the part of the chaplain, that the journey has been performed, without which documents the Civil Auditor is prohibited from passing the charges.

ECCLESIASTICAL DEPARTMENT.

Vide Order of Government in the Home Department, No. 32 of 1854, dated 25th August, in Part IV

OUR GOVERNOR GENERAL OF INDIA IN COUNCIL

Para. 1.—Having considered the position of members of our Ecclesiastical Establishments in connexion with the Rules which we have lately laid down for the grant of furlough and leave of absence to our Civil and Military, we have determined that chaplains and assistant chaplains shall be entitled to take furlough on private affairs and on medical certificate on the same terms and conditions as military officers, with the following modifications —

1st—Chaplains being allowed to retire after twenty years' service, the period of furlough (private affairs) must in then case be limited to the present term of three years. The furlough may, however, either be taken in one period, or be divided into two periods, whether of eighteen months each, or of two years and one year respectively, and, if divided, the first furlough may be taken, as at present, after seven years' residence, and the second furlough after a further residence of ten years in India. As respects chaplains and assistant chaplains appointed before the 11th January 1854, when the period of service was only eighteen years, their second furlough, if they should exercise the option of taking furlough in two periods, will be available after a second residence in India for a term of eight years.

2nd—No furlough or leave of absence, whether on private affairs or on sick certificate, taken in Europe, or elsewhere out of India, in excess of three years, will be allowed to count as service in India, in the twenty years which qualifies chaplains for their retiring pensions.

2. The furlough pay of chaplains will remain as at present. With regard to their allowance during sick leave to any place out of India, we have resolved that, in accordance with the principle adopted for military officers, they shall receive salary, (but at a rate not exceeding £600 per annum,) for the first six months of absence, and for the remaining twelve months, an allowance equal to the furlough pay of their standing. If the leave be extended, an allowance equal to furlough pay may be drawn for a further period of eighteen months.

3. You will communicate this Despatch to the Governments of the subordinate Presidencies

We are, &c, (Signed)

A SHORT ACCOUNT OR HISTORY OF THIS CHAPEL.

This place of worship was opened for divine worship in June 1821. The form of worship is that adopted by the Independants, and its form of Church government is Independent. It is the property of the London Missionary Society, and the Minister must be a Missionary of that Society, approved by the Church and by the Mission families, though the form of Church government is Independent.

Evangelical Christians of different denominations are admissible to the Lord's Supper: as its name imports, it is a Union Church. The first pastor was the Reverend J. Hill, who held that office for fourteen years. To him succeeded the Revd. R. C. Mather, A. M., who held the office of pastor for a few months previous to the arrival of the present pastor, the Revd. T. Boaz, in January 1834. The management of the affairs of the Chapel are in the hands of the Deacons and Managers, the former attend to the spiritual, the latter to the temporal affairs of the Church and congregation. The Church, as intimated above, consists of Christians of different denominations who agree on the main points of the Christian Faith.

The Chapel is built in a plain Grecian style; the interior is commodious and elegant. Bishop Heber said of it, that in his time, it was one of the simplest and chastest buildings he had seen in India. It was erected and is supported by voluntary contributions; and has always maintained the character of a Missionary Church.

The first stone of this Church, through the instrumentality of Joseph and Louis Barretto, was laid on the 12th March 1797, and on the 27th November 1799, it was consecrated and dedicated to the VIRGIN MARY OF ROSARY. The architect was Thomas Seyars Driver, who died before the completion of the building. The Church cost 90,000 Rupees in building, 30,000 of which arose from the revenues of the former Church, the remaining 60,000 accumulated by subscription. When the subscription closed, all deficiencies were made up by the Barretto family.

Armenian and Greek Churches.

Armenian Church of St. Nazareth

Armenian Street—Erected in 1724.

On the establishment of Calcutta in 1689, the Armenians were invited by Job Charnock, the then Governor, to reside in Calcutta, subsequently, Kananentch Phanoos was permitted to purchase the ground on which the Church now stands, and which was used as their burying ground until the year 1724, when the present Church was built by Aga Nazar out of his own private resources—the steeple was added by the Huzoor Mull family in 1734. The architect was Savond, an Armenian from Persia. In 1763 it was enlarged, and the two Altars on the right and left of the middle one were added by a wealthy Armenian named Aratoon Petrase. In 1790, Catchick Arakiel erected the wall surrounding the Church and the Parochial building, who also presented the Clock which is in use to this day.

The Church is called *St. Nazareth's*, in honor of the founder. Previous to its erection the Armenian community performed Divine Service in a temporary Chapel about a hundred yards to the South of the present Church.

OF THE

“TRANSFIGURATION OF MOUNT TABOUR”

Amratollah Street

By the sanction of the Patriarch of Constantinople, Alexios Argree brought a minister from Alexandria, and under the auspices of the munificent Hastings, purchased, with the assistance of the Greek, a small house in the alley contiguous to, and in the rear of the steeple of the Portuguese Church of the Virgin Mary of Rosary, where Divine Service was performed.

The foundation of the present Greek Church was laid in June 1780. It was consecrated on the 6th of August 1781, and dedicated to the transfiguration of Mount Tabor. The purchase of the ground and erection of the building cost 30,000 Rupees, which amount was principally raised from voluntary contributions.

The Greek Church is in fact, a Sacellum in it is a Sanctorum. The Thambula and Chandeliers are of silver, and made after the Jewish fashion.

The Greek Society at Calcutta is called among the brethren ‘*The Orthodox Brotherhood of the Greeks in Calcutta*’

The Greeks declare the Crown of England the Protector of their Temple. Their ministers are sent to India by permission of the Patriarch of Constantinople from whatever part of Greece the congregation are desirous to have them.

BURIAL GROUNDS

*Extract from the Proceedings of the Right Honorable the Governor-General in Council, under
date the 20th August 1813*

BURIALS—With respect to the rates of fees for the ritual service, it has been thought proper to continue to charge the same sums which have heretofore been received on account of funeral fees, with some modifications, calculated to relieve the lower classes of the community, upon whom the fees formerly charged might be thought to press too heavily. With these views the following rates have been established, which, it is hoped, will afford relief to the public, without materially affecting the just rights of the Chaplains, *viz.*

Nos 1 to 5 have been altered by Government Notification, dated 15th September 1853.

Vide Part III. Page 8.

8th—A ditto, ground double the grave 100

The Town Hall.

The erection of this building first originated in a resolution passed by the British Legislature of Calcutta, of the 21st February, 1864, which declared that funds should be raised for the purpose of constructing a Town Hall, by means of the surplus money after payment of the expenses of Lotteries, which were to be sanctioned and patronized by Government, and called "Town Hall Lotteries." The Government was accordingly addressed on the subject on the 15th July, 1864, by the Committee appointed to carry the above resolution into effect, and in reply, the Committee were informed that the measure met with approbation, and in accordance with the wishes of the Committee, funds were assigned by Government for the projection of such Lotteries under the sanction specified. The surplus was received by the Bank of Bengal, and appropriated to the purchase of the most advantageous public securities for the benefit of the Commissioners named to superintend these Lotteries. As soon as sufficient assets were available it was resolved that a proper site should be selected and two were chosen, one, one near the Old to the Tank-Square, and the other on the Kapilnath, which completed the premises of Mrs. Thattre and the estate of the late Mr. T. Bollen. This difference of opinion consequently gave rise to a meeting when the question of which of the two sites should be determined upon was put to the vote, and the choice of the Esplanade was carried by a majority of two. Upon this decision it was agreed to address Government and to request in order to the Company's Attorney for the preparation of the necessary deeds of conveyance which was granted. Plans for the building were next submitted by Mr. Gurney and Captain Aubrey which having been approved of the structure was commenced upon under the superintendence of the former gentleman.

In the vestibule will be found two busts bearing the following inscriptions on the pedestals

CHARLES BRUCE KERR GRIFFIN Esq. (See to the Marine Board) By the Community of British India in token of the devoted enthusiasm and untiring energy with which for 20 years against the most disastrous difficulties he ably zealously and perseveringly advocated the cause of steam communication and finally secured its establishment in 1845

JOHN PALMER, Esq. of Calcutta. Michael second son of the late Lieut. General William Palmer born 18th October 1767, died 22nd January 1836. Possessed talents united, a mind well cultivated and richly stored, with a heart susceptible of every generous and benevolent impulse ready at all times to sympathize in the sorrows and sufferings of his fellow creatures to the poor and the afflicted, his counsel when required was prompt, and his hand ever open in the hour of their need. The vicissitudes and trials of life which it was his lot to experience in their several forms, he bore with equanimity and fortitude, and he lived in the respect and affection of a numerous circle of friends European and Native, who, rightly appreciating his worth and deeply mourning for his loss have caused this monument to be erected to his memory—*Requiescat in Pace*

Near the western end, at about five feet distant from the centre window of the large dining room is the statue of Marquis Cornwallis, with the following appropriate inscription

In honor of—THE MOST NOBLE MARQUIS CORNWALLIS, K. G., Governor General of India, from September MDCCCLXXVI to October MDCCCIII, who, by an administration uniformly conducted on the principles of wisdom, equity, and sound policy, improved the internal resources of the country, promoted the happiness of its inhabitants, consolidated the friendship of the native powers, confirmed the attachment of the Allies of the Company, and established the reputation of the British name in Hindostan for good faith and moderation.

By statue in perpetuity the public demand for the landed revenue, gave to the proprietors of the soil for the first time, a permanent interest in it and by the

formation of a College of Agriculture, the Government, by the aid of a commission, and a series of unknown, in the enjoyment of their right and forced into a war by the unprovoked conduct of Lippoo Sultan, his illustrious Military conduct of it was no less conspicuous than his moderation in victory. As a lasting Memorial of his important services, and as a testimony of their nation's esteem for a Governor-General under whose administration, public spirit was encouraged, and merit liberally rewarded, this statue was erected by the British inhabitants of Bengal. A. D. MDCCCIII

The great saloons being 130 feet in length and 65 in breadth, will conveniently divide eight hundred persons in the lower floor and accommodate the same number of public entertainments for ladies, on the other story.

In the Portico to the south is a handsome statue of the Right Honorable WARREN HASTINGS, MDCCCLXX, and on each side of it figures representing an Oriah Fundit and a Moonshiee.

THE BENCOGN MONUMENT opposite the Town Hall, bears the following inscription

To WILLIAM (AVENTIST) BENEFICK, who, during 17 years ruled India with eminent prudence, integrity and benevolence, who placed at the head of a great empire never laid aside the simplicity and moderation of a private citizen, who infused into oriental despotism the spirit of British freedom, who never forgot that the end of Government is the welfare of the governed, who abolished slavery, who officed humiliating distinctions, who allowed liberty to the expression of public opinion, whose constant study it was to elevate the mind and intellect of the nation committed to his charge.

This monument was erected by men, who differing in much other in race, in manner, in language, and in religion, in cheerful with equal veneration and gratitude the memory of his worth, upright, and paternal administration. A. D. 4th Decr. 1851

OCTYRELON MONUMENT

This monument is situated on the Esplanade to the West of Government House and in honor of the cele-
brated General Sir David Ochterlony, Bart.

The Committee, who were empowered to receive sub-
scriptions on account of it and to superintend its
construction comprising Sir C Metcalfe, Sir J. Bryant,
Dr J Grant and others, asked Mr C K Robinson one
of the Magistrates of Calcutta, and whose name stands
high as a scientific amateur in civil architecture to give
a design after the Modern style of architecture to mark
the preference Sir David showed always to the followers
of the Prophet. Mr Robinson gave what now does such
honor to his taste and also a design of a Grecian column
which Mr Robinson himself would have preferred seeing
constructed. The Committee, however, and perhaps
properly, preferred the Saracenic one from the reasons
before stated.

The subscriptions received were from all
classes in this presidency (civil, military and mercantile,
and amounted to nearly 40,000 Rs. A wealthy Calcutta
firm were Treasurers, but the building had proceeded
but a little way when the firm failed, and 27,000 Rs.
were lost.

The person who undertook to build it was to do so for
Rs 30,000 (without the platform and rail round it). A
fresh subscription was then set on foot, and 10,000 Rs.
were collected and placed with another Calcutta firm, a
portion of this was lost also by the failure of that firm,
but the public spirited contractor, Mr Barker, of this
city agreed to finish the column on receiving an assen-
tment of the dividend from both Houses. We will omit
the words of the inscription, lest any stranger should be
satisfied with them alone, and not go and visit the
edifice. The upper part of the column is taken from one
in Syria: to this is added a base which is pure Egyptian
from *Dekan*. The bundle of the construction, generally
and the holding the large stones of the galleries and the
Turkish dome on the top, particularly, gave great
trouble. The view from the top, which is reached by a
circular stair-case, is very extensive and grand, extend-
ing to Barrackpore (18 miles) on the North, and Fort
Gloucester (23 miles) to the south. On the West the
whole line of the Hooghly is beautifully viewed, and on
the East, in certain months of the year, the sun is seen to
rise out of the Saltwater Lake as from molten gold, brass,
or silver as the weather determines. In the hottest of
our sultry mornings, you have a delightfully fanning
breeze on the top of the monument which rewards you
for the trouble of the ascent. *Propos of the ascent*, we
may here mention that the principle of the construction
of the staircase is peculiar and good, the inverse of each
step is jagged by means of pieces of cast iron, laid in
white lead into the end of those above and below, and
the outer ends of the steps are secured into the brick
work. The height of the whole is 165 feet — *Russell*.

Government Place**GOVERNMENT HOUSE.**

The Marquis of Wellesley, about the year 1802 learnt that strangers and new comers were always inquiring where the Government House was. His Lordship therefore determined to build such an edifice as should itself proclaim its character, and well has he succeeded.

The Government House was built about the year 1804. The architect was Captain Wyatt, of the Corps of Engineers, and the expense of erection about 13 lakhs of Rupees. The building, with all its faults, may be considered a noble one, and particularly well adapted in the plan and interior arrangements to the climate of this country. The external view is grand and imposing, notwithstanding its numerous windows and its want of height. The same altitude, divided between a basement and two stories, would doubtless have had a better appearance, but this would not have been effected excepting at a great sacrifice of interior space which it is presumed, the architect would not admit of.

The grand entrance is on the northern side, by a handsome flight of steps leading to the first floor. It is seldom used owing to its being entirely exposed, the entrance underneath the stairs being preferred by those who have occasion to go to the House.

The position of the dome has often been objected to and not unjustly. It is situated between the southern wings, and excepting when seen from the south, it almost appears out of place, from not being in the centre of the whole building. The wings on the southern side are surmounted by the Royal Arms.

The centre of the building consists of three large rooms. The ground floor being low is chiefly occupied with offices, &c. The centre of the first floor is a grand marble hall, formed by the three rooms the entrance of which has a row of columns. They are used on occasions of entertainments as the dining and supper room according to the extent of the company.

Above them are the ball rooms. The floors are of varnished teak nearly laid, the ceilings are ornamented and covered so as to conceal the beams, the gilding is tasteful and neat. From the roof are suspended numerous chandeliers while the sides of the rooms and between the windows are lined with handsome mirrors. The coup d'oeil when lighted and filled with company, is certainly splendid and would do credit to any country.

The four wings, which may be considered as distinct houses, are connected to the centre by means of commodious galleries. They are every way convenient and comfortable and are occupied by the Governor-General and his suite.

All the out offices are detached, and in no way interfere with the view of the rooms. The ground within the enclosure, measures exactly 75 bags.

FORT WILLIAM

Is of nearly an octagonal form; five of the sides being part of a regular heptagon, while the forms of the other three, next the river, are according to local circumstances. As no approach by land is to be apprehended on this side the river coming up to the place it was only necessary to guard against attack by water by providing a great superiority of fire, which purpose has been attained by giving the Fort towards the water the form of a large salient angle the faces of which enfilade the course of the river. From these faces the guns continue to bear upon the object until they get beyond the fire of the batteries.

This citadel was commenced by Lord Clive's soon after the battle of Plassey, and was intended by him to be complete in every respect, but it has since been discovered, that it is erected on too extensive a scale to answer the purpose for which it was intended, that of a tenable post in case of extremity as the number of troops required to garrison it properly would be able to keep the field. It is capable of containing 15,000 men. From first to last the Works have cost two millions sterling. The works are very little raised above the level of the surrounding country, and of course do not make an imposing appearance, nor are they even perceptible until closely approached. This excites great surprise in natives coming from the interior, who always associate the idea of strength with that of elevation.

tion, and usually mistake the barracks for the Fort; which, however, only contain buildings that are absolutely necessary such as the residence of the Commandant, quarters for the officers and troops, and the arsenal. The interior of the Fort is perfectly open, presenting to the view large grass plots and gravel walks, kept cool by rows of trees, and in the finest order intermixed with piles of balls bomb shells and cannon. Each Gate has a house over it, destined for the residence of a commandant of corps and the principal staff officers of the garrison. Between the Fort and town in extension level space into rows, called the BIDDAN ALPH.

The garrison is usually composed of one or two European regiments of artillery, and workmen for the arsenal. The native corps amounting to about 1,000 men, are generally cantoned at Barrackpore fifteen miles higher up the river and supply about 1,200 monthly to perform the duties of the Fort. The walls in the different outworks of Fort William, some of which are five hundred yards from the river, during the hot season become brackish. Government has in consequence formed an immense reservoir, occupying one of the bastions to be filled when required with rain water — *Rusdon's Grate*.

To command also better water than is now procurable within the imports, an experiment is at the present time being made to procure a supply of good water by boring an artesian spring within the body of the Fort.

Lord Clive's Ravin bears date on it 1770 Ford's 1770 Prock's 1771, Smith's 1772, Vanstuart's 1773

It mounts 619 guns of 20, bastions, 89 flanks of bastions, 197 counter guns and cavaliers, 122 lunets, and batteries on the masonry parapet.

Metcalfe paid one million of the two

9th - That, with a view to give stability to the society, a separate fund be opened for receiving *special* donations, and be called the ENDOWMENT FUND, that only such sums be paid into this fund, as are specially designated for this purpose by the donor, unless the donation amount to Company's Rupees 500, and the donor accompany his gift with no specific expression of his wishes, in which case the committee shall decide upon its appropriation at their next meeting, notice of the gift having been given in the circular summoning the meeting.

10th - That all the sums paid into the Endowment Fund be invested in Government securities, and that the interest only of such sums be available for the current expenses of the society.

11th - That should any person wish to commence a fund for the endowment of a living at any particular station, the Bishop and Archdeacon be requested to become the trustees for the same, and that while a clergyman is maintained at the station by the society, the interest of such money be paid to the general fund.

12th - *On engaging Clergymen, and taking up Stations* - That it be necessary for clergymen or candidates for Holy Orders, upon applying to be engaged in the service of the society, to transmit to the secretary the usual testimonials, together with a medical certificate of the form given below, and that a copy of the Rules be forwarded to the applicant.

13th - That except under the operations of Rule 11, no engagement to add to the number of clergymen be at any time entered into by the society, unless

(1) The RESERVE FUND be not less in amount than the aggregate of three years' salaries of all the Clergymen on the society's list after the engagement is made, and unless also

(2). The present INCOME of the society be sufficient to meet the current expenses thus increased, so that there be no prospect of encroaching upon the capital.

A. R. - The INCOME is to be estimated by adding the interest of the Reserve and Endowment Funds to all the contributions of the previous year, exclusive of bequests left for the general purposes of the society and of all sums credited to the Society's Endowment Fund.

14th - That should the (2nd) condition of Rule 13 remain at any time alone unfulfilled, and the Society receive a guarantee from any person or persons to provide the salary of a clergyman at some one or any particular station for a period of not less than three years, from whatever sources such salary may be derived, the society will be prepared to engage a clergyman for that station on the general footing of the Society's Rules.

Additional Clergy Society.

15th.—That a guarantee be given to each clergyman taken upon the society's list, that in case of such a defalcation of funds as to render a diminution of his salary necessary, three years' notice shall be given him before any such diminution be made, that this notice shall be given only in case the Reserve Fund becomes less in amount than the aggregate of three years' salaries of all the clergymen on the society's list, and that this notice shall be given to the last clergyman brought upon the society's list, and then to the last but one—and so on in the inverse order of their appointment; and shall be cancelled by a counter-notice from the committee when the funds so improve as to repair the defalcation.

This Rule is not to apply in the case of a clergyman engaged under the preceding Rule, whenever the unexpired portion of his guaranteed salary shall exceed three years.

16th.—That before an application for a clergyman be entertained, the residents of the station applying be required to form a local committee consisting of at least three members, and to send to the secretary in Calcutta the names of these members for record on the society's books. That this local committee be required to furnish a statement of the number of Christian residents in the station and neighbourhood, and any other information which may assist the Calcutta committee in deciding upon the application.

17th.—That before the application be complied with, the local committee be required to build or purchase a suitable residence for the clergyman, and to guarantee to keep it in repair and to pay ground rent and taxes so long as he is retained at the station. That the house be made over, in trust, to the Bishop and Archdeacon of Calcutta for the benefit of the society, which, in return, shall guarantee to supply funds, if required, for the clergyman's support at the station for three years at least.

18th.—That at any time after the expiration of these three years, the services of the clergyman may be transferred to another station, three months' notice having been given of the same, unless the residents desire to retain him for a longer period, and for that purpose undertake to contribute annually to the funds of the society a sum not less than one-sixth of the clergyman's salary, in which event the station shall retain his services so long as it continues to present, in the opinion of the committee, a sphere of sufficient importance for a resident minister.

19th.—That should this new engagement be entered into, but the station afterwards fail to pay within any year the full annual contribution, the station shall be liable, without further notice, to lose the services of the clergyman by his transfer to another sphere, as the claims of other stations shall require.

20th.—That if circumstances lead the society to withdraw from a station after it has had the services of a clergyman for any period, the house he has occupied shall revert to and become the property of the local committee, to be disposed of by them as they see fit, if that period be less than three years, and that if it equal or exceed three years, it shall be competent for the trustees of the society to let or sell the house, as may appear to them most advantageous to the interests of the society.

21st.—*Salary and other Allowances to Clergymen.*—That the stipend of each clergyman be Co.'s Rs. 250 a month, payable from the date of his joining his station; and that he be allowed the use of the residence stipulated for in Rule 16, free of rent or other charge.

22nd.—That a gratuity of Co.'s Rs. 750 be given to the clergyman on the day he is licensed by the Bishop or his Commissary to officiate at the station to which he is first appointed, and that the fees for his licence and letters of orders be paid by the society.

Additional Clergy Society.

23rd.—That a travelling allowance at the rate of 8 annas a mile be granted to the clergyman upon his first joining his station, or upon his station being changed, or upon his being summoned by the Bishop to a Visitation, or an Ordination, or for any similar purpose; or upon his obtaining leave to quit his station on medical certificate, the medical certificate specifying to what place in India he is to go. (The distances to be taken from the Post Office tables.) That if the clergyman proceed to sea, no passage money be allowed.

24th.—That a clergyman, permitted to leave his station for any place in India on medical certificate, be allowed to draw his full salary for one year, but in the second year, be subject to a deduction of Co's Rs. 50 a month; and after the expiration of two years, be entitled to no allowance during his absence, but that if he should quit India even on medical certificate, with the intention of proceeding to Europe, or to any place beyond the limits of the jurisdiction of the Metropolitan, he shall be entitled to no allowance whatsoever during his absence, unless he were originally brought out from Europe in the service of the society.

25th.—That when a clergyman has rejoined his station after an absence from it under the foregoing Rule, if he again leave it on medical certificate within a period of two years, his absence on the previous occasion shall be taken into account, and he shall be entitled to full or reduced salary for only such portions as may remain unexpired of the terms of absence therein specified. But that if after two years' residence he again obtain leave on medical certificate, he shall be entitled to the full benefits of the Rule.

26th.—That a clergyman, having obtained from the Bishop leave of absence from his station otherwise than on medical certificate, be allowed to draw his salary for one month during such absence, provided he has not left his station during the previous eleven months, and that if he be absent upon duty, his salary be allowed for the whole period that duty requires his absence.

27th.—*On Assuring the lives of Clergymen*—That with a view to make some provision for the families of clergymen in the event of their death, while in the service of the society, the four following Rules be adopted.

28th.—That whenever any clergyman shall enter the service of the society, an assurance be effected on his life in the name of the trustees of the society, for the whole term of life, without participation in profits, for the sum of Co's Rs. 10,000, in such Assurance Society as shall be approved by the committee.

Provided always, that if any clergyman having insured his life previously to joining this society, he shall only be required to deposit with the society's trustees the policy of such former insurance, along with such additional policy of insurance, if necessary, as shall make the whole sum insured for not less than Co's Rs. 10,000.

29th.—That the annual premiums upon the above-named assurance, whensoever and by whomsoever made, be advanced by the society, and deducted from the clergyman's salary in monthly instalments, (except when he is absent in Europe on the reduced allowances of Rule 35,) during which period the charge shall be borne by the society.

30th.—That should any clergyman die while in the society's service, and leave a widow, child, or children, the proceeds of the policy be made available solely and entirely for the benefit of such widow, child, or children, but that if he leave no widow or child, the proceeds of the policy be made over to his executors, administrators, or heirs-at-law, after deducting such sums as may have been paid from the society's funds under Rule 29 for keeping up the said policy.

31st.—That if a clergyman leave the society's service, the policy be made over to him subject to the same deductions as those specified in Rule 30.

Additional Clergy Society.

32nd.—*Supplemental Rules appertaining to Clergymen brought out by the Society from England.*—That this society having been established for the maintenance of an indigenous ministry, does not contemplate bringing clergymen from England; but that should it be found necessary on any occasion to depart from this its primary intention, by sending to Europe for clergymen, the four following Supplemental Rules be applicable to such persons.

33rd.—That in the event of the committee determining to bring out a clergyman from England for any station, the local committee of the station be required to pay Co's Rs 1500, for his passage and outfit, and also—should the clergyman be brought out from England at the express desire of the station—to deposit Co's Rs 2,500 with the committee towards defraying his passage back to England and his allowance, under Rule 35, in the event of his being obliged to leave the country on medical certificate.

34th.—That this sum of Co's Rs 2500, should it not be called for for the purpose for which it was deposited, be paid over to an Endowment Fund for that station, according to Rule 11.

35th.—That a clergyman brought out from Europe, in the service of the society, shall be entitled after SEVEN years of actual service in the country—if he be then compelled to quit India on medical certificate—to an allowance at the rate of £100 a year, for a period not exceeding two years, to be reckoned from the day of his embarkation to the day of his return to Calcutta. That upon a second and third departure from India, the same allowances be granted, provided the clergyman have spent the seven previous years in each case in actual service in the country, but not otherwise.

36th.—That Rules 21 22 and 23 be not considered applicable to a clergyman obtaining leave under Rule 35, but that in this case a period be allowed the clergyman for travelling from his station to Calcutta, and back again to his station after his return to India, at the rate of one day for 10 miles, exclusive of Sundays, and that a month additional be allowed in Calcutta for making preparation both for embarkation on his departure and for his journey on his return. That during this time he be entitled to his full salary, and that he be paid travelling allowance to and from his station at 8 annas a mile.

37th.—*Committee Meetings, &c.*—That the committee meet quarterly for the despatch of business on the second Tuesday of March, June, September, December, and that in the intervals between the quarterly meetings, the ordinary business of the society be conducted by the secretary acting under the orders of the President, or in his absence of the Vice-Presidents, but that no extraordinary outlay be incurred without the sanction of the committee to be summoned for the purpose if necessary.

38th.—That a general annual meeting of the society be held on the third Wednesday or other convenient day in June, to be determined by the committee, when the annual report shall be presented to the subscribers with statement of the accounts, and the Vice-Presidents, Secretary and Lay Members of the committee for the ensuing year elected. And that the Committee shall have the power of calling special meetings of the society.

39th.—That the committee have power to make such subordinate regulations and bye-laws, as they shall deem necessary, provided they be not at variance with the Rules of the society.

The object of the Society is to diffuse the knowledge and belief of Christianity amongst Heathens and Mahomedans by the preaching of the Gospel in public, and by openly inculcating its truths and principles on the young persons of both sexes who attend its Schools, of which the Society maintains about 1,000 in various parts of the world. There are about 630 of them in India and Ceylon, containing about 24,000 youths.

The design in the formation of the Association was, "that the friends of the Church Missionary Society might co-operate, as far as their circumstances and abilities would allow, with the Missionaries of the C. M. Society in and about Calcutta, in promoting the propagation of the Gospel," and this it does by maintaining two Preaching Bungalows, one at Tintonia, the other at Soorah, and supporting and superintending Schools for the Natives, both Christian and Heathen.

The Association supports the English School on the Mission Premises for the benefit of Native youth. It has also, in connection, seven Boys' Vernacular Schools at Tintonia, Manicktollah, Murzapore, Soorah, Nikurparah, Halsee Bagan, and Rajahaut. At Rajahaut there is also a Girls' School.

The total number of Schools at Calcutta, Agurparah and Thakerpooker, connected with the Church Missionary Society and the Association, is 19, a large number of Natives weekly hear the Scriptures read by the Christian Readers, principally in Hindustani.

By the subscription of a Rupee monthly, a Subscriber can obtain the services of a Reader once a week, at his residence, to read the Scriptures to the Servants.

It may also be mentioned, that a Library, chiefly of Missionary works and publications, has been established, for the use of the Collectors and of the Subscribers to the Association.

London Missionary Society.

IN BENGAL AND THE NORTH-WESTERN PROVINCES OF INDIA. *

Its object is to preach the Gospel to the Natives—to promote the Christian education of Native youth of both sexes—to assist Native Christian Churches, and to educate the offspring of Native Christian children and orphans. The principle of the London Society is to preach and teach the Gospel without reference to sectarian peculiarities. The Society has Missions in Calcutta and its suburbs, at Berhampore, Benares and at Mirzapore, Upper India. It has thirteen European Missionaries in Bengal and the Upper-Provinces, six native churches, six central schools with affiliated institutions for boys, and six schools for native girls, and one class of theological students designed for the Native Ministry.

In Calcutta it is represented by the Bengal Auxiliary Missionary Society. This Society was instituted thirty-five years ago.

The Object—The preaching of the Gospel in Calcutta, and the support of Christian worship, &c. in the village stations to the South of Calcutta.

Calcutta Mission.

S. E. of Wellesley Square.—This Mission (commenced about 17 years ago by Bishop Corrie in connexion with the Church Missionary Society) was originally designed to bring the Gospel to bear upon all those people in Calcutta who understand the Hindustani language. It consequently embraced more particularly the Mahomedans of Calcutta. The Mission was subsequently taken up, in 1846,

Colonial Church and School Society.

by the Society for the Propagation of the Gospel. It now embraces the Hindoos as well as the Mahomedans of Calcutta.

The Services in the Church (*St. Saviour's*) are held in Hindustani and Bengali.

A Preaching Chapel has lately been opened in Short's Bazar, (Park Street,) where the Missionaries preach to the Heathens three days in the week.

A local Association has also been formed in connexion with the Mission, the general object of which is to assist the Parent Society in carrying out its operations in this particular field.

The particular objects are the following: 1.—Building or renting a School House, paying the Masters, and supplying School Books gratuitously, or at the lowest possible price. 2.—Building small Chapels for preaching to the Mahomedans. 3.—Purchasing Bibles and Prayer Books for gratuitous distribution. 4.—Paying whatever Native Readers may be required in addition to the one paid by the Society. 5.—The temporary support of any Native Enquirer, or Christian, if for any especial reason it should seem good, with the Bishop's sanction that any should be so supported. 6.—Purchasing Tracts, or contributing to the re-publication of any Tracts that may be required. *

The general object of the Colonial Church and School Society is to send out Clergymen, Catechists, and Schoolmasters, to the Colonies of Great Britain, and to British Residents in other parts of the world.

The Seamen's Church Mission, in connexion with it, is designed to supply religious instruction for the large body of Seamen—British and American—estimated at 11,000 annually, who frequent the Port of Calcutta.

The Committee commend the Reverend Mr Jackson to the favourable reception of Commanders and Officers of Vessels, and would urge upon them the importance of availing themselves of his assistance in holding Divine Service for the benefit of their respective Crews.

It is confidently hoped, that every facility will be afforded him, when visiting ships, for obtaining general intercourse with the Seamen.

RULES.

1. That the Subscription to the Fund be one Rupee a month.
2. That Donations of any amount be thankfully received.
3. That the Clergy throughout the Diocese, and others interested in Church Building, be requested to become Collectors in aid of the Fund.
4. That before an application for a grant towards the erection of a Church is considered, it be necessary that the Plan and Estimates of the proposed building be forwarded to the Secretary, to be laid before the Trustees.
5. That a Local Committee be chosen at the Station where the Church is to be erected, to whom the grant shall be paid when due, and who shall, in concurrence with the Architect, undertake the general superintendence of building the Church.
6. That before the sum voted is paid, the Local Committee be required to state that the amount of promised Subscriptions, including the grant from the Fund, is equal to the sum mentioned in the Estimates.

Calcutta Bible Association.

7. That should the grant not become due according to the preceding Rule, within a space of years after the sum is voted, the grant becomes null and void, and a fresh application be necessary before it is renewed.

The prosperity of this admirable Fund almost entirely depends upon the kindness of those who undertake to collect the one Rupee Subscriptions.

The Clergy, therefore, are particularly requested (see Rule 3) to become Collectors, or to beg of some person or persons in their Stations, friendly to the design, to take this benevolent work upon them. If the Station be large, it is recommended that a Chuprassee be employed for the special purpose of taking the Collecting Hook round, and that his wages be paid out of the sum collected. This system has been found to work well, as it ensures regularity and gives but little trouble.

N. B.—The Mackenzie bequest of Rs. 48,000 for the Diocese of Calcutta has been paid by the Government to the Trustees of the Church Building Fund, and is available for grant towards the erection of Churches not assisted by the Government.

COLLEGIATE AND SCHOLASTIC INSTITUTIONS.**Bishop's College.**

AT SEEBPORE, OPPOSITE GARDEN REACH, FOUNDATION LAID 15TH DECEMBER 1820.

In 1819, in consequence of urgent representations from the Right Reverend THOMAS FANSHAW MIDDLETON, *Lord Bishop of Calcutta*, the Incorporated Society for the Propagation of the Gospel in Foreign Parts agreed to found a College in Calcutta for the purpose of instructing native and other youths in the doctrine and discipline of Christ's Church, in order to their becoming Preachers, Catechists and School-masters, for extending the benefits of education generally, translating the Scriptures, Liturgy, and other religious works, and of forming a residence for European Missionaries on their arrival in India; and having procured from His Majesty King George IV. a Royal Letter, authorizing the subscriptions of subjects to aid the objects of the Society, they immediately devoted £5,000 of the funds thus collected to the building and erection of the said College.

The Society for Promoting Christian Knowledge agreed afterwards to add another sum of £5,000, in aid of this building, and the Church Missionary Society to Africa and the East added another £5,000.

Medical College.

The Most Noble the Marquis of Hastings, Governor General of India in Council, on behalf of the Supreme Government of British India, agreed, at the request of Bishop Middleton, to present sixty-two biggahs of ground from the eastern extremity of the Hon'ble East India Company's Botanical Garden, for the building and demesnes of the College.

These demesnes were further increased at their Eastern boundary by the free gift of a piece of ground on the banks of the Hooghly, by Charles Theophilus Metcalfe, Esq., (since Lord Metcalfe, G. C. S.), and at the special request of Bishop Heber in 1826, Lord Amherst, Governor General of India in Council, assigned a further space of forty-eight biggahs on the western side of the road and on the banks of the Hooghly, to be separated from the Botanical Garden for the further demesnes and out-offices of the College.

Attached to the College is a beautiful Chapel and a most valuable Library, chiefly of Oriental and other Works and Manuscripts.

Parental Academic Institution and Dobeton College.

ESTABLISHED, 1ST MARCH 1823 — *Park Street, Calcutta*

This Institution was established on the 1st March, 1823, by a body of parents, anxious to secure for their children the benefits of a thorough education. In its constitution, it is essentially liberal and public.

The Educational arrangements are entirely under the control of the Principal, Mr George Smith. He is assisted by the Head Master, Mr James Bruce. A legacy of two Lacs and 30,000 Rupees, bequeathed to the Institution by the late Capt John Doveton, together with the increasing resources of the Institution, due to the exertions of the late Rev Andrew Morgan, has enabled the Committee and Principal to increase the efficiency of every branch of the Institution, to add to it a College Department, and to strengthen its Educational staff, by procuring three additional Masters from Britain, on high salaries. One will be a Professor of Mathematics, Natural Philosophy and Engineering, specially brought out to meet the most pressing wants of the country. Another will be a thorough English Master, to train the junior classes of the School Department, while the third will take up a new field, and devote his attention entirely to the Infant School Department. The selection of these has been confided to the following gentlemen in Scotland:

Rev. Professor Kelland
„ Dr Tweedie.

Rev W Tasker
Dr. Schmitz,

Dr. Woodford.
T. Oliphant.

J. Dalgleish, Esq.

It is expected that all will arrive by the opening of Session 1856

The Boarding Establishment, under the Principal and the Head Master, assisted by the Junior Masters and the Sergeant, has been much improved and elevated. The Head Master and Junior Masters dine with the boys, and the strictest attention is paid to cleanliness, order, and gentlemanly habits. Religious exercises and duties, both on the week-days and on Sabbath, are carefully attended to. On these depends the healthy life of the whole.

"The benefits of the Institution are sometimes extended to such children as have friends, who wish to place them in the school, and to avoid burdening the Institution, agree to pay a sufficient sum to cover their expenses. It is understood, that the guardians of these children retain their natural right of removal and other control over them, so as not to interfere with the general discipline of the school; but in all other respects, there is no distinction between them and the rest of the children. By a recent resolution of the Governors, children are now admitted on payment of 6 Rupees a month.

No children to be admitted without a guarantee satisfactory to the Governors that the monthly payment will be punctually defrayed.

The hours of instruction for reading, writing, &c., are from 7 A. M. to 1 P. M., with intervals for relaxation and meals—the study of handicraft occupies from 2 to 5 P. M., except on Fridays, when the School of Industry occupies the former and that of Literature the latter portion of the day. The Schools are always open to the public, and visitors are invited to call at any of these hours and inspect the Institution.

Application on the business of the School to be made to the Secretary between 10 A. M. and 4 P. M.

All Applications for having children admitted and apprenticed, are to be made to the Governors through the Secretary.

This Institution is composed of the Free School Society and the Old Calcutta Charity, united into one establishment, called the 'Calcutta Free School.' It is located in Jaun Bazar, and was first established there in 1794, in a house purchased from Mr Louis Barretto, for Sa Rs. 26,800, and in 1796, a new School for the girls was built on the same premises, at an expense of Sa. Rs. 20,000. In 1817, a separate branch of the Institution was formed for the reception of children, able and willing to pay a certain sum for board and education. No distinction was made in these, except that they slept exclusively in the upper dormitory until 1822, when this distinction ceased. In April 1820, the land tax of the School premises was redeemed at fifteen years' purchase, for Sa Rs. 325-13-1. In 1830, Bishop Turner suggested the expediency of placing the School under clerical superintendence, and the Free School Church was next erected at an expense of Rs. 33,641-8-6.

The number of children of both sexes depends upon the rise and fall of the funds of the Society. In 1790, there were 70 children; in 1791, 96, besides 26 paying scholars; and at the close of the year, 150 of all classes. In 1798, the number fell to 60, the remaining 100 being charged upon the Old Charity Fund. On the union of the schools in 1800, there were 200; in 1801, 250, in 1814, 200 boys and 100 girls; in 1820, 290 boys and 120 girls; in 1824, 250 boys; in 1826, 245 boys and 190 girls; in 1833, 200 boys and 120 girls, and in 1840 the number was 247 boys and 141 girls.

The receipts of the School are derived from the rent of the Old Court House granted in perpetuity by Government, viz., Rs. 853-5-4 per mensem; from the Government donation of Co.'s Rs. 836 per mensem; from interest on Government Securities; from a sum of Rs. 50, originally given for instruction in the Native languages, but now allowed to be generally appropriated for the School; from subscriptions and donations, charges for board and tuition, contingent receipts and Church pewage and collections. The annual disbursements amount to Rs. 21,290.

Calcutta Young Ladies' Institution.

No. 14, Theatre Road.

This Institution, which was projected by the late Rev Andrew Morgan, Principal of the Parental Academy and Doveton College, is intended to supply the long felt want, in Calcutta, of a first class Seminary, for the education of Young Ladies. Its constitution, devised by the founder, though finally framed by others, provides for the full development of a thorough system of instruction, including all the accomplishments that are taught in the best Institutions in Britain.

The necessity for such an Institution, and the great desire for its speedy establishment were manifest in the prompt liberality of the Christian Community in India, who nobly subscribed funds to the extent of more than Rs. 20,000.

Young Ladies' Institution.

The internal management has been intrusted to a Lady Superintendent, who is responsible for the education and general economy of the Establishment, being aided in the latter by a Committee of Ladies, and in the former by Governesses, Masters and Assistants. For fuller details, Parents and Guardians are referred to the Report of the Provisional Committee, issued in March 1855.

The nomination of a Lady Superintendent and Governesses was left with Referees in Edinburgh, viz the Rev Dr Tweedie, Convener of the Free Church Foreign Mission Committee; the Rev. T. D. K. Drummond, St. Thomas's Episcopal Church, the Rev. W Tasker, of Chalmers' Territorial Church; John Dalgleish, Esq., Principal of the Park Place Ladies' Institution, Thomas Oliphant, Esq., Principal of the Charlotte Square Institution; and Dr. Woodford, H M Inspector of Schools in connection with the Established Church of Scotland; who wrote as follows regarding the appointments made by them:

"In accordance with the instructions sent us, the situation of Lady Superintendent was offered to Miss Scott, whose acceptance of that offer is the surest guarantee for the zeal and ability with which her future duties will be discharged. Miss Scott's lengthened experience, as Lady Superintendent of the Female Training department in the Edinburgh Normal School, Moray House; and subsequently, in conducting a private Boarding and Educational Establishment for young Ladies, cannot fail to be of incalculable advantage to her, in the responsible position to which she has been called, in connection with the Female Education of India. To her matured views, her tact, prudence, powers of management, and devotedness to the object of her mission, the whole arrangements of your rising Institution may safely be entrusted. The high estimation in which Miss Scott was so long held by your late Principal, as well as your own intimate acquaintance with her character and worth, will form her best passport to the confidence and regard of the Christian Ladies of your land.

"Of the two Governesses who have been more immediately selected by ourselves, one, Miss Jane Erith, is an English lady both by birth and education, the other, Miss Elizabeth Nivison, was educated in one of the principal of our Edinburgh Institutions for Young Ladies, with the plans and details of several of which she is intimately acquainted.

"Both of these Ladies are highly accomplished, and have for a number of years past been engaged in tuition, in some of the best and most respectable families in this country. Miss Erith is a member of the Church of England, Evangelical; and Miss Nivison, of the Established Church of Scotland. From direct communication with the clergymen of both these Ladies, we feel assured of their high Christian worth and their peculiar fitness for taking part in the education and superintendence of the young."

Sudder Street Native Pay School.

This School has been established for the purpose of educating, and if possible, of imparting, religious and moral principles to the minds of the poorer classes of the native community. It is not however intended to exclude any of the higher castes who may choose to attend, but, on the contrary, practically to illustrate the truth of Scripture, that with God there is no respecter of persons. Instruction is for the most part communicated through the vernacular tongues. The word of God is put into the hands of the pupils as early as possible. It is a noticeable fact, that the experience of this School shows that Hindus and Mahomedans will pay to receive a Christian education. An English class is opened for any one who may have leisure or inclination to proceed somewhat higher in their education than the general school.

District Charitable Society

CHARITABLE INSTITUTIONS.

Calcutta District Charitable Society.

ESTABLISHED, A. D. 1830.—Office, No. 8-1, *Russell Street*.

CONSTITUTION OF THE SOCIETY.—The Society consists of a Central Committee of Supervision and Control—of several District Committees—of a Native Committee for the Relief of the Native Poor of Calcutta.

ITS FUNDS.—The Funds consist of a Monthly Donation of Rupees 1,200 from the Supreme Government, of voluntary contributions from benevolent individuals, and the surplus of all congregational collections in the Districts above the sum necessary for the relief of the poor residents in those Districts severally, whenever such surplus may be found to exist.—Besides two *permanent endowments* to this Society, consisting of the interest on "Lady William Bentinck Fund" and that on "Dwarkanath Fund for the Poor Blind," being no less a sum than a Lakh of Rupees, vested in such a way as to yield a monthly interest of Rs. 500, bestowed on the Poor Blind of Calcutta by Dwarkanath Tagore's munificent liberality.

In addition to these endowments, the Society has received from Lokenath Bose, Sudderalla, a sum of Co.'s Rs. 3,000, in Government 4 per cent. paper, forming the commencement of a Fund entitled, at his request, "Lokenath Fund for the Poor Invalids," the interest of which is appropriated accordingly.

THE CENTRAL COMMITTEE.—The Central Committee is constituted of the Bishop,—the Members of Council,—Judges of the Supreme Court,—the Members of the Select Vestry, and District Committees, and all Subscribers to the amount of Rs. 100 annually.

ITS FUNCTIONS.—The Functions of the Central Committee are to apportion the Funds appropriating a surplus which may arise in one District to the supply of a deficiency which may exist in another—to discuss and settle all general principles, which may affect the operations of the District Committees, either as to mode of investigation, class of persons to be relieved, or other general subjects; and also to relieve peculiar cases, which from their residing without the limits of any organized District, or involving some point unconnected with the localities of their residence, can more appropriately be decided on in a General Committee.

An **ALMS HOUSE**, and an **ASYLUM** for the reception of **LEPERS**, are established in *Amherst Street*, and are maintained by the funds of the District Charitable Society.

The Alms House stands on the East side of the street, opposite to the Leper Asylum. The occupants are placed there either temporarily or permanently with reference to the circumstances of each case. In both the institutions there are separate buildings for males and females, and a distinct ward for the married inmates. In like manner, Natives are provided with suitable accommodations; the Hindoos being lodged apart from the Mahomedans, and with them also the separation of the sexes is observed.

Needle-work of all kinds is done on the lowest terms by the able females in the Alms House. The Public are invited to encourage industry among the inmates by sending in work, a portion of the charges being appropriated to the workers as their earnings. Ladies requiring maid servants or ayahs may frequently obtain them by inquiry at the premises.

The superintendence of the Establishment is carried on by the Master and Matron, who reside on the spot, to whom reference on these subjects should be made.

District Charitable Society.

THE LEPER ASYLUM.—The Lepers are comfortably housed and allowed ample rations of suitable and wholesome provision, clothing and bedding, and every attention is paid to their comforts. They can go out whenever they may have occasion by requesting permission of the Superintendent, and may do any thing they please for their own amusement. It is to be regretted, that but a limited number of these unfortunate creatures have yet been induced to avail themselves of the Asylum, though every means short of coercion have been exerted by the Central and District Committees of the Charitable Society to divest them of their false and mistaken prejudices against the Asylum, but the greater number still prefer begging in the streets. We allude particularly to those loathsome objects infesting the bazars and the public thoroughfares: commiseration for them must be lessened by the assurance that there is an asylum provided for them, where all their reasonable wants are supplied, and therefore they need not seek casual relief for subsistence.

ADDRESS TO THE PUBLIC.—To give effect to this system, it is earnestly requested, that individuals will not subscribe indiscriminately to petitions which may be presented to them. Should the real circumstance of the petitioner be unknown to the person, to whom application for relief is made, a reference to the Central Committee or District Committees of the part of the town which the applicants inhabit will ensure the fullest investigation, and most prompt relief, if it be found necessary. A strict adherence to this line of conduct is the most effectual remedy for the numerous frauds now practised on the public.

In order to check the system of begging which prevails in Calcutta, and the promiscuous granting of relief, without inquiry into the cases relieved, and to give the public greater means of using the agency of the Society in the investigation of claims for relief, and the relief of deserving objects, the Society issues printed Tickets, by which applicants for charity may be referred to this Society for the investigation of their respective cases, and for relief according to the rules of the Society, or for report when a report is requested. These Mendicity Tickets, are obtainable at the Society's Office, at a charge of one Rupee per dozen.

Meetings of the Committee are held once a month, or oftener, if necessary, at St James's Church. Applications for relief are registered by the Secretary, and sent for inquiry and report to the Members, according to the sub-division in which the applicant may reside. The cases, with the report of the members by whom they have been investigated, are submitted to the Committee at the next ensuing meeting, and disposed of according to their merits, the applicant being in attendance. Those who are admitted to the funds, either permanently or for a temporary period, receive Tickets from the Treasurer to such effect. Those who are only admitted to temporary relief, on the expiration of the allotted period, are required to attend again before the Committee, and frequently their cases are re-investigated and disposed of according to a further report from the Visiting Member. Cases of peculiar hardship, but which, on account of the individual's being able-bodied, the Committee are precluded from relieving, are recommended to the Central Committee, with such temporary relief as may be deemed necessary by the Visiting Member, for the Committee, according to the exigency of the case.

Pensioners are paid on the 6th of every month at the Church, of those who are allowed out-door relief, but the majority of applicants are sent to reside at the Alms House.

Presidency General Hospital.

All Ministers and Missionaries connected with the Evangelical Churches and Societies in Calcutta, subscribing or otherwise rendering services to the Society, are members of the Committee *ex-officio*.

The object of the Society is to preach the Gospel, irrespective of denominational differences, to sailors of different nations visiting the port of Calcutta, to visit Seamen on board ships and in hospital, and to distribute the Word of God and religious publications in different languages.

The Gospel is preached twice every Lord's-day on board the Society's Floating Chapel, and on Tuesday evenings. The services are conducted gratuitously by ministers of different denominations of evangelical Protestant Christians. The Society employs one Missionary, whose business it is to visit the ships in port and sick Seamen in hospital. The Society has several Loan Libraries, which are put on board vessels trading to the Port.

The Society has been established twenty years.

HOSPITALS AND DISPENSARIES.

Presidency General Hospital.

South of the Great Jail.

The premises now denominated the General Hospital, were, in their original state, occupied, as a garden house by an individual, from whom they were purchased by the Government in the year 1768, and converted into an Hospital, &c. The General Hospital formed, to the tune of the institution of the Medical Board in 1786, a distinct establishment from that of the European Hospital, and they were each placed, as at the present time, under a respective Surgeon and two Assistant Surgeons, the Hospital for European Troops being confined to the detached right wing, whilst the central building with the detached left wing formed the General Hospital.

The central building is large, spacious, upper-roomed, with side apartments, capable of holding upwards of 120 patients. The detached building can hold with comfort 80.

Patients received into the General Hospital, whose expenses can be defrayed by themselves, and sick men belonging to Her Majesty's and the Hon'ble Company's Vessels, whose expenses will be defrayed by the Navy Agent or by the Commander or Owners of such ships or vessels respectively a charge is made at the rate of One Company's Rupee per diem for each man, and this sum, which has been ascertained to be merely the average amount of expense that will be necessarily incurred on account of such men, the Commissariat realize and carry to the credit of Government, in their account of Hospital charges, for the Presidency General Hospital.

The authorities authorized to grant for the admission of patients into the General Hospital, are Captains of Her Majesty's Navy; Captains of the Honorable Company's Marine, the Master Attendant, the Marine Surgeon, the Garrison Staff of Fort Wilham, and the Medical Board, Captains and Owners of English or Foreign trading Ships, House-holders of Calcutta, they being answerable for the Hospital expenses. The Magistrate of Calcutta and Secretary to the District Charitable Society are authorized to give free tickets of admission to paupers into Hospital.

Native Hospital and its Dispensaries.

The Resident Assistant Surgeons also use their discretion in admitting into the Hospital any cases that they may think of emergency, reporting the same to the Medical Board, through the usual channel.

The General Hospital, though in some degree attached to the Garrison, and receiving from them all the sick who may not belong either to the Queen's Corps or the Native Troops, is by its size, and the convenience of its apartments, very well adapted for the reception of tradesmen, or for persons of small means, who desire the benefits of constant attendance and medical aid, the means of receiving which nothing but an Hospital or much expence can afford, and thus, besides the Soldiers of the Garrison, or persons sent in by the Chief Magistrate or admitted as paupers by the Resident Assistant Surgeons, who have the power of taking into Hospital any sick requiring aid, many respectable people are in the habit of applying to the Hospital for relief, and continue as patients in one of the private apartments, for which they pay One Rupee per day for food, &c., until they are sufficiently recovered to attend their respective duties.

The central General Hospital and the Western wing attached to it will, without being crowded, accommodate 112 patients, and on emergent occasions room could be afforded for many more. The annual admissions into the Hospital may be stated to average about 2,000 in common years.

Police Hospital.

The Native Hospital was established in 1794, and the purchase of the ground and house, with the erection of necessary additions, cost Sa. Rs. 11,573-5-6.

Up to the period of Dr. Raleigh's appointment the Hospital consisted of but one ward, capable of receiving (without regard to sexes) promiscuously 40 Patients

During the past year, the Institution has been quite remodelled, and is now capable of accommodating with comfort 70 males and 30 females in distinct wards as House-patients, and with their respective male and female attendants. Besides this, there have been relieved from 250 to 300 out-patients daily.

The Institution is principally supported by a monthly subscription by Government of Rs. 1,000 (formerly paid from the Gya pilgrimage tax, and since its abolition, from the General Revenue) and interest on bequests left from time to time to the establishment by private individuals and a very few subscribers. From these sources, the income for the past year has amounted to 33,899 Rs 7 annas 9 pie. The disbursements for the same period have been Rs 17,124-8-5.

The Native Hospital supports three dependant Dispensaries, one in Park Street (Mr. Reed); one in Gurrinhatta (Mr. R. O'Shaughnessy), and a third in Chitpore,

This College is an Institution of the Church Missionary Society, and has its name and origin from a Hindu Gentleman, Rajah J. Nayan Ghoshil, by whom it was founded in the year 1814. The Committee have for some time felt that the growing wants of the Institution make the erection of a new building indispensable. Large as the present School is, its house accommodation is quite insufficient for the number of Boys attending it, every corner is filled to excess. The Committee therefore earnestly appeal to those who favor the cause of Christian and liberal education in India, to assist them with the funds required both for the Building and the Endowment of Professorship.

"LA MARTINIÈRE" COLLEGE

Claude Martin was a Native of the City of Lyons in France. He was originally a common Soldier in the French Army, and fought under Countilly, but retiring, in consequence of some dissipation he entered into the service of the Honourable East India Company and rose to the rank of a Major General. By various means and particularly in his latter days by supplying the Native Princes of Hindoostan with expensive articles of European luxury he amassed a fortune which even at that time was deemed enormous. The sum of money bequeathed to the Martinière amounted in 1822 to upwards of 900,000 Rupees or nearly 100,000 £ s. d. This sum was but a fraction of his wealth. He lived in the retirement of the King of Oude not far from Lucknow, and close to one of the Royal Palaces called Dilkoosha or the Hermit's Delight. His character and habits were of the most eccentric kind. The house which he built for himself and which remained disdignified by his directions still retained, is a large and singular edifice in which the Indian Grecian Hindoo and Mahomedan styles of architecture are mingled in strange confusion, whilst enormous lions, elephants and all the battlements and towers. A motto from the whole taken of *Consuetudo*. Hence the name. Consuetudo by which the house is popularly known. Here also is to be established a subordinate Martinière College with a Principal or Superintendent and proper establishment from the funds lately assigned to Trustees appointed by the Supreme Court of Calcutta to carry out that portion of the General's Will which relates to the creation of such an institution. Here the old General lived, and here in

the year 1800, aged sixty five he died. He had previously attempted to sell this house to the King of Oude, but difficulties arose about the price, and understanding, that in the event of his death the King would claim the property he resolved to prevent this by making it his tomb. He ordered a deep vault to be constructed beneath the house and directed his body to be buried there. No Mussulman will inhabit or disturb a tomb and his purpose was effected. A very good bust by our English Banks' faces the spectator as he enters. Four Coats of Grenadiers the size of life, with guns reversed and heads dressed stand round in niches, and apparently keep guard. In the centre of the vault is a long plain slab, on which is the following inscription

Here Lies

MAJOR GENERAL CLAUDE MARTIN

Born at Lyons in 1735

arrived in India a common Soldier
and died at Lucknow the 19th September 1800

PRAY FOR HIS SOUL

General Martin was professedly a Roman Catholic, but in reality of what religion, will be learned by a perusal of his last will. By this, sums of money in the way of legacies are bequeathed to a number of families whose claims upon him may be easily inferred, and his illegitimate or adopted children are named and provided for. The pious cities of Christianity he calls 'prejudices imbibed in his education' its ordinances he describes as more 'piously ceremonies'. He had for some time even thrown off the profession of Christianity but having examined other modes of faith, and finding them as he says, as ridiculous in their ceremonies as the religion in which he had been educated he had returned to his original creed.

Not knowing what religion might be true, but finding that all agreed in recommending charity to the poor, he bequeathed the sum of money before mentioned for the entire maintenance and education of a certain number of boys and girls for ever. His will directs that when their education is completed they shall be apprenticed and when arrived at proper age married. Every year a premium of a few rupees and a medal is to be awarded 'to the most deserving or virtuous boy or girl'. A public dinner is to be given to the whole of the children, and a toast to be drunk *in commemoration of the testament*. He ordered that the institution bear the name of La Martinière and that the circumstance of its erection be engraved on stone or marble in some conspicuous part of the building. No attempt is even made to draw out any scheme of education but the whole is left in the hands of the Government or the Supreme Court at Calcutta. In fact the whole arrangement is placed in the hands of the English Governors of India and the founder relying implicitly upon their wisdom leave them at entire liberty to devise the best institution for the public good.

The money thus bequeathed by General Martin was transferred to the Supreme Court of Judicature in Calcutta, is being the appointed guardian of all charitable bequests. This was in or about the year 1800 and it is not easy to account for the long period which intervened ere any direct steps were taken for its due appropriation. The delay arose partly from indolence as to the proper course to be pursued partly from legal impediments and partly from a melancholy succession of deaths amongst the Judges. The fact is, however, that more than thirty years elapsed ere any thing was actually done beyond the purchase of some land as a site for the intended building. The funds meanwhile were accumulating and authority had been given to the Chief Justice to draw out a scheme of education for the approbation of the Supreme Government as nearly as possible in accordance with the intentions of the testator.

In 1821 it was known that a decree of Court had been prepared by the Chief Justice Sir Charles Grey. The decree was not issued but it formed the basis of one finally promulgated by Sir C. Grey's successor, Sir William Russell, a short time previous to the arrival of the present Bishop of Calcutta in 1822. This decretal

* This amount has been since considerably increased by the decision of a court of Law in France.

order received the sanction of the Supreme Government and may be considered as the Charter of the Marston.

It first authorizes the expenditure of 1 to 000 Sicca Rupees or about £17 000 upon the building itself, to be completed according to a plan and estimate approved of by the Master of the Court, which plan included the erection and fitting up of the chapel for the performance of Divine Worship.

It then declares that the following persons (their assent having first been obtained) shall be *ex officio* Governors of the school, viz: the Governor General, the Members of Council, the Judges of the Supreme Court, the Bishop of Calcutta, and the Advocate General, and that these *ex officio* Governors shall annually elect four additional Governors, who during the year for which they are so nominated and elected, shall have equal power and authority with the *ex officio* Governors. The appointment of a Secretary is also authorized to receive such salary as may be fixed by the Governors.

Provision is also made for the perpetual maintenance and education of twenty girls and thirty boys who are to remain in the school till their education is completed, and shall then receive moderate sums of money (to be regulated according to the state of the funds) to enable them to follow some lawful calling or for marriage portions.

We then find, that on the anniversary of the foundation of the school the Governors are directed to procure a clergyman in the holy orders to preach an appropriate sermon to the boys and girls of the school, which is to be followed by a dinner in accordance with the terms of the will.

Other children are next declared admissible to the benefits of the school upon payment of a reasonable and sufficient sum.

And finally the Court declare that they conceive they shall best fulfil the intentions of the testator by having the decision of all points connected with the discipline and arrangements of the school to the Governors themselves, and conclude by retaining to themselves a power to make all such alterations for the establishment and management of the school as to them may seem meet. This devoted order is signed by W O Russell John Frank and Edwin Ryan and is dated 22nd October 1842. *Resolves signed*
